QUALITY OF INTERVIEW

Code your subjective impression as to the quality of the information collected during the interview. The subject may have refused to provide adequate descriptions of symptoms or been deliberately misleading on occasion.

0= Adequate

2= The interview is inadequate, in relation to the specified area, only in certain parts of the interview. Note the section where data is probably inadequate.

3= The whole interview is inadequate.

PRESENTING PROBLEMS

The initial section of the interview is designed to set the subject at ease, to obtain "scene-setting" information, and to allow the subject to express his/her concerns. The interviewer should follow the subject's leads and should avoid premature intrusive cross-questioning.

WHETHER DIFFICULTIES (CHILD'S PERCEPTION)

How come you're here at the clinic?

Do you know why you're goin to the clinic?

Who's idea was it that you go to the clinic?

TYPE OF PROBLEM (CHILD'S PERCEPTION)

Do you think you've got any difficulties or problems for which you need help or advice?

What are they?

MAKE A BRIEF LIST OF DIFFICULTIES/PROBLEMS

WHETHER DIFFICULTIES (PARENT'S PERCEPTION)

0 = None

1 = Yes, but not more than most children

2 = Yes, but vague or indefinite specification

3 = Yes, definite

TYPE OF PROBLEM (PARENT'S PERCEPTION)

0 = No

2 = Emotional Problems

3 = Conduct Problems

4 = Drug/Alcohol Problems

5 = Overactivity/inattention Problems

6 = School Non-Attendance

7 = Learning Problem

8 = Family Relationships Problem

9 = Other

**FAMILY SECTION
FAMILY STRUCTURE AND FUNCTION**

This section has five major functions;

(1) ESTABLISHING RAPPORT BETWEEN THE INTERVIEWER AND THE INTERVIEWEE. *The better the rapport between the interviewer and the interviewee, the better the material collected by the interview is likely to be. Good rapport also makes the interview much more pleasant for both parties and improves the flow of information. The interviewer should appear friendly, alert, and interested, but without being too obviously intrusive. The interviewee should be allowed to talk, and not over-energetically harried with questions. As far as possible the child's interests and activities should be positively connoted, and a non-censorious attitude to his/her limitations and attitudes should be adopted. Attention should be paid to the maintenance of rapport throughout the interview, but the early stages are especially important in setting the tone for the rest of the session.*

(2) ESTABLISHING THE STYLE OF THE INTERVIEW. *At the start of the interview, the interviewee does not know what to expect of it, or what sort of information s/he is being asked to provide. The early stages of the interview are therefore important in providing an opportunity for the interviewee to learn what is required.*

(3) COLLECTING INFORMATION ABOUT FAMILY STRUCTURE, LIFE AND RELATIONSHIPS. *This section represents an extension of the original family life and relationship section for use when more detailed information is required. A number of ratings are made of dimensions of family function and dysfunction that have been found to be related to child psychopathology in many studies. Many of these items are modified versions of material contained in the Child Life Events and Long-term Environment Adversity (CLELEA) interview, developed at the Institute of Psychiatry by Seija Sandberg and Micheal Rutter.*

(4) FINDING ENTERIES TO OTHER SECTIONS OF THE INTERVIEW. *This section is likely to throw up indications of areas of pathology, which may then be followed up.*

(5) COLLECTING INFORMATION RELEVANT TO THE INCAPACITY RATINGS. *Many of the questions in these sections are directly relevant to the ratings of Incapacity. It is important, right from the start of the interview, that the interviewer should be thinking about disturbance at the level both of symptoms and incapacity.*

ORGANIZATION OF THE SECTION

The section is organized into 4 sub-areas:

(1) Family structure

(2) Family life and relationships

(3) Relationships with parents

(4) Relationships with siblings

FOR REVIEW ONLY

FAMILY STRUCTURE

SIBLINGS

In this context, "siblings" include all children (or adults 18 or older) of the parents or parent substitutes who are responsible for the child, whether they are related by blood or not, and are listed in order of age (oldest first). Therefore, half-siblings and other children by previous marriages who may not be biologically related to the index child are included, as are "adoptive siblings" (which can mean that either the sibling or the child is adopted). This item includes siblings who either live or do not live at home with the index child. At this stage in the interview, the focus is on forming a picture of the current home environment of the child, with some understanding of the complications of the wider family group.

For each sibling, note name, relationship to child, sex, age, and whether the sibling has been in the home for one month of the primary period.

Newborns need not have lived in the home one month to be recorded as living in the home.

For siblings less than 1 year old, mark 0 for age.

A half sibling is one who shares one common parent with the child. For example, a mother who remarries and has another child with her new husband; the half-siblings would both have the same mother.

A step sibling, is related to the child by marriage only, and shares no biological parent with the child

MULTIPLE BIRTH

Note whether the target child is the product of a multiple birth. Code whether the parent believes the child to be an identical or non identical twin (or triplet, etc.). The child's position in that birth is then coded. A first born twin is coded as 1, even if s/he has older siblings.

Make a note of the evidence for identical/non identical status.

Code the details of the birth order here only if the child is the result of a multiple birth.

OTHERS IN THE HOUSE

Note here the name and status of any adult (other than adult siblings) who has lived in the house for at least 1 month during the previous three months.

Some families have very complicated patterns of relationships, and some children may have lived in various places during the three month primary period. The basis for these codings should be the site where the child has lived for the greatest proportion of the primary period, provided that there was at least one parental figure (that is, one who assumed some responsibility for attempting to control the behavior and discipline of the child) in the household during that time.

If the child has not lived at home for at least 1 month during the primary period, complete the Family Section on the last one-month period that s/he did live at home. If two different family placements of at least one month's duration have occurred during the primary period, the codings are made for the longest lasting of these. If there have been two placements of equal duration, the more recent is the basis for coding.

If there are more than ten others in the house, omit those who are the least closely related to the child. If further discrimination is required, omit those who have been there for the least time.

AGE AT ADOPTION

Enter the age (in years and months) at which the child was adopted by the current family, or the age at which a child is legally adopted by a step-parent.

FOSTER CARE

If child has ever been in foster care, code the number of foster homes and the earliest date of placement.

If child is currently in foster care, code the date of placement in that home.

BIOLOGICAL PARENTS' MARITAL STATUS

This item refers to the biological parents' latest marital status. Thus, if a couple lived together for a year, were then married for 5 years before being divorced, they would be coded 4 (Divorced).

If biological parents have a common law marriage (i.e. have cohabited for a period that the state determines is common law marriage) then code marital status as cohabited > 6 months.

Biological parents who prefer to live apart or are legally separated are coded as separated.

Note that this item refers only to the biological parents, and so does not necessarily refer to those who now "parent" the child.

NUMBER OF YEARS BIOLOGICAL PARENTS LIVED TOGETHER

The number of years that the biological parents lived together, regardless of marital status. Include the years that the child's biological parents lived together unwed, or the time biological parents lived together before getting married.

PARENTAL FIGURES

The term Parent refers to any adult who has lived in the child's home for at least 1 month, who assumes some responsibility for attempting to control the behavior and discipline of the child. Thus, a parent's live-in partner is regarded as a parent if s/he is involved in any way in providing discipline or care for the child.

For the entire Family Functioning Section, Parent #1 and Parent #2 refer to parental figures in the home who have lived with the child for at least 1 month in the 3 months being used in the family section. These are coded here as parental figures in the home.

Other Parent #1 and Other Parent #2 refer to parents who no longer live in the home. These may include biological parents, adoptive parents, step parents, or other "parents" who have had an impact on the child's upbringing. These are coded here as parental figures living elsewhere.

This section clarifies who are coded throughout the interview as Parent #1, Parent #2, Other Parent #1, and Other Parent #2. #1 and #2 are used in order to allow coding of atypical combinations of parents (two of the same sex as in having had two previous step-fathers, gay or lesbian parental relationships, or people who are not married as in mother and grandfather).

For the entire Family Functioning Section the mother and father refer to parental figures in the home, except as noted below. Information on who lives in the family home is coded separately under Others in Family Home. The relationship between the "parents" in the home is coded separately under Parental Relationships. The Marital Status of the Biological Parents is coded separately as well.

Examples of Codings of Parental Figures:

CHILD IN HOME WITH BOTH BIOLOGICAL PARENTS

If the child lives with both biological parents, code them throughout the section as Parent #1 and Parent #2.

If the biological parents have separated or divorced within the primary period and the parent now living elsewhere was in the family home for at least 1 month, code the biological parents as Parent #1 and Parent #2.

CHILD IN HOME WITH ONE BIOLOGICAL PARENT: *If the child lives with one biological parent and a new partner who serves as a parent, and the other biological parent lives elsewhere, code the parent and the new partner as Parent #1 and Parent #2 respectively. Code the other biological parent living elsewhere as Other Parent #1.*

If the child lives with one biological parent who does not have a new partner who serves as parent, code that parent at Parent #1, and the absent biological parent as Other Parent #1. As the child may have had very little contact with the biological parent living elsewhere, some of the questions may not be applicable and should be coded 'structurally missing'.

If the biological parents are separated or divorced and share custody of the child exactly 50/50. The mother counts as Parent #1 and her home is the home used for the section. If the mother is unavailable to interview, and the father is available, the father is coded as Parent #1 with his home being used for the home section, and the mother becomes other Parent #1.

CHILD IN HOME WITH NO BIOLOGICAL PARENT: *If the child lives with adoptive/foster/step parents, both of whom are involved in parenting the child, code them as Parent #1 and Parent #2. If the child has any knowledge of or contact with the biological parents, code them as Other Parent #1 and Other Parent #2.*

If only one adoptive/foster/step parent is in the home, with no current partner who parents, code him/her as Parent #1. Code the absent biological parents as Other Parents #1 and #2. If Parent #1's previous partner (who is not biological parent) served as a parent and is still involved in the child's life, you may choose to code him/her as an Other Parent, instead of a biological parent with whom the child has no contact.

If the child lives with another adult (e.g., grandmother, aunt, non-related person) who has a partner who serves as a parent, code them as Parent #1 and Parent #2. Code the absent biological parents as Other Parents #1 and 2.

Definitions and questions

Coding rules

Codes

If the child lives with another adult (e.g. grandmother, aunt, non-related person) who has no partner, code that adult as Parent #1. Code the absent biological parents as Other Parent #1 and #2.

Code aunts/grandparent/adult siblings as parents ONLY if they are acting as parent, instead of the mother or father. For instance, if the child lives with his/her biological mother and grandmother, but the latter does not act as a parent, as defined above, the grandmother would not count as Parent #2.

CHILD WITH DECEASED PARENT(S): If the child's parent(s) died during the primary period, code the parent as deceased. However, because the parent(s) was alive for at least part of the primary period, code information relevant to the child's relationship with that parent wherever possible throughout the Family Section.

If the child's parent(s) died prior to the primary period, code as deceased and complete the following items on the deceased parent: ethnic origin/race of biological parent, parental psychological problems, parental substance abuse problems, and parental arrests and prosecutions. For the age of deceased parents, code the age at time of death.

Definitions and questions

Coding rules

Codes

ETHNIC ORIGIN/RACE

This refers to the ethnic origin of each biological parent and the child. These categories have been established by the Federal Government for all Federal Grants.

AI= American Indian or Alaskan Native. A person having origins in any of the original peoples of North America, and who maintains a cultural identification through tribal affiliation or community recognition.

AS= Asian or Pacific Islander. A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area included China, India, Japan, Korea, the Philippine Island and Samoa.

BL= African-American/Black African. A person having origins in any of the black racial groups of Africa.

HI= Hispanic. A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

WH= White (European or Middle Eastern). A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

OT= Other. A person of a previously unspecified origin or a person insisting of a cultural identification of mixed origins.

FOSTER CARE

Have you ever been in foster care?

How long have you been in this foster home?

How many foster homes have you been in?

When did you first go into a foster home?

How long have you been with your current foster parent(s)?

What is the total amount of time spent in all foster care?

MARITAL RELATIONSHIP

A Marital Relationship is either a legal marriage or any continuing relationship that has lasted at least six months. In both cases, the relationship must have been ongoing during the last 3 months, with the partners living together in the same home for at least one month of that period.

N.B. Include homosexual partnerships if they fulfill the above criteria.

In the absence of a Marital Relationship, complete the ratings for an Exclusive Partnership, if appropriate.

RELATIONSHIP BETWEEN PARENT 1 AND OTHER(S)

EXCLUSIVE PARTNERSHIP

Any exclusive relationship that has been ongoing for at least 3 months and has continued for some period during the preceding 3 months; and that has involved the partner in visiting the child's home for at least 10 hours per week.

DATING

A relationship that fulfills the criteria for an Exclusive Partnership, except that it does not meet the 10 hr. time criterion.

FAMILY LIFE AND RELATIONSHIPS

GET A GENERAL PICTURE OF LIFE IN THE HOME, FOLLOWING ANY LEADS PROVIDED BY THE SUBJECT IN GIVING INFORMATION ON THE HOUSEHOLD.

REMEMBER THIS INFORMATION MAY BE IMPORTANT FOR INCAPACITY RATINGS; AVOID A PATHOLOGY FOCUS AT THIS STAGE, BUT ENSURE THAT THE AREAS IMPLICIT IN THE QUESTIONS BELOW ARE COVERED SYSTEMATICALLY.

IF NOT LIVING AT HOME, CODE THE SECTION FOR PERIOD OF AT LEAST ONE MONTH WHEN LIVING AT HOME.

NOW I WANT TO ASK YOU SOME QUESTIONS ABOUT HOW YOU GET ALONG WITH YOUR FAMILY.

- How do you usually spend the weekends?*
- Who do you do that with?*
- What sort of things do you do with your Mom and Dad?*
- With both of them, or just one?*
- What do you like doing best?*
- Who do you get on best with in the family?*
- Do you go out as a family at all?*
- What sort of things do you do together?*
- What do you generally do when you get home from school?*
- Do you have any homework?*
- Or do you do any reading?*
- Do your parents help you at all with that?*
- Who do you find is the most help?*
- How much do you play/do things with "siblings"?*
- How do you get on together?*
- How much do you squabble?*
- Or get in fights?*
- Do your parents get fed up with anything you do?*

RELATIONSHIPS WITH AND BETWEEN PARENTS

There are two basic dimensions of relationships with parents: a qualitative aspect, that is the quality of the relationship during that time; and a quantitative aspect, that is, time actually spent involved with parents.

ACTIVITIES WITH PARENT #1

Activities with parental involvement are coded here.

What sort of things do you do with "Parent #1"?

- Do you go out together?*
- What about shopping?*
- Do they help you with homework?*
- Or with your hobbies?*
- Do you go fishing/hunting etc. with them?*
- Do you have meals together?*
- Or watch T.V. together?*
- Do you all go out together as a family?*
- Do you enjoy it?**
- Does s/he drive you to outside activities?**
- Does s/he enjoy having you around?**
- Do you enjoy doing things with him/her?**
- Is that all the time or...*
- Why not?*
- What happens?*
- Can you tell me about the last time something like that happend?*

ACTIVITIES WITH PARENT #2

Activities with parental involvement are coded here.

What about "Parent #2"?

Do you enjoy doing things with him/her?

ACTIVITIES WITH PARENT

0 = All or most (atleast 75%) shared activities said to be a source of enjoyment to child

2 = At least some (25-74%) shared activities are a souce of tension, worry, or disinterest to the child.

3 = All mor most (at least 75%) shared activities are a souce of tension, worry, or disinterest to the child.

Intensity

Definitions and questions

CHILD-PARENT COMMUNICATION

Frequency of conversations between child and each parent, regardless of who initiates the conversations, and regardless of whether the child enjoys the conversation. An exchange must last at least 5 minutes to be regarded as a conversation.

Differentiate from Arguments and Criticism. A conversation is a verbal exchange that does not involve shouting, or aggressive exchanges, and is not explicitly focused on disciplinary matters or criticism.

Do you have conversations with your parents?

Who do you talk to most?

*What sort of things do you talk about?
Do you enjoy the conversations?
Does your parent enjoy them?
What about your "Other Parent"?*

*How often do you talk to "Parent #1"?
How long do conversations last?*

*How often do you talk to "Parent #2"?
How long do conversations last?*

PARENT USES CHILD AS CONFIDANT(E)

The parent talks over his/her own problems with child, or looks to the child for emotional support. For instance, expecting comfort from the child when upset.

Do they talk to you about their own problems?

*Who does that most?
How often
What do you do?
Does s/he have anyone else to talk to about them?
What about your "Other Parent"?*

INADEQUATE SUPERVISION BY PARENT #1

Parent fails to provide sufficient supervision. as shown by frequent lack of knowledge of the child's whereabouts, activities, or company; and/or fails to maintain effective control/ or disciplinary strategies; and/or is not concerned, or does not attempt to interveve, when the chid's behavior is deviant, or likely to lead him/her into trouble.

If parents have given up trying to maintain discipline, Code as 3.

Do you do any chores?

What do you do?

Do you do a good job?

Do you help around the "house" in any other way?

Is it easy for "Parent #1" to get you to do what s/he wants?

What happens when you don't want to do what s/he says?

Have there been times in the last three months when you didn't do what was asked?

What does "Parent #1" do about it?

Does it bother him/her?

Does it lead to arguments?

Does s/he ever just give up?

What happens then?

How often had that heppend in the last three months?

Does "Parent #1" always know where you are when you are not at home?

Does "Parent #1" expect you to let them know where you are?

Over the last three months, how often have you been out without "Parent #1" knowing where you were?

INADEQUATE SUPERVISION BY PARENT

0 = Appropriate supervision/control for age and circumstances.

2 = Whereabouts of child not known at least once per week; or parent unable to exercise effective control at least once per week.

3 = Whereabouts of child unknown at least 5 times per week; or parent usually (>50% of the time) unable to exercise effective control.

PAC8101
Intensity

Definitions and questions

INADEQUATE SUPERVISION BY PARENT #2

Parent fails to provide sufficient supervision. as shown by frequent lack of knowledge of the child's whereabouts, activities, or company; and/or fails to maintain effective control/ or disciplinary strategies; and/or is not concerned, or does not attempt to interveve, when the chid's behavior is deviant, or likely to lead him/her into trouble.

If parents have given up trying to maintain discipline, Code as 3.

What about with parent #2?

OVERINVOLVEMENT BY PARENT #1

Parent is unusually intrusive into, and controlling of, the child's life, to a degree that involves infantilization of the child. For instance, by exessive checking of the child's ativities, preventing age-appropriate independent behavior or decision-making (such as selecting friends or clothes).

Do you think Parent #1 gives you enough independence?

Does you still need help choosing clothes?

Does you want Parent #1 to help?

What about washing your hair?

Can Parent #1 trust you to get clean at bath time?

Does Parent #1 let you go out alone?

Can you ride your bicycle or walk to places you want to go?

Does Parent #1 exercise control over who your friends are?

How much does Parent #1 like you to make decisions on your own?

Does Parent #1 ever go through your belongings?

Or look in your closets?

Are there things you would like to be able to do that Parent #1 won't let you do?

Coding rules

INADEQUATE SUPERVISION BY PARENT

- 0 = Appropriate supervision/control for age and circumstances.
- 2 = Whereabouts of child not known at least once per week; or parent unable to exercise effective control at least once per week.
- 3 = Whereabouts of child unknown at least 5 times per week; or parent usually (>50% of the time) unable to exercise effective control.

OVERINVOLVMENT BY PARENT

- 0 = Appropriate level of involvement for the child's age and situation
- 2 = Definite infantilization (e.g. dressing of washing chold above age where this is normal); and prevention of age-appropriate behavior or decision -making
- 3 = As 2, but reaching extreme proportions

SELECTIVE NEGATIVE VIEW BY PARENT #1

The target child is regarded more negatively by his/her parents than the other child(ren) in the home. Just because one child has more problems, it doesn't mean that s/he will be the subject of a selective negative view. To be rated here, the child must actually receive different treatment from the other child(ren) for equivalent misdemeanors.

Do you have siblings in the home?

Do you think your parents treat you the same as your brother(s) and sister(s)?

Do you think they treat you unfairly?

Has it always been like that?
In what ways do they treat you differently?

Can you give me an example?
When things go wrong, is it usually your fault?

Do your parents have any difficulties with your "brothers and sisters"?

What sort of problems do you have?

SELECTIVE NEGATIVE VIEW BY PARENT #2

The target child is regarded more negatively by his/her parents than the other child(ren) in the home. Just because one child has more problems, it doesn't mean that s/he will be the subject of a selective negative view. To be rated here, the child must actually receive different treatment from the other child(ren) for equivalent misdemeanors.

Does your "parent 2" feel the same way?

When things go wrong, is it usually your fault?

Does your "parent 2" have difficulties with the other children?

What sort of problems?

IF CHILD HAS "OTHER PARENT #1" AND/OR "OTHER PARENT #2", COMPLETE "OTHER PARENTING". OTHERWISE, SKIP TO "RELATIONSHIPS WITH SIBLINGS", (PAGE 52).

Definitions and questions

INVOLVEMENT OF CHILD IN ARGUMENTS OR VIOLENCE (PARENTAL ARGUMENTS)

The child is involved in arguments, whether directly taking part, or used by one or both parents as an ally in the argument. For instance a parent may attempt to persuade, or demand, that the child join in condemnation of his/her partner.

Do you get involved in these "arguments" or "fights" at all?

In what way?
Do either of them try to get you on their side?
What do you do?
What happens then?
Do you get upset when they "argue" or "fight?"

What happens then?
Do they do anything to keep you out of their arguments?

What do you do?

Coding rules

INVOLVEMENT OF CHILD IN ARGUMENTS/VIOLENCE

0 = Child is not involved in arguments.

2 = Child is upset by arguments/violence at least sometimes, as manifested by protesting about them to parents, or becoming withdrawn.

3 = Child is actively involved in argument/violence by one or both parents.

Definitions and questions

INVOLVEMENT OF CHILD IN ARGUMENTS OR VIOLENCE

Do you get involved in these "arguments" or "fights" at all?

In what way?

Do either of them try to get you on their side?

What do you do?

What happens then?

Do you get upset when they "argue" or "fight?"

What happens then?

IF CHILD HAS OTHER PARENT #2 LIVING OUTSIDE OF THE HOME, COMPLETE SECTION. OTHERWISE, SKIP TO "PARENTAL PSYCHOLOGICAL PROBLEMS-DISRUPTION OF LIFE ROLE", (PAGE 38).

Coding rules

INVOLVEMENT OF CHILD IN ARGUMENT/VIOLENCE

0 = Child is not involved in arguments.

2 = Child is upset by arguments/violence at least sometimes, as manifested by protesting about them to parents, or becoming withdrawn.

3 = Child is actively involved in argument/violence by one or both parents.

Codes

Definitions and questions

RELATIONSHIP BETWEEN OTHER PARENT #2 AND ONE OF CHILD'S CURRENT PARENTS

The relationship between one of the child's current parents (either Parent #1 or #2) and Other Parent #2.

Do "your parent" have any contact with "Other Parent #2?"

How do they get along?

How much contact has there been in the last 3 months?

ARGUMENTS BETWEEN PARENT AND OTHER PARENT #2

Arguments are disagreements lasting at least 5 minutes, which result in a dispute involving raised voices, shouting, verbal abuse, physical aggression, or fights. Only one parent need be involved in shouting, etc.

Do they argue with each other?

*What are the arguments like?
Can you tell me about the last time?*

Coding rules

CHILD'S CURRENT PARENT

- 1 = Parent #1.
- 2 = Parent #2.

QUALITY OF RELATIONSHIP BETWEEN CURRENT PARENT AND OTHER PARENT #2

- 0 = No evidence of relationship problems.
- 2 = Relationship has some negative aspects.
- 3 = Relationship almost completely negative.

PARENTAL PSYCHOPATHOLOGY

Psychological, nervous, or psychiatric problems, which have either caused a parent to seek treatment, or led to family or social disruption or impaired performance in a major life role (e.g. inability to care adequately for children, loss of job, etc.).

PARENTAL PSYCHOLOGICAL PROBLEMS-DISRUPTION OF LIFE ROLE

Psychological, nervous, or psychiatric problems, which have either caused a parent to seek treatment, or led to family or social disruption or impaired performance in a major life role (e.g. inability to care adequately for children, loss of job, etc.).

Does your parent have any "emotional" or "nervous" problems like "depression" or "nerves"?

Has your parent ever had any problem which has affected their ability to work or their ability to look after you (or other children)?

PARENTAL PSYCHOLOGICAL PROBLEMS-SOUGHT TREATMENT

Has your parent ever had any treatment for any "emotional," "nervous," or "depression" problems?

Who from?

What sort of treatment?

PARENTAL PSYCHOLOGICAL PROBLEMS-RECEIVED MEDICATION

Has your parent ever received medication for any "emotional," "nervous," or "depression" problems?

What sort of medication?

PARENTAL PSYCHOLOGICAL PROBLEMS-HOSPITALIZED FOR MENTAL HEALTH PROBLEM

Has your parent ever been hospitalized for mental health problems?

RELATIONSHIPS WITH SIBLINGS

DETERMINE THE QUALITY OF THE CHILD'S RELATIONSHIP WITH EACH SIBLING, REGARDLESS OF PLACE OF RESIDENCE.

Check that siblings are coded in the same order.

Child has siblings.

How do you get along with your "brothers and sisters?"

Are you especially close to any of them?

*Who is that? (Note Age and Sex).
In what way are you close?
Do you do things together?
What sort of things?
Can you share secrets or talk about your problems/worries with "sibling?"*

*What sort of things?
Does "sibling" talk to you about his/her worries?
Are there any of your brothers/sisters that you don't get along with?*

Do any of your brothers/sisters pick on you in particular?

Or are there any of your brothers/sisters that you avoid because you don't get along?

*Who is that?
What happens?
Do you argue a lot?
Or get into physical fights - I mean real fights?
How often does that happen?
Are there times when you do get along?
How long do you stay angry at each other afterwards?
Is it ever as long as a day?
Would you say you get along most of the time, or that you don't get along?
When did you start not getting along?
Can you remember a time when you did get along?
When did you start to get along badly?
What about the others?*

Coding rules

NUMBER OF ARGUMENTS WITH OTHER ADULTS

An argument is defined as a disagreement, lasting at least 5 minutes, that results in a dispute involving raised voices, shouting, verbal abuse, or physical aggression or fights.

Do you have arguments with other adults whom you see outside of school?

*Who do you argue with?
Tell me about the last time.
How long do these argument last?*

IF ARGUMENTS WITH ADULTS PRESENT, CONTINUE. OTHERWISE, SKIP TO "AGE APPROPRIATENESS OF FRIENDS", (PAGE 3).

Definitions and questions

ARGUMENTS WITH PHYSICAL VIOLENCE BY CHILD

An argument is defined as a disagreement, lasting at least 5 minutes, that results in a dispute involving raised voices, shouting, verbal abuse, or physical aggression or fights.

How many arguments do you have with other adults over the last three months?
Did the arguments ever get physical?
What happened?

OTHER PHYSICAL VIOLENCE BY CHILD

Have you "hit" an "other adult" over the last three months?

AGE APPROPRIATENESS OF FRIENDS

The degree to which the child's friends are within two years of his/her own age. Friends, in this context, refer to those with whom the child spends leisure time, and who are not family members.

Are most of your friends about your age?

Are they mostly younger than you?
Or older?

Coding rules

Definitions and questions

FREQUENCY OF CONTACT WITH PEERS

The frequency with which the child meets with others, who are not family members, during his/her leisure time. Peers can be child's friends, acquaintances, or peers in neighborhood.

Now I want to ask a few questions about your friendships with other children.

How often do you play with other children you know, outside of daycare/school?

*Do you have "play dates" with any friends?
Or play with children in your neighborhood?*

BEST FRIEND

An intensive, selective, and exclusive or semi-exclusive friendship with another person, in which there is an expectation that the dyad does things together, and in which there is a preferential sharing of confidences. There may be 1 or 2 "best friends" at any one time, but if the friendship involves 3 or more peers this would not ordinarily be included as a "best friend" relationship.

Do you have a best friend? (NOTE NAME)

*Does s/he ever come to your house?
Or do you go to his/hers?
How long has s/he been your best friend?
What about your other friends?
Is that different from your other friendships?
Do you tell "best friend" things you wouldn't tell other people?*

IF NO "BEST FRIEND" CURRENTLY, ASK:

Have you had a best friend in the past?

Coding rules

FREQUENCY OF CONTACT WITH PEERS

0 = Sees at least 1 peer outside of college/work more than once per week.

2 = Sees at least 1 peer outside of college/work between once per week and once every two weeks.

3 = Sees less than 1 peer outside of college/work in 2 weeks.

BEST FRIEND

0 = Definite best friend in last year.

1 = Uncertain (including 3 or more close friendships described as "best").

2 = No best friend in last year.

Codes

Definitions and questions

CONFIDANT(E) AMONG PEERS

The presence of a confidante is demonstrated by a personal sharing of intimate feelings with one or more other people in a fashion that is selective to that relationship. The sharing may consist of hopes, worries, personal "secrets," ambitions, problems, fantasies, feelings of love or rejection, etc., but the sharing must be private to the relationship and it must involve some self-disclosure.

Do not include sibling relationships here.

Do you talk with anyone about your feelings? I mean about your worries or hopes..... or about whom you want to make friends with?

CONFIDANT(E) IN FAMILY

*Do you share "secrets" with anyone?
Who is that?
Do you have a friend you have talked to about worries or problems?*

OTHER ADULT CONFIDANT(E)

Do you share her thoughts or personal problems with adults outside of the family?

NUMBER OF ARGUMENTS WITH PEERS

An argument is defined as a disagreement, lasting at least 5 minutes, that results in a dispute involving raised voices, shouting, verbal abuse, or physical aggression or fights.

Do you have arguments with other kids when you is not at school?

*Who do you argue with?
Tell me about the last time.
How long do these arguments last?
How many arguments have you had with other kids away from school over the last three months?*

Coding rules

CONFIDANT(E) AMONG PEERS OR OTHER ADULTS

- 0 = Definite confidant(e) with whom shared feelings in last year.
- 1 = Uncertain (including sharing of feelings to wider non-exclusive group).

DIFFICULTY MAKING OR KEEPING FRIENDS

Child has difficulty either forming or maintaining friendships, which is evidence by having no or few friends. The difficulty may be due to failure to approach other children (withdrawal) or aggressive relationships with other children (discord) or both.

Do not include worry or anxiety about friendships unless it leads to difficulty in making or keeping friendships.

Do you have any difficulty making friends with other children

Do you have any trouble keeping friends?

Do you find other children don't want to play with you or don't choose you for games

What happens?

Do you think you are more shy than other boys/girls the same age?

Does that affect your making/keeping friends?

Or do you get into arguments or fights with friends or other children who might become friends?

How do you feel about that?

Does it bother you?

How long have you had difficulty making/keeping friends?

Has it always been like that, or can you remember when it started?

CONFLICTUAL RELATIONSHIP WITH FRIENDS

The child has relationships with a friend or friends that include substantial amounts of physical or verbal aggression or arguments. Conflict may or may not cause the child problems in making or keeping friends.

THIS ITEM IS GENERALLY CODABLE BASED ON INFORMATION ALREADY GIVEN.

YOU HAVE TOLD ME THAT YOU DOESN'T HAVE DIFFICULTY MAKING OR KEEPING FRIENDS.

Do you have a lot of conflict with your friends?

Does it cause you difficulty in making or keeping friends?

IF CHILD DOES NOT HAVE DIFFICULTY MAKING OR KEEPING FRIENDS DUE TO DISCORD, THEN COMPLETE CONFLICTUAL RELATIONSHIP WITH FRIENDS. OTHERWISE SKIP TO SHYNESS WITH PEERS.

DIFFICULTY MAKING FRIENDS

0 = Absent

2 = Present

WITHDRAWAL

Definitions and questions

SHYNESS WITH PEERS

Sensitive reluctance to approach peers who are little known to the subject.

CONSIDER SOCIAL ANXIETY ESPECIALLY IF SHYNESS IS PRESENT TO THE EXTENT THAT CONTACT IS ACTIVELY AVOIDED.

Do you think that you're more shy than other kids?

*In what way?
How shy?
Does that stop you from doing anything?
Can you tell me about last time it did?*

SUBJECT IS TEASED/BULLIED

Child is a particular object of mockery, physical attacks or threats by peers or siblings.

Do you get teased or bullied at all by your siblings or friends?

*Is that more than other children?
Are other boys and girls mean to you?*

*How much?
Tell me about the last time.
Who does it?
Why do they do it?
Why do they pick on you?
What do you do about it?*

Coding rules

SHYNESS WITH PEERS

0 = Absent

2 = Shyness involving definite discomfort on meeting new people with whom child has no special reason to feel usch discomfort.

CHILD TEASED OR BULLIED

0 = Absent

2 = The child is a particular and preferred object for bullying or teasing. S/he is at least somewhat singled out for this sort of attention.

"SCHIZOID" LACK OF INTEREST IN PEOPLE

Child has pervasive lack of interest in peers that is not a consequence of anxiety; does not seek increased contact with them; and lacks a sense of closeness or involvement with other people.

Do you prefer doing things alone or with other people?

Why is that?

Do you enjoy being with people?

How well do you fit in with other kids?

Are you usually one of the group?

Is there anyone you feel really close to?

Do you have a special friend?

Do you wish you had more friends?

Why don't you have more friends?

LACK OF EMPATHY/EMOTIONAL SENSITIVITY

A lack of awareness of, and sensitivity to, other people's feelings. Lack of ability to detect other's feelings, not lack of willingness to respond to them. This lack is pervasive and not specific to any particular relationship.

Can you usually tell when other people are upset?

Or happy?

What about your family?

Do your friends talk with you about their worries or troubles?

IF NO:

Why not?

PATTERN OF NON-ATTENDANCE (TRUANCY)

MISSING TIME AT SCHOOL (TRUANCY)

The child fails to reach, or leaves school, without permission of school authorities, and without a normally acceptable excuse (such as illness), for reasons not associated with either separation anxiety or fear of school. The reason may be dislike of school or a wish to take part in other activities, with or without friends.

Non-attendance because of worry or anxiety may also occur, in which case both are rated as being present.

Have you skipped school in the last 3 months?

NB: IF SCHOOL NON-ATTENDANCE IN THE LAST THREE MONTHS DUE TO WORRY/ANXIETY, CODE SCREEN AS POSITIVE.

Have you been worried at all about going to school in the last 3 months?

*What happens when you're worried about school?
Do you get anxious or upset on school morning?*

Do you worry or get upset about being away from your "parents"?

Do you worry when they go out without you?

Or when your at school?

*What about if they go away without you?
Such as because of work or on vacation?
Would you worry about that?*

IF SCHOOL ATTENDANCE OR SEPARATION SCREEN POSITIVE, COMPLETE. OTHERWISE, SKIP TO "EXCESSIVE NEED FOR REASSURANCE", (PAGE 3).

Definitions and questions

WORRIES/ANXIETY OVER GOING TO SCHOOL

WORRIES/ANXIETY ABOUT LEAVING HOME

Worry or subjective anxious affect related to leaving home for school.

Do you ever worry about leaving home to go to school?

Are you frightened about having to leave home?

Why?
What do you think might happen?
Do you ever end up staying at home?
Or leaving school early, before you should?

How long does this last?
How often does this happen?
How long do you remain upset or worried?
Once you actually leave the house (for example, are in the car), how long does it take for you to calm down?
Can you say why you're afraid or worried?

When did you start acting this way?

ANTICIPATORY FEAR OF SCHOOL

Anticipatory worry or subjective anxious affect related to school situation.

Are you frightened or worried about anything at school?

Such as particular classes, or teachers, or the behavior of other children?

Why?
Do you worry about school when you're not there?

What do you do about it?
Can you stop being frightened?
Can anyone manage to reassure you?

Coding rules

Definitions and questions

FEAR WHEN AWAY OF WHAT WILL HAPPEN AT HOME

Worry or subjective anxious affect related to the possibility of bad things happening at home while the child is at school.

Do you worry about what might happen at home when you're away at school?

*What do you think might happen?
What do you do about that?
Do you worry about it even when you're at home?
What does your "parents" say about it?
Can they manage to reassure you?*

PHYSICAL SYMPTOMS OF SEPARATION

Complaints of physical symptoms, e.g. stomachaches, headaches, nausea, vomiting, on school days, or on other occasions when separation from major attachment figures occurs or is anticipated.

Do you get any aches or pains on school days?

Or at other times when you're seperated from your parents?

Do you ever feel sick at these times?

*Or get headaches?
Or stomachaches?*

REMEMBER TO COMPLETE ANXIOUS AUTONOMIC SYMPTOMS.

NUMBER OF DAYS IN PRIMARY PERIOD

When did it start?

**PATTERN OF NON-ATTENDANCE
(WORRIES/ANXIETY)**

**STAYS AT HOME SOME MORNINGS
(WORRY/ANXIETY)**

Child stays out of school because of fear/anxiety/emotional disturbance.

Do you stay at home sometimes?

When is that?

How often?

How do you feel on these mornings?

What do your "parents" do when you don't want to go to school?

Do they make you go?

Do they try to?

What happens then?

Tell me about the last time it happened.

Is it like that every morning?

QUESTION IN DETAIL TO DIFFERENTIATE STAYING AT HOME BECAUSE OF ANXIETY, OR OTHER EMOTIONAL DISTURBANCES, FROM STAYING AT HOME FOR OTHER REASONS.

When was the first time this happened?

**HAS TO BE TAKEN TO SCHOOL
(WORRY/ANXIETY)**

Parent, or someone else, has to take child to school to ensure arrival because the child is anxious about leaving home or going to school.

Do your "parents" have to take you to school sometimes?

Why is that?

How often?

What happens?

**STAYS AT HOME SOME MORNINGS

Definitions and questions

RUNS OUT OF SCHOOL (WORRY/ANXIETY)

Child either fails to reach school because of worry/anxiety, or leaves before end of school day without permission because of worry/anxiety.

Are there ever times when you just can't bear to go into school?

What is it that makes it difficult for you to go into school? Or when you leaves school without permission?

Why do you leave?
Where do you go?
Who with?
What have your "parents" done about that?
What has the school done?

QUESTION IN DETAIL TO DIFFERENTIATE ANXIETY OVER SCHOOL ATTENDANCE FROM TRUANCY OR OTHER FORMS OF NON-ATTENDANCE.

IF SCHOOL NON-ATTENDANCE PRESENT, REMEMBER TO COMPLETE LEGAL ACTION OR TREATMENT SECTION AND AUTONOMIC SYMPTOMS.

SEPARATION ANXIETY POSITIVE

Endorsement of separation questions requires that you do the whole section.

Endorsement of worry/anxiety over school attendance questions only, allows you to skip the separation part of the section.

Separation anxiety would code "yes" if child has worries/anxieties about being separated from parent(s). If child has worries/anxieties about school attendance only, code "no".

NB. INTERVIEWER USE INFORMATION ALREADY COLLECTED TO CODE THIS ITEM.

Definitions and questions

SEPARATION ANXIETY

SEPARATION WORRIES/ANXIETY

Excessive worries or fear concerning separation from the persons to whom the affected child is attached.

There are 2 forms of Separations Worries/Anxiety:

Worries/Anxiety about Possible Harm, and Worries/Anxiety about calamitous Separation.

Worries/Anxiety About Possible Harm:

Unrealistic and persistent worry or fear about possible harm befalling major attachment figures, or fear that they will leave and will not return.

Worries/Anxiety About Calamitous Separation:

Unrealistic and persistent worry or fear that an unexpected calamitous event will separate the child from a major attachment figure, e.g., the child will be lost, kidnapped, killed, or be the victim of an accident.

Tell me how you react when you're separated from your "parents" or other household members.

Are you afraid of being away from them?

Do you worry when they're away?

Or when you have to leave them?

When you're away from your "parents" do you worry that they might come to some harm?

Or that they might leave you?

What do they do about it?
Can they stop your worrying?
What do they do?

Does s/he worry that s/he might come to some harm while s/he's away from the family?

What does s/he do about it?
What happens at school time?
What happens if a friend asks him/her to go out?
Can you stop X worrying about that?

Definitions and questions

RELUCTANCE TO SLEEP ALONE

Persistent reluctance, or refusal to go to sleep without being near a major attachment figure.

Can you go to sleep on your own?

*What happens?
What do your "parents" do about it?
How long does that last?
Could you go to sleep on your own if you had to?*

SLEEPS WITH FAMILY MEMBER

Actually sleeps with a family member because of persistent refusal to sleep (through the night) without being near a major attachment figure.

Can you sleep the night through on your own?

Do you ever have to sleep with "Mom" or "Dad"?

How often do you sleep with family member(s)?

Coding rules

RELUCTANCE TO GO TO SLEEP ALONE

0 = Absent
2 = Sometimes reluctant to go to sleep alone.
3 = Almost always reluctant to go to sleep alone. Protest nearly every night unless allowed to sleep with family member.

Definitions and questions

RIISING TO CHECK ON FAMILY MEMBERS

Rising at night to check that attachment figures are still present and/or free from harm.

This does not include rising to check on subject's own child, if s/he has one.

Do you ever get up to check that "family members" are OK?

How often do you do that?

*Does your "parents" wake up when you checks on them?
Are you able to go back to bed and fall asleep on your own after getting up to check on them?*

When did you start getting up to check on the family?

AVOIDANCE OF SLEEPING AWAY FROM FAMILY

Avoidance, or attempted avoidance, or sleeping away from family, as a result of worrying or anxiety about separation from home or family.

Have you ever been on any overnight school trips?

Do you ever stay overnight with friends?

What about your grandmother's (or other relatives)?

IF NO, ASK:

*Hasve you ever been asked to sleep over?
Do you get worried about sleeping away from home?*

Coding rules

Definitions and questions

SEPARATION DREAMS
 Unpleasant dreams involving theme of separation.

Have you had any nightmares about leaving your "parents"?

How often?

How often do you have these bad dreams?
Did they wake you up from sleep?

AVOIDANCE OF BEING ALONE
 Persistent avoidance of being alone due to anxiety about being away from attachment figures.

Do you try to avoid being on your own?

Why is that?
What do you do?
What do your "parents" do?

When did it start?
How do your "parents" respond?

ANTICIPATORY DISTRESS
 Signs or complaints of excessive distress in anticipation of separation from major attachment figures; or crying, pleading with parents not to leave.

What do you do when you think your "parents" might leave him/her?

Or when they have to leave you?

Coding rules

SEPARATION DREAMS

- 0 = Absent
- 2 = Separation dreams recalled
- 3 = Separation nightmares wake child.

AVOIDANCE OF BEING ALONE

Definitions and questions

AGORAPHOBIA

Subjective anxious affect specific to open spaces or crowds. Typical places and situations relevant to agoraphobia include being outside the home alone, being in a crowd, standing in line, traveling on public transport or by automobile.

Distinguish from acrophobia (fear of heights) when fear of being on bridges, etc. is described.

Distinguish from separation-related anxieties and worries, where the central fears or worries concern separation from attachment figures. When there is doubt as to the correct coding in such a case, code both the appropriate separation-related symptoms and agoraphobia and complete the coding indicating possible overlap with separation-related symptoms.

Are you afraid in open spaces?

Or going out in crowded places?

Or using public transportation?

How does it affect you?

Can you stop yourself from being afraid?

Do you do anything to avoid it?

Has it affected what you do?

What affect has it had?

How often has that happened in the last three months?

How long does that last?

Coding rules

AGORAPHOBIA

0 = Absent

1 = Fear is intrusive into at least one activity and uncontrollable at least some of the time.

2 = Agoraphobia is intrusive into at least 2 activities and uncontrollable at least some of the time.

3 = Agoraphobia is intrusive into most activities and nearly always uncontrollable.

4 = The child has not been in the anxiety provoking situation during the past 3 months because of avoidance, but the parent reports that the anxious affect would have occurred if the child had been in such a situation.

HOURS : MINUTES

AVOIDANCE

0 = Absent

2 = Subject has developed routines that allow him/her to adopt a relatively normal lifestyle while avoiding feared situation.

3 = Subject lives a highly restricted life because of feared situations.

Definitions and questions

PANIC ATTACKS

Panic attacks are discrete episodes of overwhelming subjective anxious affect and autonomic symptoms that reach a peak within 10 minutes of onset, and that the subject usually tries to terminate by taking some definite action, unless they are too "frozen" by panic to do so.

Do you ever get panicky?

- What happens then?*
- Does it affect you physically at all?*
- When does it happen?*
- Does it occur for no good reason?*
- Do you have to get out of the situation?*
- How long does it last?*
- What do you do?*
- Do you try to avoid situations where you might get panicky?*
- When did it start?*

IF NO PANIC ATTACKS, SKIP TO "COMPULSIONS", (PAGE 5).

DEREALIZATION DURING PANIC ATTACK

The subject experiences his/her surroundings as unreal; everything may seem colorless, artificial, or dead.

When you got panicky, did you feel that things around you didn't seem real?

Or that it was like a stage set with people acting like robots instead of being themselves?

What was it like?

DEPERSONALIZATION DURING PANIC ATTACK

The subject feels as if s/he is unreal, that s/he is acting a part, that s/he is detached from his/her own experiences.

When you got panicky, did you feel as if you weren't real?

Did you feel like you were acting your life instead of being natural?

Did you feel that you were outside your body looking at yourself from outside your body?

FEAR OF LOSS OF CONTROL DURING PANIC ATTACK

Subject feels as though "going crazy" or is afraid of losing control over body or mind (e.g. urinating in public, falling down, creating a "scene").

When you got panicky, were you afraid of what you might do?

That you might fall down, or create a "scene"?

Did you feel like you were going crazy?

Or losing control of your mind?

FEAR OF DYING DURING PANIC ATTACK

Subject feels as though s/he might die, or is afraid that s/he might die.

When you got panicky, were you afraid that you might die?

CONCERN ABOUT ADDITIONAL PANIC ATTACKS

Concern, worry, or anxious affect related to the possibility that another panic attack may occur.

Are you worried about having another "panic attack"?

Does it bother you much?

CHANGE IN BEHAVIOR

Any change in usual behavior or routines, intended to avoid the possibility of a panic attack recurrence. Or changes in behavior or routine to avoid potential embarrassment or humiliation that the subject fears might result from a panic attack.

Have you done anything to avoid having anymore "panic attacks"?

Does that affect your life much?

WORRY ABOUT IMPLICATIONS

Worry or anxious affect related to possible secondary consequences of having another panic attack.

Do not include such worries or fears during a panic attack which are coded under Fear of Loss of Control During Panic Attack.

Have you been worried about what might happen if you had another "panic attack"?

*What do you think might happen?
Have you been afraid that you might die?
Or go crazy?
Or lose control?*

OBSESSIONAL THOUGHTS

Painful, recurrent, repetitive ideas, thoughts, or images that the subject experiences as intrusive and unwanted. Subject regards these as being incompatible with his/her image of him/herself as a person, but does not regard these as being external implants.

Do you have thoughts that get stuck in your mind that you can't get rid of?

Do you have any awful or ridiculous thoughts that keep coming back into your mind even though you don't want them to?

What kind of thoughts are they?

Do you have any silly thoughts or words that won't go away?

Do you have any special things you think about to get rid of horrible things in your mind?

What are they?

Do you have to count things over and over?

Do you have thoughts you have to think in a certain way?

Do you feel uncomfortable if you can't think these thoughts just right?

What makes you do it?

Do you try and make the thoughts go away?

Do they interfere with other things you want to think about?

Can you do anything about it?

Do you try not to think about them?

How long do they go on for?

When did they start?

COMPULSIONS

Repetitive, purposeful, and intentional acts associated with a subjective feeling of compulsion arising within the subject and not forced by any external power or agency, performed despite being regarded as excessive, unreasonable, pointless, or absurd.

Do you have to check things more than other people?

Are there any things you feel you have to do?

Like touching things in a certain way?

Or washing over and over again?

Do you spend a lot of time putting things in a special order?

Or arranging things so that they are just right?

Do you have any routines or rituals that you have to do?

What do you do?

What are you afraid will happen?

Do you feel uncomfortable if you don't "do compulsion" just right?

Are you worried about dirt or germs?

What do you do about it?

Why do you do it?

What makes you do it?

How long do you do it for?

Does you try not to do it?

When did it start?

DEPRESSED AFFECT

Now we are going to talk about some of X's feelings. N.B. GET EXAMPLES OF BEHAVIOR AND CONSIDER CODING FOR INCAPACITY DEPRESSED MOOD

Feelings of low mood. Includes feeling unhappy, miserable, blue, low spirited, being down in the dumps or dejected.

Distinguish from other unpleasant affects e.g. Nervous Tension or Anxiety, Apathy and Anhedonia. It is also important to make sure that it is the mood itself that is being rated and not its "expected" concomitants (such as apathy, self depreciation or crying). Items such as these are rated separately. If they are used as evidence of depression as well, spurious relationships will be generated by the interviewer.

Have you been feeling "down" at all?

Have you been acting very unhappy, or depressed?

*Have you cried at all because of this feeling?
What was that like?
Was it serious?
If I had seen you then would I have been able to tell?
What made you feel "miserable"?*

*How much of the time do you feel like that?
Is that on your mind all the time?
Or only some of the time?
What happens when you're doing something else?*

When you feel "miserable", how long does it last?

When did it start?

IF PRESENT, ASK;

Was there a week when you felt "miserable" most days?

Were there two weeks when you were "miserable" on at least 8 days?

IF DEPRESSED MOOD PRESENT, ASK;

Has there been a period of at least 2 months in the last year when you didn't feel like that?

Coding rules

DEPRESSED MOOD

FOR REVIEW ONLY

Definitions and questions

DISTINCT QUALITY OF DEPRESSED MOOD

Depressed mood has a subjectively different quality from sadness. Thus the rating should be contrasted with an experience that caused sadness, such as loss of a pet or watching a very weepy film.

Check that the provoking situation is one that is appropriate for sadness. Prompt on such situations if necessary.

Is it different from the feeling you get when something sad happens or you see a sad tv show or movie?

Is your feeling "depressed" like that or does it feel different?

Can you tell me how it is different?

ALLEVIATION OF DEPRESSED MOOD BY SELF-GENERATED MEANS

Alleviation of depressed mood refers to means that the child may find effective in alleviating his/her depressed mood.

Alleviation by self generated means: The child alleviates mood by actively involving him/herself in other thoughts or activities.

N.B.: BOTH ALLEVIATION BY SELF-GENERATED MEANS AND EXTERNAL MEANS MAY BE PRESENT.

N.B.: ALLEVIATION NOT APPLICABLE IF SUBJECT RATED 0 OR 3 ON "DEPRESSED MOOD". IF "DEPRESSED MOOD" IS NOT PRESENT AS DEFINED IN THE GLOSSARY, IT CANNOT BE RELIEVED. IF THE DEPRESSED MOOD IS PRESENT AT AN INTENSITY LEVEL 3 THEN IT IS, BY DEFINITION, ESSENTIALLY UNALLEVIABLE. CODE AS "NEVER EMPLOYED".

When you felt "miserable", could anything cheer you up?

How long would it cheer you up for?
Or make you feel better?

How much of the time would things "cheer" you up?
Could you do anything to "cheer yourself up"?

What?
How much of the time does that work?

Coding rules

DISTINCT QUALITY OF DPERESSED MOOD

0 = Absent

2 = Subject understands quality of sadness and reports that periods of depressed mood have a different quality.

ALLEVIATION BY SELF-GENERATED MEANS

ALLEVIATION OF DEPRESSED MOOD BY EXTERNAL MEANS

Alleviation of depressed mood refers to means that the child may find effective in alleviating his/her depressed mood.

Alleviation by external means: The mood is alleviated by a more passive process in which other activities or events occurring without the child's willful use of them for this purpose alleviated depressed mood.

N.B.: BOTH ALLEVIATION BY SELF-GENERATED MEANS AND EXTERNAL MEANS MAY BE PRESENT.

N.B.: ALLEVIATION NOT APPLICABLE IF SUBJECT RATED 0 OR 3 ON "DEPRESSED MOOD". IF "DEPRESSED MOOD" IS NOT PRESENT AS DEFINED IN THE GLOSSARY, IT CANNOT BE RECEIVED. IF THE DEPRESSED MOOD IS PRESENT AT AN INTENSITY LEVEL 3 THEN IT IS, BY DEFINITION, ESSENTIALLY UNALLEVIABLE. CODE AS "NEVER EMPLOYED".

When you feel "miserable," can other people do anything to cheer you up?

Do you cheer up when you take part in an activity?

Like playing with other children?

Or going out for ice cream or a treat?

How much of the time would things "cheer" you up?

DIURNAL VARIATION OF MOOD - AM WORST

Depressed mood is consistently worse in the first half of the day, irrespective of external events.

The parent must report a difference in the intensity of the depressed mood that is of a degree noticeable to others.

Is there any time of the day when you feel more "depressed" or "sad" than others?

Do you feel more "depressed" in the morning/evening?

How long does the worst time last?

How would anybody know that you felt like that?

ALLEVIATION BY EXTERNAL MEANS

0 = Means of Alleviation never employed.

DIURNAL VARIATION OF MOOD - PM WORST

Depressed mood is consistently worse in the second half of the day, irrespective of external events.

The parent must report a difference in the intensity of the depressed mood that is of a degree noticeable to others.

Is there any time of the day when you feel more "depressed" than others?

*Do you feel more "depressed" in the morning/evening?
How long does the worst time last?
How would anybody know that you felt like that?*

SUBJECTIVE AGITATION

Markedly changed motor activity associated with depressed mood. Account of a severe level of inappropriate, unpleasant motor restlessness during a period of dysphoric mood, indicated by pacing, wringing of hands, or similar activities; with a total daily duration of at least 1 hour.

DO NOT INCLUDE SIMPLE RESTLESSNESS OR FIDGETINESS IN THE ABSENCE OF MOOD CHANGE.

Do you get very restless when you're "miserable?"

Do you have difficulty keeping still when depressed?

*What is that like?
Can you keep yourself still?
Do you have to move around?
What do you do?
Are you always like that?
How about when you're not "miserable"?
How long does it last?
When did the "agitation" start?*

*Are you always like that?
How about when you're not "miserable?"*

How long does it last?

When did the "agitation" start?

Definitions and questions

REPORTED TEARFULNESS AND CRYING

Eyes filling with tears or actual shedding of tears as a response to an internal state of unhappiness or misery.

Do not rate crying precipitated by usual precipitants (such as sad situations or anger or being spanked or disciplined).

Do you ever feel so "miserable" that you want to cry?

What happens then?

Do you actually cry?

Can you stop yourself?

What do you do?

How long does it last?

When was the last time?

Tell me about it.

Do you cry more easily than you used to?

Do you cry more than other people?

When did you start being tearful?

TOUCHY OR EASILY ANNOYED

The child is generally more prone to FEELINGS of anger bad temper, short temper, resentment, sulking or annoyance, UNDER MINOR PROVOCATION than most children. This pattern need not represent a change in behavior.

Do things get on your nerves easily?

What sorts of things?

Do you get annoyed more easily than most people, do you think?

What do you do?

How often does that sort of thing happen?

How long have you been like that?

Coding rules

Definitions and questions

IRRITABILITY

Increased ease of precipitation of externally directed feelings of anger, bad temper, short temper, resentment, or annoyance. (Change may predate the primary period and continue into at least part of the primary period.)

Note that this rating is of a change in the child's usual liability to be precipitated into anger, it does not refer to the form of the anger once it has been precipitated.

N.B.: The irritable mood itself is being rated, not just its manifestations; thus, frequency and duration ratings refer to the number and length of episodes of the mood, not of the episodes of snappiness, shouting or quarrelsomeness.

N.B. INFORMATION OBTAINED HERE MAY ALSO BE RELEVANT TO LOSING TEMPER AND TEMPER TANTRUMS.

Have you been more irritable than usual in the last 3 months?

Or made angry more easily?

*What have you been "touchy" about?
Is that more than usual?
What do you do when you feel like that?
Do you keep it to yourself?*

*How long does it last when you feel like that?
Have you been snappy with friends or family members?
Have you gotten into arguments lately?
What has happened?
What did you say?
What did you do?
Have you hit or broken anything when you were angry?*

When did you start to get "irritable" like that?

IF PRESENT, ASK;

*Was there a week when you felt "irritable" most days?
Were there two weeks when you were "irritable" on at least 8 days?*

IF IRRITABILITY PRESENT ASK;

Has there been a period of at least 2 months in the last year when you didn't feel like that?

IF PRESENT, ASK;

In the last 3 months has there been a week when you were irritable like that every day?

IF IRRITABLE PRESENT FOR A WEEK (7 CONSECUTIVE DAYS), REMEMBER TO COMPLETE

Coding rules

IRRITABILITY

0 = Absent

2 = Irritable mood present in at least 2 activities manifested by at least one instance of snappiness, shouting, quarrelsomeness and at least sometimes uncontrollable.

3 = Irritable mood present in most activities, accompanied by snappiness, shouting, quarrelsomeness, and nearly always uncontrollable.

HOURS : MINUTES

EPISODE OF IRRITABLE MOOD

0 = Absent

2 = At least 1 week with 4 days irritable mood.

3 = Period of 2 consecutive weeks where irritable mood present on at least 8 days.

PERIOD OF 2 CONTINUOUS MONTHS WITHOUT IRRITABLE MOOD IN LAST YEAR

THE MANIA SECTION.

LOSS OF AFFECT

Complaint of loss of a previously existing ability to feel or experience emotion.

Have you felt that you didn't have any feelings (emotions) left?

Or that you had lost your feelings?

*Had your feelings gone completely?
 Could you feel any emotions?
 When did you start to lose your feelings?*

CONATIVE PROBLEMS

BOREDOM

Activities the child is actually engaged in are felt to be dull and lacking in interest while interest in other possible potential activities is expressed.

Everyone gets bored sometimes, so code a child positively here only if s/he is more often bored than not. But code positive even if the activities are truly dull. It must seem to the child that other potential activities would be of interest even if s/he is uncertain what those other activities might be.

Differentiate from anhedonia and loss of interest, where nothing seems to be of potential interest or likely to give pleasure.

Code even if the activities described are truly boring in your opinion.

How much of the time are you bored?

Do you get bored more than other people?
 IF PRESENT ASK;

*What can you do to stop yourself from being bored?
 What do you do?
 What would you like to be doing?*

How long have you been feeling so bored?

LOSS OF AFFECT

0 = Absent

2 = Loss of affect in at least 2 activities and uncontrollable at least some of the time.

3 = Affect is felt to be lost in almost all activities.

Definitions and questions

LOSS OF INTEREST

Diminution of the child's interest in usual pursuits and activities.

Either some interests have been dropped or the intensity of interest has decreased. Everyone has interests of some sort, but the extent of the diminution must be measured in the context of the range and depth of the child's usual activities. Take into account everyday daycare/school and home activities as well as watching TV, playing games, taking an interest in clothes, food, appearance, toys, etc. Inevitably, those with more intense and varied interests initially will have more room to lose interest than those who have never taken a great interest in things.

Distinguish from "growing out" of activities or giving up certain activities to take up new ones or because of increased pressure of work.

NOTE INFORMATION FROM THE OUT OF SCHOOL ACTIVITIES SECTION

Have things been interesting to you as much as they used to?

Have you lost interest in anything?

IF PRESENT ASK;

*What kinds of things have you lost interest in?
Can you get interested in anything?*

When did you start to lose interest in things?

Coding rules

LOSS OF INTEREST

0 = Absent

2 = Generalized diminution in interest taken in normally interesting activities.

3 = The subject is completely or almost completely uninterested in everything or nearly everything.

Definitions and questions

ANHEDONIA

A partial or complete loss or diminution of the ability to experience pleasure, enjoy things, or have fun. It also refers to basic pleasures like those resulting from eating favorite foods.

Anhedonia concerns the mood state itself. Loss of Interest, Loss of Initiative, Lack of Protest, inability to engage in activities, or loss of the ability to concentrate on looking at books, games, TV or school may accompany Anhedonia, so the interviewer may code different aspects under different items. Do not confuse this item with a lack of opportunity to do things or to excessive parental restriction. Comparison should be made with enjoyment when the child is normal. This may not be accessible in episodes of very long duration.

DISTINGUISH FROM BOREDOM AND LOSS OF INTEREST OR LACK OF OPPORTUNITIES FOR PARTICIPATION.

Can you have fun or enjoy yourself?

Are there things you used to enjoy but don't anymore?

*Do you feel that you can't enjoy things anymore?
What things are fun (or enjoyable) now?*

When did you start to feel like that?

Coding rules

ANHEDONIA

- 0 = Absent
- 2 = Generalized diminution in pleasure taken in normally pleasurable activities.
- 3 = Almost nothing gives pleasure.

Definitions and questions

SUBJECTIVE ANERGIA

The child is markedly lacking in energy compared with usual state. The child is described as being easily fatigued and/or excessively tired. This is a general rating of child's overall energy level.

DIFFERENTIATE FROM MOTOR SLOWING (NEXT PAGE), AND FATIGABILITY (SLEEP SECTION), ALTHOUGH YOU MAY DOUBLE CODE IF CRITERIA FOR MORE THAN ONE ARE MET.

Have you been feeling energetic?

Do you have as much energy as you used to have?

Or have you lost any of your usual energy?

*Have you been feeling a lack of energy?
Do you have enough energy to do things?
Do you put things off because you haven't got enough energy?
How has that bothered you?*

When did you start feeling less energetic?

SUBJECTIVE MOTOR SLOWING

The child is slowed down in movement AND speech compared with his/her usual condition.

Have you been moving more slowly than you used to?

Do you do things more slowly than you used to?

Or talk more slowly?

*Would other people notice?
Can you give me an example?*

*How long does it last?
Can you do anything to speed yourself up?
What?
When did you start to feel slowed down?*

When did you start to feel slowed down?

Coding rules

ANERGIA

0 = Absent

2 = A generalized listlessness and lack of energy.

3 = A report of being almost completely without energy.

MOTOR SLOWING

SUBJECTIVE COMPLAINTS ABOUT THINKING

INEFFICIENT THINKING

Unpleasant difficulty with thinking clearly or efficiently, or concentrating, even about simple matters; daily total duration of at least 1 hour.

Do your thoughts get muddled or confused easily?

How long has it been like that?
Can you think clearly if you need to?
Does it cause you any trouble? What?
When did you start to have trouble with yourr thinking?
Is there any interference with your thoughts?

INDECISIVENESS

Unpleasant difficulty in reaching decisions, even about simple matters. This is a general rating of child's ability to make decisions.

What about decisions; are you good at making decisions (making up your mind)?

Why not?
Have you had any trouble making decisions?

Why?
When was the last time you had that sort of trouble?
What happens when you have to make up your mind?
Can you remember the last time that happened?
Have you always been like that?
Does it cause you any trouble?
What?

Coding rules

INEFFICIENT THINKING

0 = Absent

2 = Sometimes uncontrollable in at least 2 activities

3 = Almost always uncontrollable and occurring in relation to almost all situations where clear thinking required

DEPRESSIVE THOUGHTS

In the definitions in this section the term "feeling" is frequently used, despite the fact that cognitions are being referred to. For most people, the term "feeling" carries both cognitive and affective components. However, these items refer not to mood states per se, but to certain cognitions, thoughts, opinions or attitudes. In other words, it is the content of the thought that is to be coded, not its affective tone.

LONELINESS

A feeling of being alone and/or friendless, regardless of the justification for the feeling.

Adult contacts and peer friendships should be considered. Differentiate from feeling unloved. A child may be lonely but still acknowledge being loved and vice versa.

NOTE RELEVANT INFORMATION FROM PEER RELATIONSHIPS.

Do you ever feel lonely?

How often is that?

When was the last time?

What did that feel like ?

Do you have friends who would help you if you needed help?

Do they care about you?

Do you feel lonely even though you've got some friends?

Would they want to help you if you needed help?

Do you get left out by others?

Do you get left out of your friends' activities?

How do you feel about that?

Do you think that's likely to change?

When did you start to feel lonely like that?

LONELINESS

0 = Absent

2 = The subject definitely feels intrusively and uncontrollably lonely, in at least 2 activities.

3 = S/he feels lonely almost all the time.

Definitions and questions

SELF-DEPRECIATION AND SELF-HATRED

An unjustified feeling of inferiority to others (including unjustified feelings of ugliness). Self-hatred involves severe hostility directed by the child against him/herself, accompanied by expressed dislike or expressed criticism.

Do not rate delusional phenomena here.

How do you feel about yourself?

Do you like yourself?

*How do you feel about your appearance (looks)?
What are you like compared with others?
If you had to choose, would you say you were good-looking, average, or ugly?*

*How ugly do you think you are?
Are you much worse-looking than most people?
How much of the time do you feel like that?
Is there anything that you are good at?
What are you like compared with others?
As a person are you as good as other people?*

*Are you good at all?
Do you think you're no good? ... at anything?
Is everyone better than you are?
Do you think you will ever be any better?
Do you think that all the time or only part of the time?
What things do you do that you are proud of?*

When did you start to feel like that?

Coding rules

SELF-DEPRECIATION

0 = Absent

2 = The subject rates him/herself lower than seems justified, but does not see him/herself as being completely without value, since in some activities s/he does not feel inferior.

3 = The subject feels almost entirely worthless and without saving graces, in nearly all activities, or inferior to everyone. Self-hatred is also rated here.

Codes

Definitions and questions

FEELING SORRY FOR ONESELF

A feeling that life or people have been unfairly unpleasant or troubling and that the child deserves better. Child feels unlucky, victim of "bad luck".

Code regardless of justification.

Do you think that life has been fair to you?

Do you think you deserve better?

In what way?
Do you feel like that all the time or only some of the time?
When do you feel like that?
Is everything unfair or just some things?
Do you deserve a better deal?
Will it always be like that?
When did you start to feel that life hasn't been fair to you?

When did you start to feel like that?

PATHOLOGICAL GUILT

Excessive self-blame for minor or non-existent wrongdoings. Child realizes that guilt is exaggerated (otherwise, code as Delusions of Guilt).

Do you feel bad or guilty about anything that you've done?

What?

How often do you feel like that?
When was the last time?
Do you blame yourself at all?

Do you deserve to have bad things happen to you?

Do you think you deserve punishment?
Why?
Do you ever feel guilty about things that you know aren't really your fault?
Do you feel that a lot of things that go wrong are your fault?
What?
How guilty do you feel?
 IF PATHOLOGICAL GUILT IS PRESENT, CONSIDER DELUSIONS OF GUILT.

When did you start to feel that you were "to blame"?

Coding rules

FEELING SORRY FOR ONESELF

0 = Absent

2 = The subject feels sorry for him/herself but thinks that some aspects of life have not been unfairly troubling or unpleasant.

3 = The subject thinks that nothing has occurred according to his/her just desserts, and feels sorry for him/herself in nearly all situations.

PATHOLOGICAL GUILT

0 = Absent

2 = At least partially unmodifiable excessive self-blame not generalized to all negative events.

3 = The child generalizes the feeling of self-blame to almost anything that goes wrong in his/her environment.

HELPLESSNESS

The child feels that there is little or nothing s/he can do to improve his/her situation or psychological state, though such a change would be welcome. This is a generalized feeling.

Is there anything about the way things are, or the way you are that you would like to change?

IF PRESENT ASK;

Is there anything you could do to make things better? Or make yourself feel better?

*What?
Would it work, do you think?*

When did you start to feel you couldn't do anything to improve your situation?

HOPELESSNESS

The child has a bleak, negative, pessimistic view of the future, and little hope that his/her situation will improve. This is a generalized feeling.

What do you think the future will be like?

Will things get better for you? Or worse?

*Do you think anyone can help you?
Will things be better when you're grown up?
Do you feel hopeless about the future?
In what way?
How often do you feel like that?
Can you do anything about it?
When did you start to feel that the future didn't hold good things for you?*

Coding rules

HELPLESSNESS

SUICIDE

Purposes of the Section

This section has 1 major function:

(1) To assess the suicidal and self injurious intentions and actions of the child.

Organization of the Section

The section is organized in 2 sub areas:

(1) Suicidal ideation and behavior.

(2) Non suicidal deliberate self harm.

SUICIDE AND SELF-INJURIOUS BEHAVIOR

Do you ever think about death or dying?

Have you ever thought you couldn't go on any longer?

Have you ever thought life was not worth living?

Have you ever wished you were dead?

Have you though of hurting yourself?

Have you ever thought about ending it all?

When was that?

Have you felt like that in the past 3 months?

Have you ever tried to hurt or kill yourself?

When?

Why was that?

What happened?

Have you tried more than once?

Have you ever done anything that made people think you wanted to die?

What?

When was that?

What happened?

Definitions and questions

THINKING ABOUT DEATH

Thoughts about death and dying, whether referred to self or others.

Include thoughts about not being able to go on any longer and life not being worth living. Include discussion about a grandparent who has died ("Do they go to heaven?" "What will happen when I die?") To code, thoughts must be intrusive into at least two activities.

CODE THOUGHTS ABOUT TAKING ONE'S OWN LIFE UNDER SUICIDAL THOUGHTS (NEXT PAGE).

What do you think about?

*How much do you think about it?
Do you sometimes wish you were dead?
Do you want to die?
Why do you feel like that?*

How long have you been thinking like that?

SUICIDAL THOUGHTS

Thoughts specifically about killing oneself, by whatever means, with some intention to carry them out.

This may accompany thinking about death in general, or may be present if a child has reported a suicidal plan or past attempt.

Do not include suicidal plans.

Do you ever think about ending it all?

*When was the last time?
What do you think about?*

Are you actually going to do that?

IF SUICIDAL THOUGHTS NOT PRESENT, SKIP TO "SUICIDAL ATTEMPTS", (PAGE 24).

Coding rules

THINKING ABOUT DEATH

0 = Absent

2 = Present but not including thoughts about wanting to die. The thoughts should be intrusive into at least 2 activities and at least sometimes uncontrollable.

3 = Including thoughts about wanting to die. The thoughts should be intrusive into at least 2 activities and at least sometimes uncontrollable.

SUICIDAL THOUGHTS

0 = Absent

2 = At least sometimes uncontrollable suicidal thoughts, recurring in at least 2 activities.

3 = Usually uncontrollable suicidal thoughts intruding into most activities.

Definitions and questions

SUICIDAL PLANS

Suicidal thoughts that contain plans of a suicidal act and some intent to carry them out.

If suicidal attempt has been made, determine whether a plan was present prior to the attempt.

Have you thought about actually killing yourself?

*Have you thought what you might do?
Are you going to do this?
Have you done anything to prepare for killing yourself?
What?*

SUICIDAL ATTEMPTS

Episodes of deliberately self-harmful behavior involving some intention to die at the time of the attempt. Rate here, no matter how unlikely the attempt was to cause death, so long as the child's intention was to die. If parent unsure about intention to die, code if the parent can describe a clear self-harmful event.

Have you ever actually tried to kill yourself?

*What happened?
Where did you do it?
Were there any people around at the time?
how were you feeling?
Did you really want to die?
Who found you?
Did you go to the hospital?*

*When did you first try to kill yourself?
When did you last try to kill yourself?
How many times have you tried?
What do you think about it now?
Would you do it again if you had the chance?
Do you wish you were dead now?*

Coding rules

SUICIDAL PLANS

0 = Absent

2 = A specific plan, considered on more than 1 occasion, over which no action was taken.

3 = A specific plan, considered on more than 1 occasion, with preparatory action taken, for example storing up pills.

Definitions and questions

SUICIDAL INTENT

Code the highest level of suicidal intent manifested in an attempt. Do not include potentially self-injurious behavior without suicidal intent here.

Which time were you the most serious about killing yourself?

What did you do?

Did you really want to die?

IF ATTEMPT IN THE PAST 3 MONTHS, ASK;

Was you serious about killing yourself when you tried in the last 3 months?

LETHALITY OF SUICIDAL ATTEMPT

Code here the degree of threat to life resulting from the most serious suicidal attempt.

Coding rules

EVER: SUICIDAL INTENT

1 = Subject reports minimal intention to actually kill him/herself, but either revealed the attempt to others, or otherwise ensured that there was little risk to take his/her life.

2 = Substantial intent to kill self, but associated with ambivalence to a sufficient degree that the intention was not absolute.

3 = Absolute (or almost absolute) intention to commit suicide, expressed with little or no ambivalence or uncertainty. If uncertain whether to code 2 or 3, code 2.

SUICIDAL INTENT

1 = Subject reports minimal intention to actually kill him/herself, but either revealed the attempt to others, or otherwise ensured that there was little risk to take his/her life.

2 = Substantial intent to kill self, but associated with ambivalence to a sufficient degree that the intention was not absolute.

3 = Absolute (or almost absolute) intention to commit suicide, expressed with little or no ambivalence or uncertainty. If uncertain whether to code 2 or 3, code 2.

EVER: LETHALITY OF SUICIDAL ATTEMPT

1 = Mild: No Medical attention needed or sought.

2 = Moderate: Some medical attention sought or required (e.g., sewing up cuts, stomach lavage).

3 = Serious: The attempt resulted in unconsciousness, the need for resuscitation, assisted respiration, blood transfusion, or operative intervention.

LETHALITY OF SUICIDAL ATTEMPT

1 = Mild: No Medical attention needed or sought.

2 = Moderate: Some medical attention sought or required (e.g., sewing up cuts, stomach lavage).

3 = Serious: The attempt resulted in unconsciousness, the need for resuscitation, assisted respiration, blood transfusion, or operative intervention.

Definitions and questions

ALCOHOL OR DRUG INTOXICATION AT TIME OF SUICIDE ATTEMPT

Alcohol or drug consumption prior to attempt sufficient for subject to be experiencing effects at time of attempt.

When you tried to kill yourself, had you had anything to drink?

Had you used any drugs?

Had you been sniffing glue?

*How long was that before you tried to kill yourself?
Were you drunk?
Were you high?
Was the alcohol (drug) having any effect on you at the time you tried to kill yourself?*

Were you drunk or high when you tried in the last 3 months?

"SUICIDAL" BEHAVIOR WITHOUT INTENT

Actions threatening suicide, without intention of ending life, e.g., taking a gun and threatening to shoot oneself, in order to control others' behavior.

Have you done anything that made people think you wanted to die?

Why did you do it?

How many times have you done that in the last 3 months?

When was the first time?

Have you done anything that made people think you wanted to die in the last three months?

Coding rules

EVER: INTOXICATION AT TIME OF ATTEMPT

- 0 = Absent
- 2 = The subject had drunk alcohol or used drugs but was not showing marked effect at the time of the attempt.
- 3 = Definitely intoxicated, drunk or high at time of attempt.

Definitions and questions

NON-SUICIDAL PHYSICAL SELF-DAMAGING ACTS

Self-mutilation, etc., not accompanied by any wish or intention to die (e.g., cutting on skin with a knife, burning self, deliberately putting finger in door jam and closing door, wrist-slashing or cigarette burns).

Have you ever hurt yourself on purpose (apart from when you wanted to die)?

Or cut yourself on purpose?

- Why did you do it?*
- What did you feel like before you did it?*
- Did it make you feel better?*
- Did you want to kill yourself?*

How about in the last three months?

IF NON-SUICIDAL PHYSICAL SELF-DAMAGING ACTS ARE PRESENT, COMPLETE DYSPHORIA OF SELF-MUTILATORY TYPE. OTHERWISE, SKIP TO "BRAGGING", (PAGE 12).

HYPOMANIA AND MANIA

The symptoms in this section includes the contribution of Dr. Joan Luby of Washington University in St. Louis.

MANIC MOOD DISTURBANCE

REMEMBER TO GET EXAMPLES AND BEHAVIORAL DESCRIPTIONS.

EXPANSIVE MOOD

Feelings of euphoria or elation which represents a substantial change from the child's usual mood and which are not a response to specific situations.

Do not include responses to happy events (such as birthdays, holidays, etc.).

IF EXPANSIVE MOOD IS PRESENT BE PREPARED TO RECONSIDER PREVIOUS RATINGS OF IRRITABILITY.

Have you felt really high for no special reason?

What was that like?

Have you felt unusually good in yourself?

Did anyone comment on your behavior?

What did they say?

Did they think you were over the top?

What did you do?

When you were "high", had you had anything to drink?

Were you drunk?

Had you taken any drugs?

Had you been sniffing glue?

Had anything happened to make you feel happy?

How long did that feeling last?

When did you first have it?

IF EXPANSIVE MOOD PRESENT, COMPLETE. OTHERWISE, SKIP TO "ABDOMINAL PAIN", (PAGE 21).

EXPANSIVE MOOD

0 = Absent

2 = The expansive mood is intrusive into non-elating situations, but can sometimes be controlled when inappropriate.

3 = Expansive mood is intrusive and uncontrollable in almost all activities and often inappropriate.

Definitions and questions

EXPANSIVE MOOD - SPONTANEITY/REACTIVITY

Degree to which expansive mood is related to or independent of external events.

Are you super happy only when something very exciting is happening (e.g., birthday party, trip to Disneyland, etc.)?

Are you ever super happy for no reason?

How often are you super happy 'out of the blue' or for no reason?

How long does this super happy mood for no reason last?

When did you first notice that you would get super happy for no reason?

EXPANSIVE MOOD - CONCERN TO ADULT

Do you think it is a problem?

Are you concerned about your super happy moods?

Is anyone else concerned about your super happy moods? Who?

Has anyone commented that you seem to be too happy at times? Who?

Coding rules

Intensity

Definitions and questions

IRRITABILITY WITH EXPANSIVE MOOD

If both Irritability and Expansive Mood have been present together, or within the same 24 hour period, then code here.

DEPRESSED MOOD WITH EXPANSIVE MOOD

Both Depressed Mood and Expansive Mood present within same 24 hour period. Either the two moods must both separately meet the criteria for each, or if the two rapidly alternate, the two taken together must last at least one continuous hour at a level that meets the other minimum criteria.

Were there times when you were both "really happy" and "depressed" on the same day?

*Tell me about that.
Were you usually like that?
Or were you usually either one or the other?
How long did it last?*

When did you start to get the "depression" and "feeling really happy" so close together?

Has there been a period of at least 2 months during the last year when you didn't have either "depressed mood" or "expansive mood"?

MORE TALKATIVE THAN USUAL

Child is more talkative than usual. Speech may be loud, rapid, nonstop, or difficult to interrupt during periods of Expansive, Expansive/Irritable, or Irritable Mood.

Distinguish from chattiness.

Have you had times when you were more talkative than usual?

*What was that like?
Could others get a word in edgewise?*

Coding rules

IRRITABILITY WITH EXPANSIVE MOOD

0 = Expansive Mood not accompanied by Irritability.

2 = Expansive Mood accompanied by Irritability.

DEPRESSED MOOD WITH EXPANSIVE MOOD

0 = Absent

2 = Present, with both moods, either separately or together, meeting the intensity level '2' criteria.

PERIOD OF 2 MONTHS WITHOUT EITHER DEPRESSED MOOD OR EXPANSIVE MOOD IN LAST YEAR

0 = Absent

2 = Present

MORE TALKATIVE THAN USUAL

0 = Absent

2 = More talkative than usual, intrusive into at least two activities but retains some regard for others' wishes to communicate.

3 = More talkative in most activities with little regard for others' wishes to communicate.

OTHER MANIC SYMPTOMS

SUBJECTIVE FLIGHT OF IDEAS

A description of images and ideas flashing through the mind, when in Expansive or Expansive/Irritable Mood, or Irritable Mood.

Have you had times when lots of thoughts flashed through your head one after the other very fast?

What was that like?
Did your mind keep jumping from one thing to another when you were "high"?

Did your thoughts come so fast that you could hardly keep up with them?
Were you faster than you could get into words?
Were they so fast that you got confused?
What did other people think of your ideas at the time?
How long does it last?

When did it start?

SUBJECTIVE PRESSURE OF SPEECH

A description of periods of talking fast, with a sensation of pressure to get words and ideas out, when in Expansive or Expansive/Irritable Mood, or Irritable Mood.

Were you talking very fast?

What was that like?
How long did that last?

When did you first notice it?

Coding rules

FLIGHT OF IDEAS

- 0 = Flight of ideas absent.
- 2 = Flight of ideas intrusive into normal thinking, involving at least 2 activities, but some coherent thought processes possible, even if with effort to maintain control.
- 3 = Flight of ideas so intrusive as to be almost completely disruptive of normal thought.

PRESSURE OF SPEECH

- 0 = Pressure of speech absent.
- 2 = Pressure of speech intrusive into normal communication in at least 2 activities; but some coherent communication possible, even if with an effort to maintain control.
- 3 = Pressure of speech so intrusive and uncontrollable as essentially to prevent normal communication.

Definitions and questions

SUBJECTIVE MOTOR PRESSURE

Feeling of increased physical energy or capacity expressed in motor behavior, when in Expansive or Expansive/Irritable Mood, or Irritable Mood.

Have you had times when you felt really energetic?

What did you do?

When you were feeling "high", did you do any physical activities that you wouldn't normally?

Had you developed any new interests?

How did you become interested in that?

What did other people think of your activities?

Were you moving faster than usual?

When did this first happen to you?

SUBJECTIVE AGITATION

Markedly changed motor activity associated with Expansive or Expansive/Irritable or Irritable Mood. Account of a severe level of inappropriate, unpleasant motor restlessness during the mood state, indicated by pacing, wringing of hands, or similar activities.

Do not include simple restlessness or fidgetiness in the absence of mood change.

Do you get very restless when you're "miserable"?

Do you have difficulty keeping still?

What is that like?

Can you keep yourself still?

Do you have to move around?

What do you do?

Are you always like that?

How about when you're not "miserable"?

Coding rules

MOTOR PRESSURE

0 = Absent

2 = Motor pressure leads to increased activity only within the child's usual range of activities involving at least 2 activities.

3 = Child actually takes up new physical activities as a result of increased motor activity.

HOURS : MINUTES

AGITATION

0 = Absent

2 = Agitation is present in at least 2 activities and cannot be entirely controlled, but sometimes the subject can inhibit his/her agitation with effort.

3 = Agitation almost entirely uncontrollable.

Definitions and questions

UNUSUALLY ENERGETIC

During waking hours, subject is more active than usual without expected fatigue. Or subject demonstrates little fatigue in spite of maintenance of normal activities.

Have you had more energy than usual to do things without getting tired?

Do you go 'non-stop' without getting worn out?

Did it ever seem that you had too much energy?

What were you like then?

DISTRACTIBILITY

Inability to screen out irrelevant external stimuli during the period of mood disturbance. May have difficulty keeping thoughts on themes relevant to the topic.

Do you have difficulty paying attention when you can look out of the window or hear other people talking in the next room?

Do you find yourself easily distracted by things going on around you?

*Can you give me an example?
Is it like that in all activities or just some?
Can you stop yourself from getting distracted?
Is that all the time or just some times?*

Coding rules

UNUSUALLY ENERGETIC

0 = Absent

2 = Child has persistent daily periods of increased energy.

HOURS : MINUTES

DISTRACTIBILITY

0 = Absent

2 = Present in at least 2 activities and at least sometimes uncontrollable by the child.

3 = Present in most activities and at least sometimes uncontrollable by the child or by admonition.

Definitions and questions

DECREASED NEED FOR SLEEP

During the period of mood disturbance, child feels adequately rested with at least 1 hour less sleep than usual per night, for at least 1 week.

Differentiate from Insomnia, where reduced sleep is associated with a feeling of being inadequately rested.

When you were "high", did you need as much sleep as usual?

How much sleep were you getting?

*Did you feel as if you needed more sleep?
When you woke did you feel properly rested?*

When did that start?

GRANDIOSE IDEAS AND ACTIONS

An unusually increased level of self-esteem or self-appraisal of worth, such as the feeling of being superbly strong, or exceptionally able, or intelligent, when in Expansive or Expansive/Irritable Mood or Irritable Mood.

Distinguish from fantasy play unrelated to mood changes.

*Have you felt specially healthy?
Did you think you had (have) special powers or talents?
Have you been buying any interesting things lately?
What did you think of yourself when you felt "high"?*

*Were there any times when you felt that you were a really great or marvelous person?
Or a super-hero?
Did you think you were very important when you were "high"?
Who/what did (do) you think you were (are)?
What did you do when you felt like that?*

Did you feel super efficient?

Do you get this way at home/school/elsewhere?

When did you start to feel like that about yourself?

Coding rules

GRANDIOSE IDEAS AND ACTIONS - ALLEVIATION

When you think you're in charge, think your especially talented, etc., can you do anything to bring yourself "back to reality?"

How much of the time does it work?

BRAGGING

Boastful talking about his/her real or perceived talents, accomplishments, etc.

Do you brag about anything?

What kinds of things?
Is this something you really are good at?
Have others commented that you brag?

Do you brag at home/school/elsewhere?

How often do you brag at home/school/elsewhere?

When did you first notice that you bragged a lot?

IF BRAGGING IS PRESENT, CONTINUE. OTHERWISE, SKIP TO "SEXUAL LANGUAGE", (PAGE 14).

Coding rules

GRANDIOSITY - ALLEVIATION

- 0 = Child will give up these ideas easily with adult redirection.
- 2 = Child's appraisal of self-worth is restored to baseline at least sometimes with adult re-direction.
- 3 = Means of alleviation never effective.
- 4 = Means of alleviation never employed.

BRAGGING

- 0 = Absent
- 2 = Child brags about abilities in activities in which s/he is not especially talented (e.g., child brags about soccer skills and is of average ability or less.)

SEXUAL LANGUAGE
Do you talk about body parts?
Do you use dirty or sexual language?

SEXUALLY ABUSED
Have you been sexually abused in any way?

POOR JUDGMENT (HYPOMANIA AND MANIA)
 Uncharacteristic behaviors performed with disregard for possible negative consequences during Expansive or Expansive/Irritable Mood state or Irritable Mood.
Did you do anything that you regret when you were "high"?
What did you do?
Did you spend a lot of money then?
What did you spend it on?
Did you behave in ways that seem embarrassing or silly now?
Did you get into any trouble when you were "high"?
What happened?
Have you been left with any problems by ...?
When did you first do something like that?
When did you first do something like that?

Coding rules

SEXUAL LANGUAGE

- 0 = Absent
- 2 = Child makes inappropriate sexual comments on more than one occasion.
- 3 = Child exhibits overt sexual language several times a week or at inappropriate times.

SEXUALLY ABUSED

- 0 = No
- 2 = Yes

POOR JUDGMENT

- 0 = Absent
- 2 = Behavior that involved definitely poor judgment but which was within the range of socially acceptable irresponsible behavior (e.g. speaking rudely/impertinently to other people, being physically reckless or aggressive).
- 3 = Behavior that is outside the range of socially acceptable irresponsible behavior (e.g. being overtly insulting to figures of authority, undressing in a public place), or dangerous behavior (e.g., jumping off a roof because child believed s/he could fly) and hence likely to result in some negative consequences.

Definitions and questions

INAPPROPRIATE LAUGHING, JOKING, GRINNING

Subject demonstrates laughing, joking, grinning in a manner incongruent to context.

Do you just laugh for no reason when nothing funny happened?

Do you laugh uncontrollably?

Do you laugh out when it's inappropriate (e.g., church, preschool during lesson)?

UNINHIBITED/GREGARIOUSNESS

The subject is willing to be friendly toward almost any adult or child, to a degree unusual for his/her developmental age, social group, and familiarity with the person. The subject demonstrates reduced or absent reticence around unfamiliar people.

Do you start a conversation with anyone - adult or child?

Are you the type of child who has no hesitation to engage in conversation with a stranger?

Are you concerned that you would talk inappropriately to strangers?

Would you run off with a stranger without any hesitation or reserve?

Do you seem to know everyone in your school or child care?

Are you concerned you would say inappropriately friendly or bossy things to unfamiliar adults, even those in a position of authority?

Do you think this is a problem?

Coding rules

INAPPROPRIATE LAUGHING, JOKING, GRINNING

0 = Absent

2 = Present in at least two activities and at least sometimes uncontrollable.

3 = Present in most activities and uncontrollable most of the time.

HOURS : MINUTES

UNINHIBITED/GREGARIOUSNESS

0 = Absent

2 = Inappropriate gregariousness is occasionally present and does not pose a social problem.

3 = Present and poses a significant social problem.

Definitions and questions

MOOD CYCLING

Subject exhibits significant and abrupt mood changes.

***Does it seem like your mood can change 'on a dime?'
For example, going from being very happy to very irritable or sad in a short time?***

Does your mood change often and quickly?

INCREASE IN ADAPTIVE ACTIVITY AS COMPARED WITH USUAL LEVEL

increased appropriate involvement or activity during periods of Expansive or Expansive/Irritable Mood or Irritable Mood.

Do not include responses to there being a sudden need to meet deadlines or to avoid punishment.

When you felt "so good" how did it affect your work?

Were you able to work better or more efficiently than usual?

How did you get along with your parents or friends when you were "high"?

Did you get more involved in things than you normally do?

Did you take more interest in things than you normally like to do?

Did you get more done?

When did that first happen to you?

Coding rules

MOOD CYCLING

0 = Absent

2 = Child displays abrupt changes in mood. These occur spontaneously (for no apparent reason) or in response to minor disappointments or most limit-setting.

3 = Child frequently and continuously displays spontaneous and abrupt changes in mood or child displays abrupt mood changes to nearly all disappointments or limit-setting.

INCREASE IN ADAPTIVE ACTIVITY

0 = Absent

2 = Increase in adaptive activity in at least 2 activities.

3 = Increase in adaptive activity in almost all activities.

Definitions and questions

ACHES AND PAINS

Aches and pains in muscles.

Do not include headaches or stomach aches, which are coded separately, or aches and pains resulting only from involvement in sports.

Do you get a lot of aches and pains in your muscles or joints?

How often does this happen?

Have you given up any activities because of aches and pains?

FEELS UNWELL

A generalized feeling of illness or unwellness.

Have you felt physically unwell at all during the last 3 months?

Less well than usual?

How much of the time?

SICKLY

The subject states that s/he has been sickly for a good part of their life, including the last 3 months.

How would you describe your health in general?

How long have you been ill?
Have you been "ill" for most of your life?
What has your health been like in the last 3 months?

Have you had frequent health problems?

Coding rules

ACHES AND PAINS

- 0 = Absent
- 2 = Describes aches and pains as occurring at least three times per week for each week of the primary period.
- 3 = Aches and pains almost constantly present.

AVOIDANCE

- 0 = Absent
- 2 = Subject has developed routines that allow him/her to adopt a relatively normal lifestyle while avoiding feared situation.
- 3 = Subject lives a highly restricted life because of feared situations.

ACHES AND PAINS - AVOIDANCE ONSET

**FOOD RELATED BEHAVIOR
REDUCED APPETITE**

Reduction of normal appetite, or reduced interest in, or enthusiasm for, food. Include change in appetite due to substance use or side effects of medication.

How has your appetite been in the last 3 months?

Has it been less than usual?

*Has the amount you eat changed at all?
Have you been eating as much as usual?
Why not?
How much have you been eating?
Have you lost any weight?
When did your appetite start to fall off?*

WEIGHT LOSS

Have you lost an unusual amount of weight during the last 3 months?

*How much?
When did you start losing weight?*

EXCESSIVE APPETITE

An increase in appetite outside the normal range of the subject, including eating for comfort. Include change in appetite due to substance use or side effects of medication.

Have you had a bigger appetite than usual?

*Why?
Have you actually eaten more than usual?*

*How much more?
When did you start eating more?*

Coding rules

REDUCED APPETITE

Definitions and questions

DELIBERATE REDUCTION OF BODY WEIGHT

Deliberate attempts to reduce body weight by dieting or any other method, for any reason.

A "diet" refers to any attempt to reduce body weight by the deliberate restriction of caloric intake (no matter how feebly adhered to), lasting at least 1 week.

"Exercise" refers to any physical activity undertaken for at least 1 week with the specific intention of reducing body weight. Do not include items such as jogging for general health purposes, unless the subject also states that a supplementary aim is weight reduction.

Do not include diets or exercise regimens prescribed by physician or other medical advisor, or parent.

How do you try to keep your weight down?

Are you on a diet?

What sort of diet?

Do you exercise to lose weight?

Do you ever vomit?

Do you take any medicines or pills for your weight?

When did you start doing that?

Definitions and questions

PREOCCUPATION WITH FOOD AND EATING

Unusual and excessive amount of time spent thinking or worrying about food and eating; total daily duration of at least 1 hour.

How much do you think about food and eating?

What do you know about how fattening foods are?

Do you worry about food?

How much?
Why do you think (worry) about it?
How much time do you spend thinking about food or eating?
How long have you been bothered about food and eating?

WORRY ABOUT BECOMING FAT

A round of painful, unpleasant or uncomfortable thoughts about becoming (or being) fat or obese; total daily duration of at least 1 hour.

Do you think you are the right weight?

How much do you think you should weigh?

Do you worry about getting fat?

How much do you worry about it?
Does worrying interfere with whatever else you're doing?
How long do you spend worrying about it?
When did you start worrying about it?

Coding rules

PREOCCUPATION WITH FOOD AND EATING

Definitions and questions

BODY IMAGE DISTURBANCE

Child has unrealistic conviction that s/he is fatter than is the case.

Do not code fat people, who realistically report that they are fat, here.

How do you see your body size?

Are you fatter than average?

What do you think if I tell you that I think that you're actually thinner than average (really just right)?
When did you start to feel fat?

IF BODY IMAGE DISTURBANCE PRESENT OR IF CHILD IS OBVIOUSLY THIN ASK THE FOLLOWING ITEM.

Do you think it is dangerous to be so thin?

Coding rules

BODY IMAGE DISTURBANCE

0 = Absent

2 = The subject has a persistent unrealistic view that s/he is fat but sometimes can be induced to agree that s/he may not be overweight.

3 = The subject's belief in his/her fatness is unshakeable.

DENIES SERIOUSNESS OF LOW BODY WEIGHT

0 = Absent

2 = Subject denies seriousness of current low body weight.

Definitions and questions

BULIMIA (EATING BINGES)

Recurrent, discrete, secret, episodes of excessive, rapid eating of easily ingested food. Do not include snack "binges" (for instance on return from workout or sports) where there is no attempt at secrecy, even though there may be no one else around. Do not include public displays of greed, or individuals who normally have large appetites.

Does you have eating "binges" or attacks?

- What are they like?*
- What do you eat?*
- Do you go off on your own to eat?*
- Does anything trigger them?*
- Do you try to resist them?*
- What ends a "binge"?*
- How do you feel afterwards?*
- Do you feel miserable?*
- Do you feel bad about yourself?*
- Or guilty?*
- Or ashamed?*
- How long do these "binges" last?*
- When did you start having "binges"?*

IF SUBJECT IS A GIRL COMPLETE. OTHERWISE, SKIP TO "SELF EVALUATION DEPENDS ON SHAPE AND WEIGHT", (PAGE 9).

Definitions and questions

AMENORRHEA

Absence of periods for at least 3 months in a row after onset of regular periods. Onset of regular periods means that subject has had a period three times in a row, no more than 36 days apart.

Have your periods started?

IF PERIODS HAVE STARTED, ASK ABOUT AMENORRHEA.

Have they stopped again?

When did they stop?

SELF EVALUATION DEPENDS ON SHAPE AND WEIGHT

The subject's evaluation of him/herself is reported to be strongly dependent on his/her shape or weight. Thus s/he regards his/her value as a person, evaluation by peers or others as being heavily influenced by his/her shape or weight. Do not include being underweight or underdeveloped.

Does your weight make a difference to how you feel about yourself?

How important is your weight or shape in affecting how you feel about yourself?

Is it the most important factor in the way you think about yourself?

Do you think it affects how other people see you and what they think of you?

Would you feel better about yourself if you were thinner?

Would it make a really big difference?

When did you start to feel like that about your weight or shape?

Coding rules

AMENORRHEA

SLEEP PROBLEMS

Now I want to talk with you about X's sleep. I want to understand what usually happens when you put X to bed, what happens during the night, and what it is like waking him/her up in the morning. Tell me about what kind of sleeper X is. Has s/he always been like that?

SLEEP PROBLEMS

INSOMNIA

Disturbance of usual sleep pattern involving a reduction in actual sleep time during the subject's sleep period that is accompanied by a subjective feeling of a need for more sleep. Do NOT include externally imposed changes in overall sleep pattern (e.g., change in job hours, arrival of new baby), or insomnia during first 2 weeks following such changes. Sleep problems are scored irrespective of taking medication for them, but note whether medication is being taken. Also include changes attributed to side effects of medication or substance use.

How has your sleep been in the last 3 months?

What time do you go to bed?

Is it hard to fall asleep when you want to?

How long does it take?

Is that every night? How often?

Is there any reason for it (e.g. fear of the dark)?

Once you're off to sleep, do you wake up again in the night?

Why is that?

Can you get back to sleep again easily?

Do you wake up early in the morning and can't go back to sleep?

Is that earlier than you need to?

Do you need more sleep?

How long have you been having sleep problems?

HYPERSOMNIA - INCREASED NEED FOR SLEEP

Total hours sleep exceed usual amount by at least one hour, unless subject prevented from sleeping.

Do you feel sleepy during the day?

*More sleepy than usual?
More than most other people?*

Do you sleep in the day?

*For how long?
How long have you been more sleepy than usual?*

RESTLESS SLEEP

Sleep is described as restless.

How would you describe an average night's sleep?

*Do you sleep soundly?
Do you toss and turn?
Are you restless?*

INADEQUATELY RESTED BY SLEEP

Sleep disturbance does not meet criteria for insomnia, but subject describes being inadequately rested by sleep upon waking.

Do you usually get a good night's sleep?

Are you fairly well rested when you get up?

Or after sleeping during the day?

*How do you feel?
When did that start?*

Coding rules

INCREASED NEED FOR SLEEP

- 0 = Absent
- 2 = Hypersomnia occurs in at least 2 activities and is at least sometimes uncontrollable.
- 3 = Hypersomnia occurs in nearly all activities and is nearly always uncontrollable.

Definitions and questions

NIGHTMARES

Frightening dreams that waken the child with a markedly unpleasant affect on waking (which may be followed rapidly by feelings of relief).

IF NIGHTMARES ARE ASSOCIATED WITH SEPARATION ANXIETY, CODE THEM MORE SPECIFICALLY AS SEPARATION DREAMS.

IF NIGHTMARES ARE ASSOCIATED WITH TRAUMATIC EVENTS, AND MEET CRITERIA FOR CODINGS, CODE THEM HERE AND THERE ALSO.

Do you have any bad dreams or nightmares?

*Do they wake you up?
What are they about?
What are they like?
How often?
When did the nightmares start?*

TIREDNESS

A feeling of being tired or weary at least half the time.

Have you been feeling especially tired or weary?

How much of the time have you felt tired like that?

FATIGABILITY

Child becomes tired or "worn out" more easily than usual.

Have you become tired or "worn out" more easily than usual?

Do you feel exhausted even by things that would have been no problem before?

*When you get tired like that, does it take a long time to get over it?
Is that more than usual for you?*

Coding rules

NIGHTMARES

0 = Absent

2 = Bad dreams have woken the subject in the last 3 months.

TIREDNESS

0 = Absent

2 = Feels tired at least half of the time.

3 = Feels tired almost all of the time.

FATIGABILITY

0 = Absent

2 = Increased fatigability not meeting criteria for 3.

3 = Even minimal physical activity rapidly results in subject feeling exhausted, and recovery from that exhaustion is slow.

Definitions and questions

ELIMINATION DISORDERS
ELIMINATION DISORDERS

NOCTURNAL ENURESIS

Urine passed involuntarily in bed or underwear.

Do not include episodes of wetting directly and exclusively associated with marked physical illness, or wetting that is directly and exclusively associated with lack of toilet facilities.

Have you ever wet your bed?

Has this happened recently?
When was the last time that it happened?

MONTHS OF AGE WHEN LAST WET PRECEDING 1 YEAR'S CONTINENCE

DIURNAL ENURESIS

How about wetting your pants in the daytime?

What happens?
How often does that happen?
IF WET IN THE LAST THREE MONTHS, ASK:

When you were younger, were you ever dry for as long as a year?
When did you start wetting again?

Coding rules

NOCTURNAL ENURESIS

0 = Absent

2 = Any episode of nocturnal enuresis that involves the involuntary passage of a substantial amount of urine (i.e. excluding minor dampness associated with careless hygiene or with severe sneezing/laughing).

PREVIOUS PERIOD OF ONE YEAR'S NOCTURNAL CONTINENCE

0 = Absent

2 = Present

Definitions and questions

TICS AND TRICHOTILLOMANIA

Tics are sudden, rapid, stereotyped, repetitive, non-rhythmic, predictable, purposeless, coordinated contractions of functionally related muscle groups. They can usually be suppressed voluntarily for a time and can usually be imitated. To be coded at all, tics should have occurred at least 10 times each day for at least a week during the past three months.

TRICHOTILLOMANIA

Recurrent pulling out of one's own hair, resulting in noticeable hair loss from scalp, eyebrows, eyelashes, and/or beard.

Do not include hair loss because of radiation therapy.

Do you ever pull your hair out?

Do you pull out hair from your head, face, eyebrows, or eyelashes?

What do you feel like when you do it?
Do you feel tense just before you do that?
Do you feel better after you do it?
Can you stop yourself from doing it?
Have you pulled out so much that other people have noticed
Have you done it in the past 3 months?
When did you first start doing it?

Coding rules

- 0 = Absent
 - 1 = No obvious hair loss.
 - 2 = Noticeable but partial hair loss.
 - 3 = Most or all hair on scalp is missing.
- TENSION BEFORE PULLING HAIR OUT**
- 0 = Absent
 - 2 = Subject experiences a building sense of tension prior to hair pulling
- RELIEF AFTER PULLING HAIR OUT**
- 0 = Absent
 - 2 = Subject experiences a relief of tension as a result of hair pulling

REPORTED MOTOR TICS

Tics are sudden, rapid, stereotyped, repetitive, non-rhythmic, predictable, purposeless, coordinated contractions of functionally related muscle groups. They can usually be suppressed voluntarily for a time and can usually be imitated.

To be coded at all, tics should have occurred at least 10 times each day for at least a week during the past three months.

Do you have any twitches, like winking, that people notice?

- What do you do?*
- Can you show me?*
- How often does that happen?*
- Can you stop yourself?*
- When did that start?*

REPORTED PHONIC TICS

Phonic tics are sudden, rapid, stereotyped, repetitive, predictable, purposeless, phonic productions.

To be coded at all, tics should have occurred at least 10 times each day for at least a week during the past three months.

Do you often make strange noises like grunting or screeching?

- How often?*
- What sort of noises?*
- When did that start?*

Coding rules

REPORTED MOTOR TICS

- 0 = Absent
- 2 = Single motor tics.
- 3 = More than one type of tic.

FREQUENCY PER HOUR

- 1 = Less than 10 per hour.
- 2 = More than 10 per hour.
- 3 = More than 100 per hour.

REPORTED PHONIC TICS

- 0 = Absent
- 2 = Single phonic tic type.
- 3 = More than one type of tic (includes coprolalia)

BEHAVIORAL DESCRIPTIONS**

RULE BREAKING

Violation of standing rules at school/college/university or elsewhere but NOT at home.

N.B. "Rule-breaking" at home is rated as disobedience since families do not have formal rules.

Do not include breaking laws or violating parole.

How good are you at obeying the rules at school?

What happens if you don't?

What sort of rules do you break?

Do you break the rules anywhere else?

Tell me about the last time it happened.
Do you get into trouble?

How often do you break the rules?
When did you start breaking rules?
Do you do it on your own or with other people?

Coding rules

RULE BREAKING

0 = Absent

2 = The child breaks rules relating to at least 2 activities, and at least sometimes responds to admonition by public failure to comply.

3 = If rule breaking occurs in most activities and the child sometimes responds to admonition by disputing or challenging the authority of the person admonishing him/her

Definitions and questions

ANNOYING BEHAVIOR

Indulgence in active behaviors that annoy or anger peers, siblings, or other adults. The child's intention need not be to annoy, but the behaviors would obviously annoy their recipient.

Do not include annoying behaviors that are the result of unintentional acts, for instance, annoyance caused by clumsiness, or failure to understand the rules of games.

Do not include behaviors that conform to the definitions of Rule Breaking and Disobedience.

Do you find that other people get annoyed by things you do?

Like what?

D you ever do things deliberately to annoy other people?

Or do you find that other people get annoyed because of the things you do for fun?

What happens?

Can you tell me about the last time?

Where do you do those sorts of things?

How often does something like that happen?

When did it start?

Coding rules

ANNOYING BEHAVIOR

0 = Absent

Definitions and questions

DECEPTION

LYING

Distortion of the truth with intent to deceive others.

Most people tell lies sometimes. What sort of lies have you told in the last 3 months?

What about?
Who to?
Where?
Why did you do it?
Was it to get out of trouble?
Where do you tell lies?
How often do you tell lies?
When did you start telling lies?
Did you ever tell lies to get out of things you don't want to do?

What happens when your caught doing something wrong?

When something goes wrong that's your fault, do you admit it?

Coding rules

LYING

0 = Absent

2 = Lies told for gain, or to get out of school attendance etc., or to escape school punishment, in at least 2 activities that do not result in others getting into trouble.

HOME

DAYCARE/SCHOOL

ELSEWHERE

SOLITARY/ACCOMPANIED

**ANTI-SOCIAL
ANTI-SOCIAL BEHAVIOR**

FAILURE TO HONOR FINANCIAL OBLIGATION

Subject has not paid money s/he owes, or has not repaid money s/he has borrowed. The debt may have arisen prior to the last three months, but the failure to pay has been ongoing in the last three months. If two or more weeks have passed since the debt was incurred (or bill was due) and payment has not been made, code failure to honor the commitment despite assurance the subject plans to pay in the future. Code failure to pay child support more specifically below.

Over the last three months, have you owed anyone any money?

Or borrowed any money?

*Did you pay the money back?
Were there any times in the last three months when you didn't pay someone the money you owed or borrowed?
Did you have any financial obligations that you did not honor?*

Are you behind on credit card payments?

*Or behind on car payments?
What about cell phone or utility bills?*

Do you owe the IRS or the State for any taxes you haven't paid?

*How many times over the last three months have you owed someone money but didn't pay them?
Or you have missed a payment for your car, phone, utilities, or credit cards?*

When was the first time you didn't pay money you owed for a bill or to someone?

CHILD LIVING ELSEWHERE

Do you have any children who don't live with you?

IF SUBJECT HAS A CHILD THAT LIVES ELSEWHERE, COMPLETE. OTHERWISE, SKIP TO "FINANCIAL CONSEQUENCES", (PAGE 3).

FAILURE TO HONOR FINANCIAL OBLIGATIONS

0 = Does not owe money or has not failed to pay.

1 = Has made partial payment.

2 = Has not paid/repaid an amount less than \$50.00.

3 = Has not paid/repaid an amount greater than or equal to \$50.00.

Definitions and questions

FAILS TO PAY CHILD SUPPORT

Is there a court order that requires you to pay child support?

Do you pay child support?

Have you missed any payments in the last three months?
NOTE: IF NO COURT ORDER ASK

Do you contribute money for the child's upbringing even though it is not court-ordered?

FINANCIAL CONSEQUENCES

Have you ever had a car or other possessions repossessed?

Have you had debts turned over to a collection agency?

Have you been unable to pay your rent or mortgage?

Have you been unable to make a purchase due to bad credit?

Have you been turned down for a loan?

How many times have you experienced the negative consequences of not honoring prior financial obligations?

When was the first time?

Coding rules

FAILS TO PAY CHILD SUPPORT

0 = Pays either court-ordered child support or voluntarily contributes more than \$20 per month to child's upbringing.

1 = Does not contribute financially, or less than \$20 per month.

2 = Has missed at least one court-ordered child support payment in the last three months.

Definitions and questions

LACK OF REMORSE

Lack of remorse, as indicated by being indifferent to or rationalizing having hurt, mistreated, or stolen from another. Subject steals, cheats, maltreats people or otherwise breaks clear societal boundaries without guilt. Taking inexpensive items or small amounts of money are considered stealing if the owner was not informed and is deprived of the use of the item. Do not code for white lies told to spare the feelings of others.

Do you feel badly when you do something wrong?

Or when you do something that really hurts someone's feelings?

Or when you cause someone to be upset or stressed out?

Do you feel guilty if you lie?

Or if you mislead your girl/boyfriend, spouse, or partner?

Or cheat?

Or steal?

Or break laws that cause harm to others or society in general?

Have you hurt anyone over the last three months?

Do you feel like you should be able to do whatever you want regardless of what affect it might have on others?

Can you give me an example?

How many times have you done something like that over the last three months without feeling badly about it?
How many of those times were at home?
School or work?
Other places?

When did you start doing things like that and not feeling bad about it?

Coding rules

LACK OF REMORSE

0 = Has not committed any wrongdoing or feels remorse for transgressions.

2 = Expresses no remorse for obvious transgressions.

Definitions and questions

HARASSMENT

Repeated or persistent infringement that causes annoyance or torment to another person.

Over the last three months, have you called someone on the phone, just to make them feel annoyed?

Or to make them feel frightened?

Can you tell me a little about that?
Have you just shown up at someone's house or property?

Why did you go there?
 What happened?

How many times have you done that?

When did you start doing that?

IMPULSIVITY OR FAILURE TO PLAN AHEAD

Subject acts on impulse without making plans or considering the end result (i.e., quitting a job before having a new job, severing relationships without considering the consequences, taking on responsibilities without any "game plan" for follow through).

Do you sometimes do things on impulse?

Or just decide to do things without planning ahead?

Does it cause problems when you do this?
 Can you give me an example?
Do you change your plans frequently?

Does that make it difficult for you or others?
Have you moved without any specific place to go?

Have you left a long term relationship without really thinking it through?

What about in the last 3 months?

How many times have you done something like that in the last 3 months?

When was the first time you acted impulsively like that?

Coding rules

HARASSMENT

Definitions and questions

NO PERMANENT ADDRESS

Subject has spent at least a month without a home, moving in with one acquaintance or another, living on the streets or in shelters. Do not include camps, hospital stays, visits with friends, and situations where the expectation is that they can and will return home.

Have you ever spent a month or more with no fixed address?

*Did you move around from place to place?
Or live on the street?
Or in shelters?*

What about the last three months?

What is the longest period of time that you lived like that?

When was the first time you spent at least a month with no fixed address?

USE OF AN ALIAS

Subject uses another name to fool authority, or gain entree' to an opportunity that would not be granted under the subject's own name, or to avoid responsibilities. Do not code literary (authorial) pseudonyms or simple nicknames.

Have you ever used an alias?

Or used another name to either get something or avoid something?

Why was that?

Have you used an alias over the last three months?

How many times?

When was the first time you used another name for those kinds of reasons?

Coding rules

NO PERMANENT ADDRESS

0 = Retained a permanent address.

2 = No permanent address for a month or more.

NO PERMANENT ADDRESS IN PP

0 = Retained a permanent address.

2 = No permanent address for a month or more.

Definitions and questions

GAMBLING

Subject makes wagers on card games, sporting events, etc. There is some intimation that this behavior goes beyond playing poker or football pools for minimal amounts with family and friends.

Do you gamble?

Do you bet at cards?

Do you bet on football or basketball games?

Or horse races or animal fights?

Do you play betting games at Casinos?

Do you play the lottery?

Do you do any other type of gambling?

Do you risk more than \$50.00 at a time?

How many times would you say you have gambled in the last 3 months?

When did you first start gambling or taking bets?

How much have you lost over the last three months?

About how much have you ever lost?

IF SUBJECT HAS LOST MONEY BY GAMBLING OVER THE LAST THREE MONTHS, COMPLETE. OTHERWISE, SKIP TO "RECKLESS DISREGARD FOR SAFETY OF SELF OR OTHERS", (PAGE 10).

Coding rules

GAMBLING

0 = Absent

2 = Gambling is present in at least two activities and is at least sometimes uncontrollable, but amount wagered is less than \$50.00 at a time.

3 = Gambling is present in most activities and is usually uncontrollable or has wagered \$50.00 (or more) at a time at least once in the primary period.

APPROXIMATE AMOUNT LOST OVER THE LAST THREE MONTHS

0 = Came out even or made money.

1 = Less than \$50.

2 = \$100 or less.

3 = \$200 or less.

4 = \$300 or less.

5 = \$400 or more.

APPROXIMATE AMOUNT EVER LOST

0 = Came out even or made money.

1 = Less than \$50.

2 = \$100 or less.

3 = \$200 or less.

4 = \$300 or less.

5 = \$400 or more.

Definitions and questions

DIFFICULTIES RESULTING FROM NEED TO COVER GAMBLING LOSSES

Subject is unable to cover gambling debts and this has resulted in further difficulties. If the information conforms to the definitions of other items (Failure to Honor Financial Obligations, Neglect or Failure to Care For a Child, Stealing, etc.), code there as well.

Over the last three months, have you had any trouble covering your gambling losses?

Where do you get the money to pay for your gambling debts?

- Have you had to use your savings?*
- Have you had to work extra hours, or an extra job, to raise the money?*
- Have you had to borrow from someone else to cover your gambling losses?*
- Have you paid them back?*
- Has your gambling affected your ability to cover other expenses?*
- Were you unable to support your child because of gambling losses?*
- Have you resorted to stealing to cover gambling losses? Or dealt drugs to raise the money?*
- Has anyone been calling you, or harassing you for payment?*
- Are you in physical danger because you haven't paid your gambling debts?*
- When was the first time your losses caused these other problems?*

Coding rules

RESULTANT DIFFICULTIES

RECKLESS DISREGARD FOR SAFETY OF SELF OR OTHERS

Subject enters into or causes dangerous situations without considering the consequences to self or others. Do not code car accidents that clearly were not the subject's fault.

Have you ever been the driver when an auto accident occurred?

What happened?
Have you driven a car or motor bike after using alcohol or drugs?

Do you like taking risks?

Do you consider yourself a reckless person or a risk-taker?

Do you do dangerous things?

Can you give me an example?
Why did you do that?
Do you usually speed when driving a car or motorcycle or 4-wheeler?

How much over the speed limit do you usually go?

When was the first time you put yourself or others into a dangerous situation like that?

How often have you done dangerous or risky things like that, in the last 3 months?

SUBJECT HAS CHILD OR TAKES CARE OF CHILD

Do you babysit?

Do you watch your brothers or sisters?

Or other children?

Do you work in a situation where you are responsible for children?

IF SUBJECT HAS A CHILD, 'STEPCHILD' OR TAKES CARE OF A CHILD, CONTINUE. OTHERWISE, SKIP TO "", (PAGE ERROR! BOOKMARK NOT DEFINED.).

Definitions and questions

NEGLECT OR FAILURE TO CARE FOR A CHILD
 Due to the subject's lack of responsibility, a child has suffered or been put into danger.

Do you take good care of your child/ the child you babysit?

Have you left him/her alone for a long time?

Or not fed him/her?

Have you had the child in a car without being properly placed in a car seat?

Have you put him/her in danger?

Have you left the child in the care of someone too young to responsibly look after the child?

Or with a stranger?

What happened?
When was the first time that happened?

How many times in the last 3 months?

CHILD ABUSE

Have you ever spanked or hit a child so hard that it left bruises?

Have you ever shaken a child real hard?

What happened?
Have you hurt a child in any other way?

Has anyone ever reported you to social services?
When was the first time you did something like that?

Has that happened in the last 3 months?

How many times?

ALCOHOL

ALCOHOL USE

Include any use of alcohol (beer, wine, hard liquor), even with parental permission.

Have you ever tried drinking alcohol?

What about hard liquor?

*What do you prefer to drink (beer, wine, liquor)?
When did you first try?*

Have you had any in the last 3 months?

How many drinks per week have you had, on average, in the last 3 months?

*How often have you drank in the last 3 months?
For example, how many times per week or month do you drink?*

*Do you usually drink alone or with others?
Are you with others >50% of the time when you drink?*

IF THE SUBJECT HAS DRUNK ALCOHOL, CONTINUE, OTHERWISE, SKIP TO "DRUGS", (PAGE 18).

USE OF ALCOHOL WITHOUT PERMISSION FROM A RESPONSIBLE ADULT

Drinking alcohol without permission from a responsible adult, whether alcohol obtained legally or illegally.

Have you ever drunk alcohol without permission?

When was the first time you drank alcohol without permission?

What about in the last 3 months?

How many times in the last 3 months?

DRINKING WEEKLY

Once a week for a month.

Has there ever been a period when you drank every week for a month or more?

When did that start?

Have you drank at least once a week for a month or more in the last 3 months?

DRINKING DAILY

5 days per week for a month

Has there ever been a period when you drank 5 or more days per week for a month?

When did that start?

How about in the last 3 months?

Definitions and questions

BINGE DRINKING

Subject has during the last 3 months drank an amount of alcohol that was, in their opinion or in fact, in excess of what they could physically handle. The focus here is on the amount drank, not the frequency of drinking. Binge drinking leading to physical illness (i.e. vomiting, blackouts) and/or negative social consequences (i.e. loss of judgement, violence, sexually inappropriate behavior, driving under the influence, etc.) The subject may or may not drink often, but at times drinks to a level that interferes with functioning.

Have you ever drank alcohol to excess?

Do you have drinking "binges"?

*Do you, at times, drink more than you intended?
 Has that caused you any problems?
 Tell me about the last time that happened.
 Have you done anything that you really regretted or felt bad or embarrassed about as a result?
 Have you vomited or passed out as a result?
 Where does that happen?
 When was the first time?*

Has that happened in the last 3 months?

How many times in the last 3 months?

DRUNK

Subject's self-report of being "drunk".

Have you ever been "drunk"?

Have you been "drunk" in the last 3 months?

Definitions and questions

ALCOHOL INTOXICATION

Alcohol ingestion associated with any of the following behavioral or psychological changes: slurred speech, incoordination, unsteady gait, nystagmus, flushed face.

In the last 3 months, have you experienced any physical effects from alcohol use?

How many times?

How many times have you vomited because of drinking in the last 3 months?

How many times have you passed out because of drinking in the last 3 months?

Was your speech slurred?

How was your coordination?

Did you have trouble walking straight?
Did you fall down at all?
Or bump into things?
Or knock anything over?
Could you move your arms and hands properly?

Could you fix your eyes on things properly?

Or were they jerking about?

Do you know if your face was red?

How many times in the last 3 months have you had any of these symptoms associated with drinking (signs of intoxication)?

When was the first time you had any of these symptoms associated with drinking?

Did you start to believe any strange or unusual things?

Definitions and questions

DESIRE TO CUT DOWN

The subject has at certain times felt that s/he would like to reduce his/her alcohol intake. There is no requirement that s/he should have actually done so.

Do you want to cut down on how much alcohol you drink?

*Have you ever wanted to?
When was the first time?*

ADVISED TO CUT DOWN

Parents, loved ones, friends, professionals, or others have told or advised the subject to reduce his/her alcohol intake, on at least one occasion.

Has anyone ever told you that you should cut down?

*Who?
When was the first time?
What do your parents, friends, and other loved ones think?*

ATTEMPTS TO CUT DOWN

Actual efforts at reduced alcohol intake or abstention made, lasting at least 8 hours, but which proved unsuccessful at permanently reducing intake.

Have you ever actually tried to cut down on how much alcohol you drink?

*Why was that?
How many times have you tried?
When was the first time?
What about in the last 3 months?
For how long?
Did you substitute other substances while you were cutting down on alcohol?*

Definitions and questions

ALCOHOL WITHDRAWAL

To be considered symptoms of withdrawal, symptoms must have occurred within 5 days of ending (or reducing alcohol intake during) a period of heavy ingestion of alcohol (that lasted at least 3 days).

What happens if you cut down on how much alcohol you drink?

*Tell me about the last time you cut down?
If you drink less than usual, what happens?*

Do you notice any physical symptoms?

If yes, Do you drink any alcohol or use other drugs to make "symptoms" go away?

*Does it work?
What happens then?*

IF WITHIN THE LAST 3 MONTHS THE SUBJECT HAS HAD PERIODS OF REDUCED ALCOHOL INTAKE ASSOCIATED WITH PHYSICAL SYMPTOMS, SKIP TO "DRUGS", (PAGE 18).

Definitions and questions

CANNABIS INTOXICATION IN PP

Any of the following signs within 2 hours of using cannabis: conjunctival injection, increased appetite, dry mouth, tachycardia.

Have you had any physical effects in the last 3 months?

How many times in the last 3 months have you been intoxicated from marijuana?

Did your eyes get bloodshot?

Did you get a dry mouth?

Did you notice your heart beating fast?

Did your appetite change at all? Was it bigger?

How did you feel?

Coding rules

Definitions and questions

CANNABIS INDUCED BEHAVIORAL CHANGES

This item applies to Cannabis use in the last 3 months.

Do/Did you feel really happy when you smoke(d) pot?

Do/Did you feel suspicious of people?

Does/Did time seem to be slowed down?

Do/Did you feel anxious?

Did you want to be with other people or did you get withdrawn?

What was that like?

Did you seem to see, hear or feel strange things that weren't really happening?

Did you start to believe any strange or unusual things?

CANNABIS - DESIRE TO CUT DOWN

The subject has at certain times felt that s/he would like to reduce his/her cannabis intake. There is no requirement that s/he should have actually done so.

Do you want to cut down on how much "marijuana" you smoke?

When was the first time you thought you wanted to cut down?

Coding rules

Definitions and questions

CANNABIS- ADVISED TO CUT DOWN

Parents, loved ones, friends, professionals, or others have told or advised the subject to reduce his/her cannabis intake, on at least one occasion.

Has anyone ever told you that you should cut down?

Who?
When was the first time?
What do those close to you think?

CANNABIS - ATTEMPTS TO CUT DOWN

Actual effort at reduced cannabis intake or abstention have been made, lasting, at least 8 hours, but which proved unsuccessful at permanently reducing intake.

Have you tried to cut down?

What happened?
How many times have you tried?
When did that start?

How long did it last?

Have you tried in the last 3 months?

How long did that last?

CANNABIS TOLERANCE

The need for an increased intake of "marijuana" (by at least 50%) to produce previously experienced psychological or behavioral changes associated with marijuana use.

***CODE ONLY IF IN THE LAST 3 MONTHS

Do you need to use more "marijuana" than you used to, to have the same effect?

Are you able to tolerate larger amounts than you used to?

*How much more does it take now?
When did you start needing more to get the effect you wanted?*

CANNABIS WITHDRAWAL

To be considered symptoms of withdrawal, symptoms must have occurred within 5 days of ending (or reducing marijuana intake during) a period of heavy ingestion of marijuana (lasting at least 3 days). Include symptoms such as tremor, nausea, vomiting, autonomic hyperactivity, headache, stomach ache, and insomnia.

What happens if you cut down on how much marijuana you use?

Tell me about the last time you cut down.
Do you notice any physical symptoms when you cut down?

*Did your hands shake?
Did you have nausea or vomiting?
Were you sweating more or having a rapid heartbeat?
Did you have headache, stomachache, or trouble sleeping?*
Do you smoke pot or use some other substance to make those "symptoms" go away?

When was the first time you noticed these "symptoms" when you tried to cut down?

IF COCAINE/CRACK USE ABSENT, SKIP TO "AMPHETAMINE", (PAGE 46).

CANNABIS TOLERANCE

0 = Does not show tolerance.

2 = Needs to use "substance" at least 50% more than previously to obtain desired effect or can tolerate at least 50% more than previously.

AMPHETAMINE INDUCED BEHAVIORAL CHANGES

CODE FOR THE PAST 3 MONTHS.

IF THE SUBJECT HAS BEEN HYPERVIGILANT, UNDULY SUSPICIOUS, AGITATED, OR GRANDIOSE, PROBE FOR DELUSIONAL SYNDROME.

MAKE A NOTE HERE THAT AMPHETAMINE/ICE/METH ABUSE HAS BEEN PRECIPITANT OF PSYCHOTIC SYMPTOMS.

How did you feel?

Did you feel really happy?

Did you get agitated?

Or get slowed down in your movements?

What was that like?

Were you moving around alot or having trouble keeping still?

Did you feel nervous or worried about what was going on around you?

Did you feel that something bad might be going on?

Did you keep a sharp lookout for what was going on?

Did you start to feel really important?

Or that you were more powerful than usual and could do unusual things?

Did you see or hear anything that wasn't really there?

Did you start to believe any strange or unusual things?

IF THE SUBJECT HAS BEEN HYPERVIGILANT, UNDULY SUSPICIOUS, AGITATED, OR GRANDIOSE, PROBE FOR DELUSIONAL SYNDROME. MAKE A NOTE HERE THAT AMPHETAMINE ABUSE HAS BEEN PRECIPITANT OF PSYCHOTIC SYMPTOMS. IF DURING THE LAST 3 MONTHS SUBJECT HAS USED SUBSTANCE DAILY FOR ANY 5 DAY PERIOD, OR HAS USED AT LEAST 10 DAYS, OR BEEN INTOXICATED AT LEAST 2 TIMES, COMPLETE DESIRE TO CUT DOWN AND MALADAPTIVE BEHAVIOR. EVIDENCE OF ADDITIONAL BEHAVIORAL CHANGE(S) ALSO REQUIRES COMPLETION OF MALADAPTIVE BEHAVIOR SECTION. OTHERWISE, SKIP TO NEXT DRUG. IF IF DURING THE LAST 3 MONTHS SUBJECT HAS USED AMPHETAMINE DAILY...OTHERWISE, SKIP TO "INHALANT", (PAGE 59).

Definitions and questions

AMPHETAMINE/ICE/METH: DESIRE TO CUT DOWN

The subject has at certain times felt that s/he would like to reduce his/her amphetamine/ice/meth intake. There is no requirement that s/he should have actually done so.

Have you ever wanted to cut down on how much you use amphetamines, ice, or meth?

When did you first feel that way?

AMPHETAMINE/ICE/METH: ADVISED TO CUT DOWN

Parents, loved ones, friends, professionals, or others have told or advised the subject to reduce his/her amphetamine/ice/meth intake, on at least one occasion.

Has anyone told you that you should cut down?

Who?

When was the first time?

What do those who care about you think?

AMPHETAMINE/ICE/METH WITHDRAWAL

To be considered symptoms of withdrawal, the following symptoms must have occurred within 8 hours of ending (or reducing the amount of amphetamine, ice, or meth ingested during) a period of heavy ingestion of amphetamine, ice or meth (that lasted at least 3 days).

What happens if you cut down on your amphetamines, ice, or meth?

Tell me about the last time you cut down.

Did you notice any physical symptoms?

What happened?

Did you use amphetamines to make the "symptoms" go away?

Did it work?

When you cut down, did you feel tired?

Did it interfere with what you wanted to do?

Could you do anything to get yourself going?

Did it affect your sleep?

In what way?

Did it affect your dreams?

Or your appetite?

Were you slowed down in your movements?

Or did you move around alot?

Did you notice that you were more depressed or irritable than usual?

IF INHALENT/NITRITE INHALENT USE ABSENT, SKIP TO "HEROIN/ECSTASY", (PAGE 69).

INHALANT INTOXICATION

Any of the following signs within 2 hours of using inhalant: dizziness, slurred speech, tremor, unsteady gait, incoordination, lethargy, psychomotor retardation, generalized muscle weakness, nystagmus, blurred vision/diplopia, euphoria, stupor/unconsciousness.

Did you get high when you used inhalants?

*What about in the last 3 months?
What is that like?*

Have you ever noticed any physical effects?

*What did you notice?
When did that start?
How many times in the last 3 months have you been "high" from it?*

Did you get dizzy?

Was your speech affected?

What was it like?
Did your hands shake?

Was your balance affected?

Were you unsteady on your feet?

Could you control your movements properly?

Was your energy affected?

In what way?
Were your movements slowed down at all?

Did you feel weak?

Did you actually lose power in your muscles?
Could you fix your eyes on things properly?

Or were they jerking about?

Was your vision affected?

*Was it blurred?
Did you have double vision at any time?*
Did you feel really happy?

Did you lose consciousness?

OTHER OPIOIDS/OXYCODONE

WHEN QUESTIONING ABOUT DRUGS SUBSTITUTE THE SUBJECT'S NAMES FOR THEM

You said that you have used other opioids and/or oxycodone...

How often have you used them?

Have you ever used "other opioids" at least once a week for a month or more?

When did that start?

Have you ever used it as often as 5 days a week for a month or more?

When did you start using at that level?

How much do you use now (in the last 3 months)?

OTHER OPIOIDS/OXYCODONE: WITHDRAWAL

To be considered symptoms of withdrawal, the following symptoms must have occurred within 8 hours of ending (or reducing the amount of opioids ingested during) a period of heavy ingestion of opioids (that lasted at least 3 days).

What happens if you cut down on your use of opioids or oxycodone?

*Tell me about the last time you cut down.
Do you notice any physical symptoms?*

*What happened?
Did you use opioids or oxycodone to make the symptoms go away?
Did it work?
What happened then?
Did you feel that you really needed some opioids or oxycodone very badly?*

Did you feel nauseous?

Or vomit?

Did your muscles ache?

Did your eyes water?

Or your nose run?

Did you get goosebumps?

Or get sweaty?

Did anyone notice or could you tell that your pupils were very large?

Did you have diarrhea?

Did you yawn a lot?

Did you get a fever?

Was your sleep disturbed?

In what way?

Low mood, Subjective Anxious Affect, or Elevated Mood occurring within 3 weeks of beginning hallucinogen use, and persisting at least 24 hours after the cessation of such use.

IF EVER USED HALLUCINOGEN, ASK ABOUT HALLUCINOGEN MOOD DISORDER.

MAKE CAREFUL WRITTEN NOTES OF THE SYMPTOMATOLOGY ASSOCIATED WITH HALLUCINOGEN USE.

N.B. BE SURE TO ASK ABOUT ALL HALLUCINOGENS USED.

Did your mood change at all when you used "hallucinogen" in the last 3 months?

- How did you feel?*
- What was it like?*
- How long did the mood change last?*
- Did you try stopping using "hallucinogen"?*
- Did that make any difference?*
- Was your mood still changed after you stopped?*
- For how long?*
- When did this first happen?*
- How often has it happened in the last 3 months?*

Coding rules

POST-HALLUCINOGEN PERCEPTION DISORDER

IF EVER USED ANY HALLUCINOGEN, ASK ABOUT POST-HALLUCINOGEN PERCEPTION DISORDER.

N.B. ASK ABOUT ALL HALLUCINOGENS USED.

RE-EXPERIENCED PERCEPTUAL SYMPTOMS

The subject re-experiences one or more of the perceptual symptoms that characterized his/her use of a hallucinogen, when the hallucinogen has not been taken within the preceding 24 hours.

Have you ever had a flashback? (explain if necessary)

- What was it like?
- What did you see?
- Was that like what happens/ed when you took "hallucinogen"?
- How long did it last?
- Have you had any in the last 3 months?
- How many times?
- When did you first have a flashback?

DISTRESS

During a period of re-experience of perceptual symptoms, the subject experienced Subjective Anxious Affect, or other unpleasant mood states.

How did you feel when you were having the flashback?

- Did you feel frightened?
- What were you doing when you felt that way?
- Could you stop yourself from feeling that way?

IF SEDATIVE USE ABSENT, SKIP TO "MALADAPTIVE SCREEN", (PAGE 113).

RE-EXPERIENCE OF PERCEPTUAL SYMPTOMS

2 = Symptom intrusive into at least 2 activities and uncontrollable at least some of the time

3 = Symptom intrusive into almost all activities and hardly ever controllable.

IF DURING THE LAST 3 MONTHS SUBJECT HAS USED "SEDATIVE" FOR ANY 5 DAY PERIOD, OR HAS USED AT LEAST 10 DAYS, OR HAS BEEN INTOXICATED AT LEAST 2 TIMES, COMPLETE DESIRE TO CUT DOWN AND MALADAPTIVE BEHAVIOR. EVIDENCE OF ADDITIONAL BEHAVIORAL CHANGE REQUIRES COMPLETION OF THE MALADAPTIVE BEHAVIOR SECTION. OTHERWISE, SKIP TO NEXT SECTION. IF IF SUBJECT HAS USED SEDATIVE FOR ANY 5 DAY PERIOD...OTHERWISE,, SKIP TO "SUBJECTIVE NEED FOR "SUBSTANCE"", (PAGE 114).

Definitions and questions

SEDATIVE: DESIRE TO CUT DOWN

The subject has at certain times felt that s/he would like to reduce his/her "sedative" intake. There is no requirement that s/he should have actually done so.

Have you ever wanted to cut down on how much you use "sedative"?

When did that start?

SEDATIVE: ADVISED TO CUT DOWN

Parents, loved ones, friends, professionals, or others have told or advised the subject to reduce his/her "sedative" intake, on at least one occasion.

Has anyone ever told you that you should cut down?

Who?

What do your parents and other loved ones think?

When was the first time you were advised to cut down?

Coding rules

SEDATIVE: WITHDRAWAL

To be considered symptoms of withdrawal, symptoms must have occurred within 8 hours of ending a period of heavy ingestion of "sedative" (that lasted at least 3 days), or of a reduction in the amount of "sedative" used.

Have you experience any withdrawal symptoms in the last 3 months?

What happens if you cut down on your "sedative"?

Tell me about the last time you cut down.
Did you notice any physical symptoms?

What happened?
Did you take any "sedative" to make the symptoms go away?
Did it work?
Did you feel nauseated?

Did you vomit?

Did you feel weak?

Did it affect your activities at all?

In what way?
Did you notice your heart beating fast?

Or irregularly?
Did you notice yourself breathing faster than usual?
Did you notice your stomach churning?
Did you get sweaty?
Or have diarrhea or have to urinate frequently?
Did you get a lump in your throat?
Or get flushed?
Did you feel anxious?

Or nervous or worried?
What was that like?
Did you get bad-tempered?

Did you get dizzy when you stood up at all?

Did your hands shake?

Did you have shakes anywhere else?
Was your sleep affected?

Did you have any blackouts?

Or fits?

Did you seem to see, hear or feel strange things that weren't really happening?

Definitions and questions

TIME SPENT IN "SUBSTANCE" RELATED BEHAVIOR

Amount of time spent in "substance" related behavior including activities associated with getting and consuming "substance" and recovering from the effects of using "substance".

How much time do you spend using "substance"?

Or getting "substance", including locating it, going after it, etc.?

Or getting it ready to use (whatever preparatory measures are appropriate for the substances used)?

Or recovering from the effects of using it (being hungover, sleeping it off, etc.)?

How much time, in an average day, do you spend in "substance-related" activities?

COST OF SUBSTANCES PER WEEK IN LAST 3 MONTHS

Have you spent any money on substances in the last 3 months, including drugs or alcohol?

How much did you spend per week in the last 3 months on drugs and alcohol?

How do you pay for your use of "substance"?

Where do you get the money?

Coding rules

UNCONTROLLABLE "SUBSTANCE" USE

Episodes in which, whatever his/her original intentions, the subject keeps on using "substance" until unable to use "substance" any more, either because of the unavailability of further "substance" or because of physical incapability (e.g. severe nausea).

Once you start using "substance", do you ever find that you just can't stop until it's all gone?

Or until you physically can't take any more (e.g. because of unconsciousness, vomiting, "sore lungs", etc.)?

Do you ever use "substance" just because it's there?

*How often does that happen?
When did that start?*

Coding rules

UNCONTROLLABLE SUBSTANCE USE

0 = Never unable to resist using "substance" until no further "substance" available or unable to use "substance" any more.

2 = Sometimes unable to stop (

3 = Usually (> 50% of the time) unable to stop until no further "substance" available or unable to use "substance" any more.

Definitions and questions

NARROWED "SUBSTANCE" USE REPERTOIRE

The subject tends to use "substance" in the same way in any situation, even when a particular pattern may be inappropriate. For instance using "substance" heavily when on a first date, or using "substance" as much whether alone or in company. Subject is unable to have a repertoire of substance using behaviors; patterns of heavy use are no longer differentiated by environment.

Do you "get high (drunk) (use substance)" in inappropriate circumstances?

Like where?

Do you have different patterns of using "substance" in different situations?

Do you vary how you use "substances" depending on the situation?

When did that start to happen?

Like when you go on a date, as compared with when you are with your friends?

SOCIAL PROBLEMS WITH FRIENDS

Relationship problems with peers that have resulted from "substance use".

CODE AS IN INCAPACITY SECTION.

What do your friends think?

Have you changed your friends since you've been using "substance"?

Has it caused any trouble with your friends or other people your own age?

*What happened?
When did that start?*

Have you lost any friends because of using "substance"?

Are there people who just won't hang around you anymore because of your using?

SCHOOL/COLLEGE/UNIVERSITY/WORK AFFECTED

Negative effects on school/college/university or work, performance and/or achievement that have resulted from "substance" use.

CODE AS IN INCAPACITY SECTION.

Has your education or work ever been affected because you were using "substance"?

*When was that?
What happened?
What about during the last 3 months?*

Have you ever been to school/college/university or work when you were "high (drunk)"?

What happened?

Have you gotten into any trouble there because "substance" was involved?

What happened?

Have you neglected your studies or work because of "substance"?

Have you missed any classes or work because of "substance use"?

*How much?
When was that?
What about in the last 3 months?*

Definitions and questions

"SUBSTANCE" RELATED CRIME

Illegal activities undertaken either to obtain "substance", or associated with intoxication with "substance".

PROSTITUTION IS ALSO CODED AS SEXUAL ACTIVITY FOR GAIN.

DEALING IS ALSO CODED AS DEALING DRUGS.

Have you done anything illegal while you were "high" in the last 3 months?

What did you do?
Did you get caught?
What happened?
When was the first time?

Have you ever stolen to get money for "substance"?

Or stolen any "substance"?

Have you ever been a runner or dealer to get money for "substance"?

Have you ever had sex with anyone or engaged in prostitution to get "substance"?

MANUFACTURING/DISTRIBUTION OF SUBSTANCE

Participation in the growing, manufacturing, and/or distribution of illegal substances. Include trafficking across state lines and from other countries.

Have you grown any illegal substances in the last 3 months?

Have you made or manufactured any illegal substances?

Have you been involved in distributing "illegal substances"?

What did you do?

Have you used your home or vehicle in "substance" related activity?

Or have you rented a building or vehicle to use in "substance" related activity?

Have you taken substance across state lines or into another country?

What "substances" were involved?

When was the first time you did something like that?

MOOD LABILITY

Unstable mood swings, often from excessive joviality to maudlin misery or anxiety. Mood lability should only be coded here if it is sufficiently pronounced as to lead to effects that seem inappropriate to the situation (such as copious, apparently unprovoked, weeping in a bar), or appear to have interfered with the normal course of conversation or activities.

Does your mood change at all when you are high?

How do you feel?

What is it like?

Does your mood go way up and down?

What about in the last 3 months?

When did that start?

Coding rules

MOOD LABILITY

0 = Absent

2 = Symptom intrusive into at least 2 activities and uncontrollable at least some of the time.

3 = Symptom intrusive into almost all activities and hardly ever controllable.

Definitions and questions

PHYSICAL PROBLEMS

Include any physical problems that either stem directly from intoxication (such as those resulting from injuries from an accident while intoxicated), or that a physician has told the subject are related to "substance" use.

MAKE WRITTEN NOTE OF NATURE OF PHYSICAL PROBLEMS.

Have you had any other physical problems on account of "substance" in the last 3 months?

Like coughing, shortness of breath, nausea, headaches, etc.

Have you been to a Doctor as a result of substance use in the last 3 months?

When did that start?

Did anyone tell you that using "substance" was responsible?

Were you hospitalized because of it?

Did you keep on using "substance" anyway?

Coding rules

LIFE EVENTS

Events occurring in the life and environment of the subject. Life threatening events are events that have caused, or had the potential to cause, death or severe injury. The events should be those in which people actually died or were seriously injured and/or property was extensively damaged, or those events which had the potential to have these outcomes. MOST EVENTS SHOULD HAVE BEEN NOTED IN THE INTERVIEW BY THIS POINT. FOR EACH EVENT THAT OCCURRED, ASK ABOUT ATTRIBUTION AND PAINFUL RECALL. IF PAINFUL RECALL PRESENT AS ABOUT AVOIDANCE, AND HYPERAROUSAL.

Attributions: Subject states that life event has contributed to a problem or symptom already identified. Painful Recall: Subject experiences unwanted, painful and distressing recollections, memories, thoughts, or images of life event. May include repetitive play or trauma-specific reenactment. Avoidance: Subject avoids situations, thoughts, or feelings that might provoke painful recall. Hyperarousal: Symptoms of anxiety or increased arousal not present before the trauma (or exacerbated by the trauma) that may include difficulty falling or staying asleep, hypervigilance (increased general level of awareness and alertness toward the subject's surroundings, in the absence of imminent danger which may be manifested by an exaggerated startle response, jumpiness, scanning the environment for danger). Some individuals report irritability, anger or difficulty concentrating or completing tasks. IF PAINFUL RECALL, AVOIDANCE, AND HYPERAROUSAL SCREEN ALL POSITIVE, NOTE ON THE PTSD SCREEN PAGE (CHECKLIST). NOTE: IF MORE THAN ONE EVENT IS CHECKED ON THE PTSD SCREEN PAGE (CHECKLIST), THE PTSD SECTION WILL BE COMPLETED TWICE: ONCE FOR THE LIFE EVENT GROUP B OR GROUP A THAT THE SUBJECT DESCRIBES AS THE MOST UPSETTING IN THE LAST 3 MONTHS, AND SECONDLY FOR THE LIFE EVENT IN GROUP B THAT THE SUBJECT DESCRIBES AS THE MOST UPSETTING EVENT EVER.

Definitions and questions

GROUP A EVENTS

NEW CHILD(REN) LIVING IN HOME

New child(ren) (less than 18 years of age) who have come to live in the home permanently during the primary period. May be newborn or adopted child, foster child, or child(ren) of a previous relationship.

CODE ID # OF SIBLING FROM FAMILY SECTION.

Have any children come to live in your home in the last 3 months?

Who is that?
When did s/he come to live with you?
Does your "parent" look after him/her?

Who is that?
When did s/he come to live with you?

Definitions and questions

MOVING HOUSE-AVOIDANCE
Do certain things remind you of "life event"?
 What things?
Do you try to avoid these things/thoughts?

MOVING HOUSE-HYPERAROUSAL
Since "life event", have you been more jumpy or irritable?
Have you had any trouble sleeping?
Have you been "on the alert" for bad things happening?

CHANGE OF SCHOOL
 Subject changed schools. Change may be routine because subject was promoted (e.g. elementary to middle school, or middle school to high school) or non-routine, either because of moving, family choice, necessity, or expulsion from previous school.
Have you changed schools in the last 3 months?
When did you last change schools?
 Why was that?
 When did you leave the old school?
 When did/do you start at the new school?
 Will any friends from your old school be at the new school?
 Do you know anyone at the new school?

IF CHANGE OF SCHOOL NOT PRESENT, SKIP TO "LOSS OF BEST FRIEND THROUGH MOVING", (PAGE 22).

Definitions and questions

DEATH OF SIBLING OR PEER

Death of subject's sibling, close friend or other peer.

IF MORE THAN 2 DEATHS, CODE THOSE THAT THE SUBJECT REPORTS AS MOST UPSETTING.

Has a friend of you ever died?

Or one of your brothers or sisters or cousins?

Who was that?

What happened?

When did it happen?

What did s/he die of?

Have you known anyone around your age who has committed suicide?

What happened?

When did it happen?

WITNESS TO EVENT THAT CAUSED, OR HAD POTENTIAL TO CAUSE, DEATH OR SEVERE INJURY

Person saw or heard but was not the object of an event with potential for life threat or severe physical injury. Include seeing someone shot or killed, hearing someone raped or beaten in an adjacent room, seeing another person killed or severely injured in an accident.

Do not include events seen in movies or on the news.

Have you ever seen or heard something really terrible happen to anyone?

*Like someone dying?
Or being badly hurt?
Or being beaten up?
What happened?*

Have you ever seen or heard someone in your family hurting or beating up someone else in your family?

CAUSING DEATH OR SEVERE HARM

Person caused an event resulting in death or severe physical injury.

Include causing a car accident, shooting or otherwise injuring another person, i.e. starting a fire. Do not include delusional guilt over events not under subject's control.

Have you or someone you were with ever hurt another person badly?

Or caused another person to die?

What happened?
Did you mean to hurt him/her?
Was it an accident?

Definitions and questions

VICTIM OF PHYSICAL VIOLENCE (NOT ABUSE)

Subject has been the victim of physical violence, with one or more people using force against the subject with potential to cause death or serious injury. Force may have been used in order to get something (e.g. mugging, robbery), or to intimidate or frighten subject, or for its own sake (assault, fight, torture). Victim may have been threatened with a weapon.

Code physical abuse by family member separately.

Has anyone ever hit or hurt you badly?

Has anyone ever robbed or mugged you?

Or beaten you up really badly?

What happened?

Did they threaten you with a weapon?

Why did they do it?

Do you know who did it?

When was the first time?

Coding rules

SEEKING HELP (PHYSICAL ABUSE)

Three forms of supportive response are coded: listening, which could provide social support and emotional relief; personal intervention, which is personally attempting to prevent the reoccurrence of the situation; or intervention involving a professional agency, which might be phoning the police, contacting appropriate services, referring the subject to such services, or removing the subject from what s/he experiences as an unsafe environment. Unsupportive responses include unwillingness to listen, reluctance to get involved, denial of the truth of the story, and threatening the subject if anyone else ever told.

Did you ever tell anyone about these things?

*Someone you age?
A family member?
An adult outside your family?
Did s/he help?*

*What happened?
What did s/he do?
Did you feel s/he/they could have done more?*

CAPTIVITY

Being held against one's will (usually by someone older) under circumstances with potential for death, severe physical injury, sexual or physical assault. Include being kidnapped or held hostage. Do not include grounding, time outs, or being required to stay with a non-desired person or in a non-desired setting such as day care, camp, a hospital, or prison.

Have you ever been kidnapped?

Or taken as a hostage?

Have you ever been locked up against your will?

What happened?

Who did it?

How did they treat you?

What did they want you to do?

How did they make you do what they wanted?

How did you feel at the time?

IF CAPTIVITY NOT PRESENT, SKIP TO "SEXUAL ABUSE OR RAPE", (PAGE 132).

Definitions and questions

SEXUAL ABUSE OR RAPE

Sexual abuse episode(s) in which a person, termed a perpetrator, involves a child or adolescent in activities for the purpose of the perpetrator's own sexual gratification. These activities can include kissing (that makes a person uncomfortable), genital fondling (over or under clothing), oral-genital or oral-anal contact, genital or anal intercourse, or use of instruments. Sexual abuse does not include medical exams or mutually desired sexual relations with a peer.

Rape is a sudden unexpected (usually isolated) event involving non-consensual sexual intercourse.

Has anyone ever touched you in places where they shouldn't?

Has anyone ever touched you in ways that made you feel funny?

Or seemed wrong to you?

Has anyone ever made you touch them in ways that made you feel uncomfortable?

What happened?

Who was involved?

How did you feel about it?

Were you upset?

When did it first happen?

How many times has it happened?

Has it happened in the last 3 months?

How about in the last 3 months?

COGNITIVE INTRUSIONS

PAINFUL RECALL OF LIFE EVENT

Unwanted, painful and distressing recollections, memories, thoughts, or images of life event.

In the last 3 months have upsetting memories or pictures in your mind of "life event" come back to you?

EXTERNALLY CUED PAINFUL RECALL

Painful recall occurring in response to external cues or stimuli, such as particular sights, sounds, smells or situations.

Do any things or places remind you of "life event"?

What about sounds or things you see?

When that happens does it bring back unpleasant memories of "life event"?

Coding rules

Definitions and questions

PAINFUL RECALL OF LIFE EVENT - AVOIDANCE

Unwanted, painful and distressing recollections, memories, thoughts, or images of "life event" occurring in response to external cues or stimuli, such as particular sights, sounds, smells or situations.

Do you try to avoid any things or places that might remind you of "life event"?

Do you notice any physical effects when you remember "life event"?

- Like your heart racing?*
- Or being short of breath?*
- Or feeling shaky or sick to your stomach?*
- What do you notice?*
- Do you get panicky?*

Would other people notice when you are remembering "life event"?

What do they see?
When you remember event, what do you do to feel better?

- Do you try to think about other things or do things you like to do to take your mind off of it?*
- Do you talk to you or someone else and ask them for help?*
- Do you have a routine of things you can think about or do to feel better?*

Coding rules

AVOIDANCE

- 0 = Absent
- 2 = Avoids situations that might provoke painful recall at least sometimes, but not to a degree that prevents a normal lifestyle.
- 3 = Avoidance leads to disruption of normal life and activities and results in a highly restricted lifestyle.

NORMAL SUPPRESSION

- 0 = Absent
- 2 = Uses normal thoughts or normal activities in attempt to reduce painful recall.

OBSESSIONAL SUPPRESSION

- 0 = Absent
- 2 = Uses obsessional thoughts or obsessional rituals in attempt to reduce painful recall.

COMPULSIVE SUPPRESSION

- 0 = Absent
- 2 = Uses compulsive behaviors in attempt to reduce painful recall.

AUTONOMIC EFFECTS

- 0 = Absent
- 2 = Notices autonomic changes in response to painful recall, but these do not amount to panic attacks
- 3 = Panic attacks in response to painful recall

NOTICEABLE TO OTHERS

- 0 = No
- 2 = Child reports others notice changes (anxiety, daydreaming, etc.).

Definitions and questions

PAINFUL RECALL NOT EXTERNALLY CUED

Recollections not cued by external cues or stimuli.

May be internally cued responses, occurring in response to emotional states, feelings, particular thoughts, autonomic symptoms, bodily sensations, or any other internal cue or stimulus. If internal cues are a response to external stimulus, code as Externally Cued Recollections.

Recollections also may occur without apparent relationship to either external or internal cues or stimuli.

In the last three months have any feelings or emotions reminded you of "life event"?

Have any physical feelings or changes in your body reminded you of it?

When that happens, does it bring back unpleasant memories of "life event"?
What are they like?
How often does that happen?
How long does it last?

When that happens, do you try not to have those "feelings", so you won't be reminded of "life event"?

Do you do anything so as not to have those "feelings" that remind you of "life event"?

Do you try not to think about life event?
Do you do anything to stop yourself thinking about it?
Can you stop thinking about it?
What do you do?

Would other people notice when you are remembering "life event"?

What would they see?

When you "think about life event", do you notice any physical effects?

What do you notice?
Do you get panicky?

Coding rules

Definitions and questions

FAILURES OF RECALL

Inability to recall important aspects of the "life event", such as the names and faces of participants, or parts of the chronology of the event.

Do not include deliberate attempts not to recall the event.

Do you have difficulty remembering some things about "life event"?

What things are hard to remember?

Is that because you don't want to remember them, or that you just can't?

How much can you remember?

Are those memories real clear?

Has it happened in the last three months?

Coding rules

FAILURES OF RECALL

0 = No failure of recall.

1 = Some difficulty recalling certain aspects of the event that can usually be overcome by concentrated attempt to remember.

2 = At least some aspects of the event cannot be recalled, even with effort.

3 = Most or all details of the event cannot be recalled.

Definitions and questions

RELIVING OF LIFE EVENT

Behaving or feeling as though the "life event" were recurring. The experience may involve a sense of reliving the event, illusory or hallucinatory phenomena, or "flashbacks". Flashbacks involve hallucinatory phenomena of sufficient intensity to impair perception of the real world to a substantial degree.

Include panic attacks where the mental content of the panic episode is related to the "life event".

Include such phenomena even if they occurred at times of intoxication with alcohol or drugs or during sleep cycle.

CODE NIGHTMARES IN ITEMS THAT FOLLOW.

In the last 3 months, have you felt as though the "life event" was happening to you again, even when it wasn't?

- What was that like?*
- What did you do?*
- How long did it last?*
- How often did it happen?*
- How real did it seem?*
- Did you feel as though you were really there, and that it was really happening again?*
- When it was happening were you aware of what was really going on around you and where you really were?*
- Did the memory of "life event" seem more real than your actual surroundings?*
- Did this happen when you were falling asleep?*
- Or waking up?*
- Do you ever wake up in the middle of the night feeling this way?*

Coding rules

RELIVING OF LIFE EVENT

- 0 = Absent
- 2 = Able to report sensory phenomena associated with "life event", but still aware of real surroundings to at least some extent.
- 3 = No, or almost no, awareness of real surroundings (flashback).

HOURS : MINUTES

ASSOCIATED PANIC

- 0 = No associated panic attacks.
- 2 = With panic attacks.

Definitions and questions

NIGHTMARES

Frightening dreams that waken subject, with content related to the "life event" (either about "life event" or reminding subject of it). Unpleasant affect apparent when waking, which may be followed rapidly by feelings of relief.

In the last 3 months, have you had any nightmares or bad dreams about "life event"?

Or nightmares or bad dreams that aren't about it but remind you of it?

Tell me about them.

Do they wake you up?

How often do they happen?

When you wake up, do you notice any physical effects?

When you wake up are you panicky?

Is it hard for you to get back to sleep afterwards?

What do you do?

Does fear of these dreams make it hard for you to get to sleep?

Do you have trouble sleeping alone?

Coding rules

NIGHTMARES

0 = Absent

2 = Present

AUTONOMIC EFFECTS

0 = Absent

2 = Notices autonomic changes in response to nightmares.

3 = Has panic attack in response to nightmares.

REASSURANCE

0 = Absent

2 = Upon waking from nightmare, seeks time limited reassurance or contact.

3 = Upon waking, seeks extended reassurance or contact (e.g. won't go back to bed, conflict arises over need for reassurance).

ANTICIPATORY REASSURANCE

0 = Absent

2 = At bedtime, seeks time limited reassurance or contact (e.g. extended bedtime ritual).

3 = Seeks extended reassurance or contact (e.g. won't go to bed, conflict arises over need for reassurance).

Definitions and questions

HYPERAROUSAL

NON-RESTORATIVE SLEEP

Disturbance of usual sleep pattern since "life event" so that subject does not feel rested upon waking and feels tired during the day. Do not include insomnia; sleep is normal but subject feels sleepy during the day.

DO NOT INCLUDE INSOMNIA.

Have you been having problems sleeping well in the last three months?

Do you feel rested when you wake up in the morning?

Has that changed since "life event"?
Do you feel tired during the day from not sleeping well?
Does this make it harder for you to do your work?
How much of the time do you feel this way?
Is it worse when you have been thinking about "life event"?

Coding rules

NON-RESTORATIVE SLEEP

- 0 = Absent
- 2 = Present but does not interfere with functioning.
- 3 = Present and interfered with functioning.

AROUSAL

- 0 = Absent
- 2 = Symptom present 0-25% of the time.

Definitions and questions

INATTENTION

Difficulty maintaining sufficient involvement to allow completion of age-appropriate and developmentally appropriate tasks requiring concentration.

In the last three months, have you had more trouble paying attention than before "life event"?

Is it more difficult for you to concentrate?

*Do you have trouble remembering things?
Has this caused you any problems?
How much of the time do you feel this way?
Is it worse when you have been thinking about "life event"?*

Coding rules

INATTENTION

0 = Inattention absent in interesting activities.

2 = At least sometimes uncontrollable by the child or by admonition, present in at least 2 interesting activities in any situation.

3 = Nearly always uncontrollable by the child or by admonition, present in most interesting activities.

AROUSAL

0 = Absent

2 = Symptom present 0-25% of the time.

3 = Symptom present 26-50% of the time.

Definitions and questions

HYPERVIGILANCE

Increased general level of awareness and alertness towards surroundings in the absence of imminent danger.

In the last 3 months, have you been more "on the alert" for bad things happening than before "life event"?

*What do you do?
 Are you like that even when there isn't much chance of anything bad happening?
 How much has that affected your life?
 How much of the time are you like that?
 Have you given up doing any thing because you don't want to take any chances?
 Is it worse when you have been thinking about "life event"?
 When did that start?*

Coding rules

HYPERVIGILANCE

0 = Absent

1 = Subjective hypervigilance not manifested in any overt behavioral change.

2 = Behavioral manifestations of hypervigilance (e.g. taking care over seating or scanning environment for danger) but they do not limit activities to any major extent.

3 = Behavioral manifestations of hypervigilance that preclude the performance of many or most normal activities.

AROUSAL

0 = Absent

NUMBING

DETACHMENT

A generalized subjective sense of being emotionally cut off from other people that has appeared since the occurrence of a "life event".

Since "life event" have you felt cut off from other people?

Have you been less interested in seeing your friends?

*Have you actually seen less of your friends?
Can you tell me why?
Would you like to see more of them?
Or have you "gone off" on them?*

LOSS OF POSITIVE AFFECT

Complaint of loss of a previously existing ability to feel or experience emotion. Code loss of positive and negative affect separately.

Since "life event" has it seemed as though you have lost some of your feelings?

*Have you got any feelings left?
Can you feel happy or good feelings?*

LOSS OF NEGATIVE AFFECT

Complaint of loss of a previously existing ability to feel or experience emotion. Code loss of positive and negative affect separately.

Since "life event" has it seemed like you have lost some of your unhappy or negative feelings?

Coding rules

DETACHMENT

0 = Absent

2 = Feels that it is more difficult to relate emotionally to people than before "life event", but has not reduced social contacts.

3 = Has reduced social contacts because of difficulty relating emotionally to people.

LOSS OF POSITIVE AFFECT

0 = Absent

2 = Loss of affect in at least 2 activities and uncontrollable at least some of the time.

3 = Affect is felt to be lost in almost all activities.

ONSET: LOSS OF POSITIVE AFFECT

LOSS OF NEGATIVE AFFECT

0 = Absent

2 = Loss of affect in at least 2 activities and uncontrollable at least some of the time.

3 = Affect is felt to be lost in almost all activities.

OTHER BEHAVIORS

PLAY RECAPITULATING "LIFE EVENT"

Play involving activities that recapitulate all or some aspects of "life event" (e.g. preoccupation with crashing cars after being in a car accident, or behaviors that mimic "life event").

Has the way you play changed at all since "life event"?

In what way?
In the last 3 months have you played games that are like "life event"?

Or acted out what happened?

What do you do?

DANGEROUS ACTIVITIES (PTSD - A)

Activities that physically endanger the subject or others.

Since "life event", have you taken chances and done risky things?

Or dangerous things?

What have you done in the last 3 months?
Is this more than before "life event"?

INCREASED ATTENTION TO RELIGION

Increased interest in or observance of religious ideas and practices since "life event".

Have you become more religious since "life event"?

Do you think more about God?

Or the Devil?

Do you go to "church" more often?
Do you read "scripture" more often?
Or pray more?

Coding rules

PLAY RECAPITULATING "LIFE EVENT"

- 0 = Absent
- 2 = Present to an extent greater than before the event.
- 3 = Actions recapitulating life event has become the most frequent or dominant subject of play.

DANGEROUS ACTIVITIES

- 0 = No
- 2 = Yes

INCREASED ATTENTION TO RELIGION

- 0 = Absent
- 1 = Subjective report of greater interest in, or mental attention to, religious matters. Include increased level of reading religious works here.
- 2 = Increase in level of religious observances, including normal prayer.
- 3 = Increase in religious observances including obsessional rituals and compulsive behaviours.

Definitions and questions

DECREASED ATTENTION TO RELIGION

Decreased interest in or observance of religious ideas and practices since "life event".

Do you have less interest in religion since "life event"?
Do you care less about God?
Or the Devil?
Do you go to "church" less frequently?
Do you read "scripture" less?
Or pray less?

OMEN FORMATION

Following the "life event", subject has developed superstitious beliefs or practices to mitigate or prevent recurrences of the event or other possible or imagined "life events".

Are you superstitious about things?

Are there signs that mean bad things will happen?

Or signs that make you think that you'll be OK?

What are they?
Do you think that these signs are really true?
Did you believe in them before "life event" or are they new?

Coding rules

DECREASED ATTENTION TO RELIGION

0 = Absent

2 = Subjective report of decreased interest in, or mental attention to, religious matters. Include decreased level of reading religious works here.

3 = Decrease in level of religious observances, including prayer.

OMEN FORMATION

0 = Not present.

1 = Superstitious beliefs not resulting in any overt behavior.

2 = Superstitious beliefs that have resulted in overt behavior (e.g. carrying charms or rabbits feet).

3 = Activities meeting criteria for obsessional rituals or compulsive behaviors.

Definitions and questions

SURVIVOR GUILT

A subjective belief or feeling of responsibility for the "life event" or its prevention, or a feeling that the subject should have substituted (or been substituted) for another who was more severely affected.

Do you feel guilty about what happened during "life event"?

Do you ever feel it was your fault, even though it wasn't?

Do you sometimes feel that you should have prevented "life event" even though you couldn't?

Do you ever wish that you and not "specific other person" should have "specific other person's" fate?

Do you ever feel bad about what you did during "life event"?

IF THE CHILD FEELS GUILTY OR RESPONSIBLE, PROVIDE REASSURANCE AND COMFORT

REVENGE FANTASIES AFTER EVENT

In the last 3 months subject imagined doing something to punish the "cause" of the trauma.

Do you still wish that you could get revenge or punish "the cause of the trauma"?

Or that something would happen to get back at "the cause"?

What do you wish would happen?

Definitions and questions

CHANGED EXPECTATION OF LONG-TERM FUTURE

Marked change in the subject's expectations of the future, involving the expectation that some or all adult roles will NOT be attained. Code regardless of justification, except in the case of subjects with a current life-threatening illness.

Has "life event" changed what you think the future will be like?

In what way?

Has it changed what you think about getting married?

Or having children?

In what way?

How long do you expect to live?

Has that changed?

Coding rules

CHANGED EXPECTATIONS OF LONG-TERM FUTURE

0 = Absent

2 = Expects to reach adulthood, but predicts poor attainment of adult roles (e.g. does not expect to get married, get a job, or have children); or expects to reach adulthood but is not certain about it.

Definitions and questions

COGNITIVE INTRUSION - AVOIDANCE

Do you try to avoid any things or places that might remind you of "life event"?

Do you notice any physical effects when you remember "life event"?

*Like your heart racing?
Or being short of breath?
Or feeling shaky or sick to your stomach?
What do you notice?
Do you get panicky?*

Do other people notice when you is remembering event?

*What do they see?
When you remember event, what do you do to feel better?*

*Do you try to think about other things or do things you like to do to take your mind off of it?
Do you talk to someone and ask them for help?*

Coding rules

AVOIDANCE

0 = Absent

2 = Avoids situations that might provoke painful recall at least sometimes, but not to a degree that prevents a normal lifestyle.

3 = Avoidance leads to disruption of normal life and activities and results in a highly restricted lifestyle.

ONSET: AVOIDANCE

NORMAL SUPPRESSION

0 = Absent

2 = Uses normal thoughts or normal activities in attempt to reduce painful recall.

OBSESSIONAL SUPPRESSION

0 = Absent

2 = Uses obsessional thoughts or obsessional rituals in attempt to reduce painful recall.

COMPULSIVE SUPPRESSION

0 = Absent

2 = Uses compulsive behaviors in attempt to reduce painful recall.

AUTONOMIC EFFECTS

0 = Absent

2 = Notices autonomic changes in response to painful recall, but these do not amount to panic attacks.

3 = Panic attacks in response to painful recall.

PAINFUL RECALL NOTICEABLE TO OTHERS

0 = No

Definitions and questions

PAINFUL RECALL NOT EXTERNALLY CUED

Recollections not cued by external cues or stimuli.

May be internally cued responses, occurring in response to emotional states, feelings, particular thoughts, autonomic symptoms, bodily sensations, or any other internal cue or stimulus. If internal cues are a response to external stimulus, code as Externally Cued Recollections.

Recollections also may occur without apparent relationship to either external or internal cues or stimuli.

In the last three months have any feelings or emotions reminded you of "life event"?

Have any physical feelings or changes in your body reminded you of it?

When that happens, does it bring back unpleasant memories of "life event"?
What are they like?
How often does that happen?
How long does it last?

When that happens, do you try not to have those "feelings", so you won't be reminded of "life event"?

Do you do anything so as not to have those "feelings" that remind you of "life event"?

Do you try not to think about "life event"?
Do you do anything to stop yourself thinking about "life event"?
Can you stop thinking about it?
What do you do?

Would other people notice when you are remembering "life event"?

What would they see?

When you "think about life event", do you notice any physical effects?

What do you notice?
Do you get panicky?

Coding rules

Definitions and questions

FAILURES OF RECALL

Inability to recall important aspects of the "life event", such as the names and faces of participants, or parts of the chronology of the event.

Do not include deliberate attempts not to recall the event.

Do you have difficulty remembering some things about "life event"?

What things are hard to remember?

Is that because you don't want to remember them, or that you just can't?

How much can you remember?

Are those memories real clear?

Has it happened in the last three months?

Coding rules

FAILURES OF RECALL

0 = No failure of recall.

1 = Some difficulty recalling certain aspects of the event that can usually be overcome by concentrated attempt to remember.

2 = At least some aspects of the event cannot be recalled, even with effort.

3 = Most or all details of the event cannot be recalled.

Codes

Definitions and questions

RELIVING OF LIFE EVENT

Behaving or feeling as though the "life event" were recurring. The experience may involve a sense of reliving the event, illusory or hallucinatory phenomena, or "flashbacks". Flashbacks involve hallucinatory phenomena of sufficient intensity to impair perception of the real world to a substantial degree.

Include panic attacks where the mental content of the panic episode is related to the "life event".

Include such phenomena even if they occurred at times of intoxication with alcohol or drugs or during sleep cycle.

CODE NIGHTMARES IN ITEMS THAT FOLLOW.

In the last 3 months, have you felt as though the "life event" was happening to you again, even when it wasn't?

- What was that like?*
- What did you do?*
- How long did it last?*
- How often did it happen?*
- How real did it seem?*
- Did you feel as though you were really there, and that it was really happening again?*
- When it was happening were you aware of what was really going on around you and where you really were?*
- Did the memory of "life event" seem more real than your actual surroundings?*
- Did this happen when you were falling asleep?*
- Or waking up?*
- Do you ever wake up in the middle of the night feeling this way?*

Coding rules

RELIVING OF "LIFE EVENT"

- 0 = Absent
- 2 = Able to report sensory phenomena associated with "life event", but still aware of real surroundings to at least some extent.
- 3 = No, or almost no, awareness of real surroundings (flashback).

Definitions and questions

NUMBING

DETACHMENT

A generalized subjective sense of being emotionally cut off from other people that has appeared since the occurrence of a "life event".

Since "life event" have you felt cut off from other people?

Have you been less interested in seeing your friends?

*Have you actually seen less of your friends?
Can you tell me why?
Would you like to see more of them?
Or have you "gone off" them?*

LOSS OF AFFECT - POSITIVE

Complaint of loss of a previously existing ability to feel or experience emotion. Code loss of positive and negative affect separately.

Since "life event" has it seemed as though you have lost some of your feelings?

*Do you have any feelings left?
Can you feel happy or good feelings?*

LOSS OF AFFECT - NEGATIVE

Complaint of loss of a previously existing ability to feel or experience emotion. Code loss of positive and negative affect separately.

What about unhappy or negative feelings?

Coding rules

DETACHMENT

- 0 = Absent
- 2 = Feels that it is more difficult to relate emotionally to people than before "life event", but has not reduced social contacts.
- 3 = Has reduced social contacts because of difficulty relating emotionally to people.

LOSS OF POSITIVE AFFECT

- 0 = Absent
- 2 = Loss of affect in at least 2 activities and uncontrollable at least some of the time.
- 3 = Affect is felt to be lost in almost all activities.

LOSS OF NEGATIVE AFFECT

- 0 = Absent
- 2 = Loss of affect in at least 2 activities and uncontrollable at least some of the time.
- 3 = Affect is felt to be lost in almost all activities.

OTHER BEHAVIORS

PLAY RECAPITULATING LIFE EVENT

Activity that recapitulates all or some aspects of "life event" (e.g. preoccupation with crashing toy cars after being in a car accident).

Has the way you play changed at all since "life event"?

In what way?

In the last three months have you played games that are like "life event"?

Or acted out what happened?

What do you do?

DANGEROUS ACTIVITIES

Activities that physically endanger the subject or others.

Since "life event", have you taken chances and done risky things?

Or dangerous things?

*What have you done in the last 3 months?
Is this more than before "life event"?*

INCREASED ATTENTION TO RELIGION

Increased interest in or observance of religious ideas and practices since life event.

Have you become more religious since "life event"?

Do you think more about God?

Or the Devil?

*Do you go to "church" more often?
Do you read "scripture" more often?
Or pray more often?*

PLAY RECAPITULATING "LIFE EVENT"

0 = Absent

2 = Present to an extent greater than before the event.

3 = Actions recapitulating life event has become the most frequent or dominant subject of play.

Definitions and questions

DECREASED ATTENTION TO RELIGION

Decreased interest in or observance of religious ideas and practices since life event.

Do you have less interest in religion since "life event"?

*Do you care less about God?
Or the Devil?
Do you go to "church" less frequently?
Do you read "scripture" less?
Or pray less?*

OMEN FORMATION

Following the life event, child has developed superstitious beliefs or practices to mitigate or prevent recurrences of the event or other possible or imagined life events.

Are you superstitious about things?

Are there signs that mean bad things will happen?

Or signs that make you think that you'll be OK?

*What are they?
Do you think that these signs are really true?
Did you believe in them before "life event" or are they new?*

Coding rules

DECREASED ATTENTION TO RELIGION

- 0 = Absent
- 2 = Subjective report of decreased interest in, or mental attention to, religious matters. Include decreased level of reading religious works here.
- 3 = Decrease in level of religious observances, including prayer.

OMEN FORMATION

- 0 = Not present.
- 1 = Superstitious beliefs not resulting in any overt behavior.
- 2 = Superstitious beliefs that have resulted in overt behavior (e.g. carrying charms or rabbits feet).
- 3 = Activities meeting criteria for obsessional rituals or compulsive behaviors.

Definitions and questions

SURVIVOR GUILT

A subjective belief or feeling of responsibility for the life event or its prevention, or a feeling that the subject should have substituted (or been substituted) for another who was more severely affected.

Do you feel guilty about what happened during "life event"?

Do you ever feel it was your fault, even though it wasn't?

Do you sometimes feel that you should have prevented "life event" even though you couldn't?

Do you ever wish that you and not "specific other person" should have "specific other person's" fate?

Do you ever feel bad about what you did during "life event"?

IF THE CHILD FEELS GUILTY OR RESPONSIBLE, PROVIDE REASSURANCE AND COMFORT.

REVENGE FANTASIES AFTER EVENT

In the last 3 months subject imagined doing something to punish the "cause" of the trauma.

Do you still wish that you could get revenge or punish "the cause of the trauma"?

Or that something would happen to get back at "the cause"?

What do you wish would happen?

Definitions and questions

CHANGED EXPECTATION OF LONG-TERM FUTURE

Marked change in the subject's expectations of the future, involving the expectation that some or all adult roles will NOT be attained. Code regardless of justification, except in the case of subjects with a current life-threatening illness.

Has "life event" changed what you think the future will be like?

In what way?

Has it changed what you think about getting married?

Or having children?

In what way?

How long do you expect to live?

Has that changed?

Coding rules

CHANGED EXPECTATIONS OF LONG-TERM FUTURE

0 = Absent

2 = Expects to reach adulthood, but predicts poor attainment of adult roles (e.g. does not expect to get married, get a job, or have children); or expects to reach adulthood but is not certain about it.

3 = Does not expect to survive to adulthood.

HALLUCINATIONS**

**DO NOT CODE SYMPTOMS INDUCED SOLELY
BY USE OF DRUGS OR ALCOHOL**

**Now I'm going to ask you some questions
about unusual things that we ask everyone with
whom we do this interview.**

DEREALIZATION

The subject experiences his/her surroundings as unreal. A classroom or a bus or a street seems like a stage set with actors, rather than real people going about their ordinary business. Everything may seem colorless, artificial, or dead.

Have you felt that things around you didn't seem real?

**Or it was like a stage set with people acting like robots
instead of being themselves?**

What was it like?

Did you really believe that the world wasn't real?

How do you explain it?

Has that happened in the last 3 months?

How often?

When did you first notice it?

DEREALIZATION

0 = Absent

2 = The subject simply experiences a lack of color and life, so that any tendency towards the artificial tends to be exaggerated.

3 = The subject feels as though the world is made of plastic, as though it is not really there at all.

DEPERSONALIZATION

The subject feels as if s/he him/herself is unreal, that s/he is acting a part rather than being spontaneous and natural, that s/he is a sham, a shadow of a real person. S/he feels detached from his/her experiences.

Derealization is often present at the same time and should be rated independently.

Have you ever felt as if you weren't real?

*What was it like?
Did you feel as if you were acting your life rather than being natural?*

Have you felt that you were outside looking at yourself from outside your body?

*Have you ever felt that you were not a person, not in the living world?
Or that you looked unreal in the mirror?
Or that some part of your body did not belong to you?
Did you feel as if you were actually dead?
Did you really believe that you weren't real?*

CHANGED PERCEPTION - TIME AND HALLUCINATIONS

Include here any changes in perception such as heightened and dull perception. The subject may complain that objects change in shape or size or color or that people change their appearance.

CHANGED PERCEPTION OF TIME

The subject's perception of time seems to change, so that events appear to move very slowly or very rapidly or to change their tempo or to be completely timeless. Time may appear to stop altogether.

HALLUCINATIONS

Hallucinations are false perceptions occurring in clear consciousness. The subject may see images, visions, or hear voices in the absence of any real stimulus to the perception.

*****PHENOMENA NOT TO BE CODED AS PERCEPTUAL DISORDERS*****

Illusions (false perceptions stimulated by real perceptions that are then momentarily transformed)

Hypnogogic Hallucinations (occurring only on falling asleep)

Hypnopompic Hallucinations (occurring only on awakening)

Eidetic Imagery (voluntary production of vivid images, never confuses with reality)

Elaborated Fantasies

Imaginary Companions

Hallucinations occurring only as part of a seizure or in clouded consciousness.

Spots, stripes before the eyes

Sensory changes associated with headaches

Non-specific verbal hallucinations (a voice but not recognizable words except name being called)

Alcohol or drug induced symptoms

DISORDERS OF PERCEPTION, THOUGHT, AND THE CONTENT OF THOUGHT

DO NOT INCLUDE SYMPTOMS INDUCED BY USE OF DRUGS OR ALCOHOL.

"PSYCHOTIC" ABNORMALITIES OF THOUGHT AND SPEECH

Subjects thinking or language has become disordered. Sentences may be hard to follow or completely nonsensical. Ideas may be linked together in unusual ways (such as because of rhymes or puns, as in flight of ideas) or may have no ordinarily comprehensible links (as in "knight's move" thinking).

Distinguish from delusional content or speech; it is quite possible for a child's ideas to be entirely delusional but for the process of thinking and expressing thoughts to be quite normal.

Differentiate from developmental disorders of speech and language (such as language delay and dysarthria) where speech may be difficult to follow. These disorders will usually always have been present and will not represent a change in the child's language.

Is there anything unusual happening to your thoughts?

Is there any interference with your thoughts?

What happens?

Is there anything like hypnotism or telepathy affecting you?

PSYCHOTIC ABNORMALITIES OF THOUGHT AND SPEECH

Definitions and questions

DELUSIONS AND DELUSIONAL INTERPRETATIONS

A delusion is a firmly-held false belief that is out of keeping with the subject's social and cultural background.

A delusional interpretation also has these characteristics, but is an explanation of some other experience (often of other "psychotic" experiences, such as hallucinations) e.g., a subject might interpret hearing voices talking about him as evidence of a police conspiracy. The conspiracy would be a delusional interpretation.

IF THERE IS EVIDENCE OF DELUSIONS OR DELUSIONAL INTERPRETATION, OBTAIN AS FULL AN ACCOUNT OF THE PHENOMENA AS THE PARENT IS ABLE TO PROVIDE.

WRITE THE DETAILS DOWN VERBATIM.

Do you know any things to be true that other people don't believe?

Is there anything strange or unusual happening to you?

Is anyone out to get you?

Is anyone (or anything) trying to control your body or your mind?

IF ANY EVIDENCE OF DELUSIONS AND DELUSIONAL INTERPRETATIONS OR SENSORY CHANGES AND HALLUCINATIONS, THEN OBTAIN AS FULL AN ACCOUNT OF THE PHENOMENA AS THE PARENT IS ABLE TO PROVIDE, AND COMPLETE "TEMPORAL CO-OCCURRENCE" AND "THEMATIC CONSISTENCY". IF THERE IS NO EVIDENCE, SKIP TO "ANY MEDICATION TAKEN CONTINUE. OTHERWISE", (PAGE ERROR! BOOKMARK NOT DEFINED.).

HALLUCINATIONS

FOR REVIEW ONLY

Definitions and questions

AUDITORY HALLUCINATIONS

ALWAYS WRITE DOWN EXAMPLES OF EACH SYMPTOM ELICITED

NON-VERBAL HALLUCINATIONS AND NON-SPECIFIC VERBAL HALLUCINATIONS

This symptom includes noises, other than words, that have no real origin in the world outside the subject but also have no explicable origin in bodily processes, and which the subject regards as separate from his/her own mental processes. Exclude any auditory hallucinations taking the form of recognized words.

HALLUCINATIONS SPECIFICALLY ASSOCIATED WITH BEREAVEMENT

The subject has recently (within the past 1 year) been bereaved and hears only the dead friend or relative. These hallucinations are often brief and may be comforting. The hallucinations must be confined to the voice or other sounds (e.g. footsteps) of the dead person, and they must have arisen following the death of that person in the last 12 months.

Coding rules

NON-VERBAL HALLUCINATIONS AND NON-SPECIFIC VERBAL HALLUCINATIONS

- 0 = Absent
- 2 = Subject hears noises such as music, tapping, central heating noises, etc., or the subject hears whispering, muttering, or mumbling but cannot make out the words.

Definitions and questions

THOUGHT INTRUSION/INSERTION

The essence of the symptom is that the subject experiences thoughts that are not his/her own, intruding into his/her mind. The symptom is not that s/he has been caused to have unusual thoughts but that the thoughts themselves are not his/hers.

THOUGHT BROADCAST OR THOUGHT SHARING

Thought broadcasting is only rated when the subject actually experiences his/her thoughts being shared by others.

If thoughts are repeated, rate as "Thought Echo".

THOUGHT ECHO OR COMMENTARY

The subject experiences his/her own thoughts as being repeated or echoed (not just spoken aloud) with very little interval between the original and the echo.

THOUGHT BLOCK OR THOUGHT WITHDRAWAL

The subject experiences a sudden stopping of his/her thoughts, quite unexpectedly while they are flowing freely, and in the absence of anxiety. When it occurs it is fairly dramatic and it happens on several occasions.

Coding rules

THOUGHT INTRUSION/INSERTION

0 = Absent

2 = In very rare instances, the subject may postulate that they came from his/her own unconscious mind - while still consciously experiencing them as alien.

3 = In the most typical case, the alien thoughts are said to have been inserted into the mind from outside, by means of radar or telepathy or some other means.

THOUGHT BROADCAST OR THOUGHT SHARING

0 = Absent

2 = Subject says that his/her own thoughts seem to sound "aloud" in his/her head, almost as though someone standing nearby could hear them.

3 = Subject experiences his/her thoughts actually being shared with others.

THOUGHT ECHO OR COMMENTARY

0 = Absent

2 = Repetition may not be a simple echo, however, but subtly or grossly changed in quality.

3 = Subject experiences alien thoughts in association with his/her own, or as comments upon his/her own. (Not hallucinations)

THOUGHT BLOCK OR THOUGHT WITHDRAWAL

0 = Absent

2 = Subject just experiences a sudden stopping of his/her thoughts.

3 = The subject is unable to describe pure thought block, but it is very recognizable in the form of an explanatory delusion of thought withdrawal.

DELUSIONS OF THOUGHTS BEING READ

Usually an explanatory delusion, often occurring with Delusions of Reference or Misinterpretation which require some explanation of how other people know so much about subject's future movements. It may be an elaborate Thought Broadcast, Thought Insertion, Auditory Hallucinations, Delusions of Control, Delusions of Persecution, or Delusions of Influence.

Do not mistake it for Thought Insertion or Thought Broadcast, which are diagnostically more important symptoms.

Exclude those who think that people can read their thoughts as a result of belonging to a group that practices "thought reading".

DELUSIONS OF CONTROL

The subject's will is replaced by that of some external agency. A simple statement that the subject is "being controlled" is not sufficient, the subject must describe a replacement of will by some other force.

Do not include feeling that life is planned and directed by fate, or that the future is already present in embryo, or that subject is not very strong-willed, or that voices give subject orders. Do not include simple identification with God or being under God's Direction.

Do not include subculture or hysterical possession states or multiple personality.

DELUSIONS OF REFERENCE

Delusion that people or situations or broadcasts make special reference to the subject. There must be elaborate, e.g. someone crosses their knees in order to indicate that the subject is homosexual, or the whole neighborhood is gossiping.

Include Delusions of Misinterpretation and Misidentification: Situations appear to be deliberately created to test the subject (exclude situations of medical treatment), or objects to have special meaning.

DELUSIONS OF THOUGHTS BEING READ

0 = Absent

2 = Subject seriously entertains the possibility that his/her thoughts might be read, but is not certain about it.

3 = Delusional conviction.

Definitions and questions

DELUSIONS OF PERSECUTION

The subject believes that someone, or some organization, or some force or power, is trying to harm him/her in some way; to damage his/her reputation, to cause him/her bodily injury, to drive him/her mad or to bring about his/her death.

DELUSIONS OF ASSISTANCE

The subject believes that someone, or some organization, or some force or power, is trying to help him/her.

DELUSIONS OF GUILT

The subject believes s/he has brought ruin to his/her family, or others by being in his/her present condition or that his/her symptoms are a punishment for not doing better.

Distinguish from pathological guilt without delusional elaboration, in which the subject is in general aware that the guilt originates within him/herself and is exaggerated.

DELUSIONS OF DEPERSONALIZATION OR NIHILISM

The subject has a strong feeling as if he had no brain, hollow within his skull, no thoughts in his head, etc.

HYPOCHONDRIACAL DELUSIONS

The subject feels that his/her body is unhealthy, rotten or diseased, and can only be reassured for a short while that this is not the case.

Coding rules

DELUSIONS OF PERSECUTION

- 0 = Absent

Definitions and questions

SIMPLE DELUSIONS CONCERNING APPEARANCE

The subject has a delusional belief that something is wrong with his/her appearance. There may only be one particular complaint but there is no elaboration of any kind. Exclude self-consciousness, concern about real skin disease, e.g., acne, etc.

Differentiate from Depersonalizing and Delusions of Depersonalization.

Differentiate from the body image disturbance of Anorexia Nervosa, which relates specifically to a misperception of fatness.

DELUSIONS OF GRANDIOSE ABILITY OR IDENTITY

The subject thinks s/he is chosen by some power, or by destiny for a special mission or purpose, because of his/her unusual talents; or the subject believes s/he is famous, rich, a pop star, or super-hero, titled or related to prominent people.

DELUSIONAL EXPLANATIONS

Include here any delusional explanation or elaboration of other abnormal experiences, e.g., explanations of Thought Broadcast in terms of occult phenomena.

PRIMARY DELUSIONS

Primary delusions are based upon sensory experience (delusional perceptions) in which a subject suddenly becomes convinced that a particular set of events has a special meaning.

Coding rules

GENERAL RATINGS OF DELUSIONS AND HALLUCINATIONS

CONSIDER BOTH DELUSIONS AND HALLUCINATIONS IN THE FOLLOWING RATINGS

SYSTEMATIZATION OF DELUSIONS AND HALLUCINATIONS

PEOCCUPATION WITH DELUSIONS AND HALLUCINATIONS

ACTING UPON DELUSIONS OR HALLUCINATIONS

SYSTEMATIZATION OF DELUSIONS AND HALLUCINATIONS

CJA5101 Intensity

0 = Delusions and hallucinations not elaborated into a general system affecting much of the subject's experience, including encapsulated delusions or isolated hallucinations.

2 = Some systematic elaboration but substantial areas of the subject's experience are not affected.

3 = Subject interprets practically all experience in delusional terms.

PREOCCUPATIONS WITH DELUSIONS AND HALLUCINATIONS

CJA6101 Intensity

0 = Absent

2 = At least sometimes uncontrollably preoccupied with delusions or hallucinations in at least 2 activities.

3 = Uncontrollably preoccupied with delusions or hallucinations in most activities.

ACTING UPON DELUSIONS OR HALLUCINATIONS

CJA7101 Intensity

0 = Absent

2 = The subject has acted upon the delusions or hallucinations during the past 3 months or expressed them in public (i.e., outside the small circle of people who would be expected to be sympathetic). This has not, however, resulted in severe social crisis.

3 = As above, but the acting out, or public expression, has resulted in severe social disturbance or a social crisis, e.g. the subject has attacked a stranger at the command of an hallucinatory voice.

INCAPACITY SECTION

REVIEW BRIEFLY WITH THE SUBJECT THE AREAS WHERE PROBLEMS OR SYMPTOMS HAVE EMERGED DURING THE INTERVIEW. TAKING ONE AREA AT A TIME, REVIEW THE AREAS OF SYMPTOMATOLOGY TO DETERMINE WHETHER SYMPTOMS IN THAT AREA HAVE CAUSED INCAPACITY. USE THIS, AND INFORMATION COLLECTED THROUGHOUT THE INTERVIEW, TO COMPLETE THE INCAPACITY RATINGS. REMEMBER, YOU NEED ONLY TO ASK THE SPECIFIC QUESTIONS IF YOU HAVE NOT ALREADY COLLECTED THE INFORMATION WHILE COVERING THE APPROPRIATE SYMPTOM SECTION. IF INCAPACITY IS PRESENT FIND OUT WHEN IT BEGAN. REMEMBER TO OBTAIN SEPARATE TIMINGS FOR THE ONSET OF PARTIAL AND SEVERE INCAPACITIES.

**SUMMARY OF RULES FOR RATING
INCAPACITY**

IMPAIRMENT/INCAPACITY

Two levels of disturbance or impaired functioning are distinguished:

Partial Incapacity; refers to a notable reduction of function in a particular area. If a person is still able to do things, but does them less well, or more slowly, then code as a Partial Incapacity.

Severe Incapacity; refers to a complete, or almost complete, inability to function in a particular area.

With the exception of the lifelong symptoms mentioned below, most incapacities require a decrement or change in functioning. The decrement can predate the primary period but must still be present during the primary period.

SYMPTOM DEPENDENCE

For incapacity to be rated it must arise demonstrably from the presence of some particular symptoms or disordered behaviors. For instance, a child who has lost friends because her mother would not allow her to associate with them, would not have that loss of friends rated as an incapacity here. Although, of course, it might have had crippling effects on her social life, it would not count as an incapacity because it was not secondary to any psychopathology of the child. However, it would count if the child was too frightened to leave the house and lost her friends because of it.

The specific area of psychopathology responsible for the secondary incapacity should be noted. It is not enough to record that a child was incapacitated in certain ways and that the child had certain psychopathological problems. The incapacity must be linked to the problems that seem to have generated it. Often this is difficult when children have multiple problems and incapacities, but the attempt should be made nevertheless. However, this does not mean that a particular incapacity has to be assigned to one single problem. It will sometimes be the case that several symptoms of different types will contribute to a particular incapacity. When this is the case, each contributing problem area should be recorded.

It follows that if an incapacity is to be seen as being secondary to other symptoms, then those other symptoms must have been present before the onset of that incapacity. They must also have resulted in a fall-off from a previous level of attainment or proficiency if they are to be regarded as having resulted in an incapacity. Thus a child who had previously been able to function well enough in class might show a reduced ability to participate in group activities, because he felt too miserable to do so. This would be regarded as an incapacity secondary to the affective symptoms. On the other if a child had always been unable to participate in group activities and later became depressed, an incapacity, secondary to depression, would be recorded only if his capacity to participate in group activities suffered a further decrement from its already low level. If there had been no further decrement, an incapacity in relation to depression would not be recorded.

LIFELONG SYMPTOMS/BEHAVIORS

In the case of symptoms that have been present throughout life, it will be impossible to show a decrement secondary to the symptoms, because both the symptoms and the putative incapacity will have been present simultaneously. In this situation, provided always that the incapacity can be directly related to the symptoms, it is acceptable to rate it as such. An example might be the social incapacities of a hyperactive child who had always shown such behavior from his earliest years and thus always had disturbed peer relationships.

SITUATION NOT ENTERED

If the subject has not entered a particular social situation (e.g. daycare/school) during the preceding three months, but there is clear evidence from past experience that incapacity would have been manifested had s/he been in the situation (e.g. discordant peer relationships would have been present) then that incapacity is rated as being present, and its date of onset should be determined. The intensity rating should not be higher than the previously actually occurring highest intensity. Quite often in such a situation, the incapacity will have been contributory to the failure to enter the social situation under consideration.

The incapacitating effects of the psychopathology do not have to be directly due to the behavior of the child but may be mediated by others. For instance, if a boy were excluded from school for constant fighting and trouble making, that would be counted as an incapacitation of school performance just as much as if the child had failed to attend because of his own anxiety about leaving home.

ONSETS

The rules for dating the onset of incapacities are essentially the same as those for dating symptom onsets. That is, the decision is first made as to whether or not a particular incapacity was present during the 3 month primary period. If it was, then its onset is coded as the date it appeared at the minimum criterion level required by the glossary definition. Once again, there is a proviso that if the incapacity has been present only intermittently, the onset is dated from when the incapacity began again following the last period of one year (or longer) without incapacity. The dates of exacerbations from partial to complete incapacity are also recorded.

Even if a child did not code for any problems in the a particular section of the PAPA, the Incapacity section can not be skipped. If you have enough information, not every question needs to be asked.

TREATMENT

Referrals to professional agencies or professional concerned with child's symptoms or behavior.

Note the name of the site where treatment was received and the professionals seen.

Treatment may be coded even if symptoms did not code in the PAPA.

Definitions and questions

PARENTAL RELATIONSHIPS - PARENT #1

A child should be able to maintain relationships with his/her parents that are relatively harmonious and capable of containing positive and nurturant communication. The number of arguments or fights that a subject is involved in is rated separately. A change in the relationships, temporally associated with other symptomatology, should ordinarily be expected in order to rate incapacity.

WITHDRAWAL: Incapacity involving refusal or inability to be involved with, or talk to, parent.

DISCORD: Incapacity involving aggression, arguments, fights, or disruptive behavior.

Does it affect how you get along with your "parent"?

How?

What does s/he do about it?

What do you do about it?

Does it cause any arguments?

Can you tell me about the last time it did?

Definitions and questions

SELF CARE

A child should be able to keep him/herself clean and tidy to a degree consonant with his/her age.

The reduction in level of self-care must be marked enough to have led to visible or smellable changes, or to require unusual parental efforts to maintain appearance.

What about keeping yourself clean and tidy? Has that been affected at all?

*How long has it been affected?
What is it that makes it hard for you to keep yourself clean and tidy?*

LEAVING HOUSE

A child should be able to leave his/her house without difficulty. Obviously the range of activities that might induce a child to go outside the house varies widely with age, and judgment must be used in deciding what is consonant with the child's developmental stage.

Does...(symptom)...make it hard for you to leave the house?

Definitions and questions

SCHOOL LIFE

SCHOOL PERFORMANCE

Deterioration in behavior or ability to participate in school/daycare routines (e.g. circle time, rest time, story time) is considered to be evidence of an incapacity. A description of things that the child used to be able to do but can do no longer is required for a rating here; do not include children whose low intelligence limits their ability to perform at daycare/school and have, therefore, always had poor results.

However, a child that has never been able to perform due to hyperactivity or chronic conduct problems would code if it is clear that these problems contribute to difficulties with school performance.

What about at school, does it affect how you get along there?

Or affect how well you can do your lessons?

How?
Can you tell me about the last time that it did?

TEACHER RELATIONSHIPS

A deterioration in a child's relationships with his/her daycare providers/teachers is regarded as an incapacity. The need to use increasing levels of disciplinary action, or a withdrawal from contact with caregivers with whom the child has previously had good relationships, is evidence of disturbance here. Include all nonparental caregivers (e.g. nanny) identified in the child care sections.

WITHDRAWAL: Incapacity involving refusal or inability to be involved with or talk to teachers.

DISCORD: Incapacity involving aggression, arguments, fights or disruptive behavior.

Does it affect how s/he gets along with the teachers?

How?

Can you tell me about the last time that it did?

PEER RELATIONSHIPS AT SCHOOL

Children should be able to form mutually interested relationships and to undertake activities together (playing, chatting constitute activities in this setting). The loss of friends or withdrawal from peer activities indicates incapacity in this area.

WITHDRAWAL: Incapacity involving refusal or inability to be involved with or talk to peers.

DISCORD: Incapacity involving aggressions, arguments, fights or disruptive behavior.

What about how you get along with other children at school; does it affect that?

What about your friends at school?

*Has it made you see friends less than you used to?
Or try to avoid them?
Or do they seem to want to do things with you less than they used to?
Why is that?*

SPARE TIME ACTIVITIES

Reduction of spontaneous play by at least one third and to a degree outside their normal range of variation. Care should be taken to ensure that the subject has not lost interest in an activity for no particular reason. That is to say that the reduction in involvement must clearly be a response to some symptomatology.

Play here includes many activities: imaginary play; playing with dolls, cars, trains; outdoor play; playing on computer/gameboy/nintendo, etc.

Does it affect what you do in your spare time?

For example, has this made it difficult to (refer to subject's interests/hobbies/leisure activities)?

EMPLOYMENT

Many adolescents have jobs, and they may prove unable to perform these jobs adequately as a result of psychopathology, in which case an incapacity should be recorded as being present as a result of that psychopathology. The performance of the job must actually be substandard to some degree. It is not enough that the subject should simply describe it as being more difficult or tiring.

Do you have a job?

Has that been affected at all?

GENERAL SERVICES USE

This page is to be asked of every subject interviewed. The intent is to gather inclusive general information. Detailed Service Forms are not completed on Non-Mental Health related services.

****We have asked you in detail about all services used for emotional, behavioral, or substance related reasons. Now we would like to briefly ask about four services used in general over the last year and over the last 3 months. This will include any services already mentioned plus services used for reasons other than emotional, behavioral or substance related reasons.***

SPECIAL SERVICES AT SCHOOL

Have you used any student services at school (e.g. guidance counselor or special class)?

Have you used them in the last 3 months?

DEPARTMENT OF SOCIAL SERVICES

Have you received any services from DSS (The Department of Social Services)?

In the last 3 months?

RELATIONSHIP WITH PROVIDER

I am now going to read you some statements about your experiences with "therapist/clinic." I want you to tell me if each statement is always true, often true, sometimes true, rarely true or never true.

The "health care provider" does a better job helping me than my parents (caretaker) can.

Does not have as much time for me as I would like.

Does not understand what I need.

Criticizes what my parents (caretaker) do with me.

Expects too much from my family and me.

Accepts what I have to say when I make recommendations.

Helps me understand what is going on with my me.

Respects my wishes and experiences.

Shares information with me.

Treats me as a partner in my child's care.

Does a good job finding programs suitable for my child.

Respects our family's beliefs, customs, and the way in which we do things in our family.

Shows concerns about our entire family, not just the child with special needs.

Points out what my child and family do well.

Definitions and questions

PROVIDER'S FOCUS OF TREATMENT (FORM 3)

Code here the areas of psychopathology that were a focus of treatment provided in this service setting, in the order of their apparent importance. In determining this order, consider the reason for referral, statements about the aim of the treatment remembered by the interviewee, and the type of treatment provided.

What were the main reasons that you "went to treatment setting"?

*Were there any other reasons?
What were they?*

How often (long) did you go/stay in the last 3 months?

AVERAGE LENGTH OF EACH SESSION (IN MINUTES) WITH THAT PARTICULAR PROVIDER.

How long was each visit/session?

When did you first go there for this current treatment?

Are still going?

IF CHILD HAS STOPPED ATTENDING TREATMENT DURING THE LAST 3 MONTHS, CONTINUE. OTHERWISE, SKIP TO SERVICE CONTACT

When did you stop?

What were the reasons you stopped treatment?

CODE 3 REASONS IN ORDER OF APPARENT IMPORTANCE

FORMAT OF SERVICE CONTACT (FORM 3)

I am going to ask you about the different types of treatment that you or family may have received in this setting

Did you receive.....

An assessment/evaluation or psychological testing?

Individual therapy?

Group therapy?

Did you or your family receive.....

Family therapy, when "provider" meets with parents and children together?

Counseling for your "parents" by themselves?

Family support or educational groups, such as group meetings with other families?

Case management, that is someone who helps coordinate the services you receive?

Did your "provider".....

Contact or work with your school?

Contact or work with any other services or agencies?

RELATIONSHIP WITH PROVIDER (FORM 3)

I am now going to read you some statements about your experiences with "therapist/clinic." I want you to tell me if each statement is always true, often true, sometimes true, rarely true or never true.

The "health care provider" does a better job helping my child than I can myself.

Does not have as much time for me as I would like.

Does not understand what my child needs.

Criticizes what I do with my child.

Expects too much from my family and me.

Accepts what I have to say when I make recommendations.

Helps me understand what is going on with my child.

Respects my wishes and experiences.

Shares information with me.

Treats me as a partner in my child's care.

Does a good job finding programs suitable for my child.

Respects our family's beliefs, customs, and the way in which we do things in our family.

Shows concerns about our entire family, not just the child with special needs.

Points out what my child and family do well.

**ATTITUDES AND BARRIERS TO SERVICES
RECEPTIVITY TO SERVICES**

GENERAL RECEPTIVITY

The degree to which an individual thinks that professional services for emotional or behavioral problems are generally beneficial and an appropriate response to major problems.

When people have a serious emotional or behavioral problem, do you think it is a good idea for them to try to get help or treatment?

Do you think people like counselors or doctors can help with the kinds of emotional and behavioral problems people have?

GENERAL RECEPTIVITY

0 = Sees professional services as an appropriate response to major emotional or behavioral problems for people

1 = Sees professional services as probably appropriate for major problems for people

2 = Sees professional services as probably not appropriate for major problems for people

3 = Sees professional services as definitely not appropriate for major emotional or behavioral problems for people

PERCEPTION OF BARRIERS TO SERVICE

Subject's statement that certain circumstances or feelings influenced his/her decision to seek treatment for problems or influenced the response to services.

FEAR, DISLIKE, OR DISTRUST OF PROFESSIONALS

Concern or discomfort with using services caused by subject's fear, dislike, or distrust of talking with professionals.

How do you feel about talking with doctors, counselors, or other professionals?

*Have you talked with anyone like that about the kinds of problems we have talked about?
Tell me about the last time.
What made you uncomfortable?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because of this feeling about "doctors"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did this "feeling" make a difference when you got help in the past 3 months?

What difference did it make?

Definitions and questions

PREVIOUS NEGATIVE EXPERIENCE

Concern or discomfort with using services caused by subject's previous negative experience with professional(s).

Have you ever had a "bad experience/trouble" with a "professional/provider" that kept you from getting help again?

Tell me about it.

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because of "this experience"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did "this experience" make a difference when you got help in the past 3 months?

What difference did it make?

SELF-CONCIOUSNESS

Reluctance to use services caused by self-consciousness about admitting having a problem or about seeking help for it. Also inability to talk with anyone about such sensitive issues.

Is it hard for you to talk to others about a problem?

Or to ask others for help?

Do you feel embarrassed or self-conscious?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because it would be "embarrassing"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did this "feeling" make a difference when you got help in the past 3 months?

Definitions and questions

ANTICIPATION OF NEGATIVE REACTION

Reluctance to use services caused by anticipation of a negative reaction from family, friends, or others to seeking treatment for an emotional or mental problem.

Are you concerned about what your family will think about you getting help?

Or about what your friends would think?

Or about what others would think?

What do you think they would say?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because you were "concerned what others would think"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did "this concern" make a difference when you got help in the past 3 months?

What difference did it make?

ANTICIPATION OF OUT OF HOME PLACEMENT

Reluctance to use services caused by fear that subject's children might be at greater risk of out-of-home placement.

Were you concerned that you might be taken from your home?

Or that you might have to go live somewhere else?

What did you think might happen?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the last 3 months when you didn't get help because of "this concern"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did "this concern" make a difference when you got help in the past 3 months?

Definitions and questions

ANTICIPATED LOSS OF PARENTAL RIGHTS

Reluctance to use services caused by fear that subject might be seen as an unfit parent and lose parental rights.

Were you concerned that your parents might not be allowed to take care of you anymore?

What did you think might happen?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Was there any time in the last 3 months when you didn't get help because of "this concern"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did "this concern" make a difference when you got help in the past 3 months?

What difference did it make?

INCOMPLETE INFORMATION

Difficulty in getting services caused by lack of information about where to get services or how to arrange them.

Did lack of information about who to see make it harder for you to get services?

Do you think you need more information about who to see about a problem?

*How would (did) you try to find out who to see?
Who would (did) you ask about finding the right person?
Would (did) your parents know how to find the right person?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the last 3 months when you didn't get help because you didn't know who to see about the problem?

IF SERVICES IN LAST 3 MONTHS, ASK:

When you got help in the past 3 months, did you have trouble finding out who to see?

Definitions and questions

TIME

Reluctance to use services caused by lack of time to get treatment or to make arrangements for treatment.

Are you concerned about having enough time to get help?

*Do you have time to go to appointments?
Or time to make arrangements?
How much time would be needed?
What would you not be able to do?
Would you have to miss school? How much?
Would you have to give up a job?
Would you miss out on seeing freinds?
Would you have to give up doing things you enjoy?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because of "the time commitment"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did time make a difference when you got help in the past 3 months?

Coding rules

Definitions and questions

COST
 Inability to use services or underutilization of services caused by perception that services could not be afforded or paid for.

Are you bothered about the cost of getting help?

*What do you think it would cost?
 How did you find out what it would cost?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because it would cost too much?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did cost make a difference when you got help in the past 3 months?

What difference did it make?

IF CONCERN ABOUT COST, ASK:

Was that because your insurance would not cover the cost?

*Would your insurance cover part?
 Could you afford the rest?*

Coding rules

Definitions and questions

TRANSPORTATION

Reluctance to use services caused by difficulty getting to treatment site.

Is it difficult for you to get to "treatment" location?

*How far would you need to go?
What transportation would (do) you need to get there?
Is that available?
Why wouldn't you use it?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because you "had no transportation and couldn't get there"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did transportation make a difference when you got help in the past 3 months?

What difference did it make?

BUREAUCRATIC DELAY

This item includes bureaucratic hurdles such as excessive pre-visit paperwork or authorizations, difficulty getting an appointment in a timely fashion or being put on a waiting list, or offices where the phone is not answered or calls are not returned.

Have there been difficulties getting services because of "the system"?

*Have you had trouble getting through on the phone?
Were you put on a waiting list?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because of "bureaucratic delay"?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did bureaucratic delay make a difference when you got help in the past 3 months?

Definitions and questions

SERVICE NOT AVAILABLE

Non-availability of a particular service desired by a subject (such as counseling or drug rehab) because it does not exist in the area where the subject lives.

Are there particular services you would like to use to get help that are not available where you live?

What kind of service?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because that service is not available around here?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did availability or existence of services make a difference when you got help in the last 3 months?

What difference did it make?

REFUSAL TO TREAT

Being refused by the service for various reasons: lack of space/beds, problematic history of subject, fear of liability, etc.

Did any service agency refuse to provide treatment for you?

What was the reason given?
What do you think was the reason?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because you were refused treatment?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did this refusal to treat make a difference when you got help in the last 3 months?

What difference did it make?

Definitions and questions

CHILD OR PARENT REFUSES TREATMENT

The subject refused to go for treatment for which s/he was referred by a professional; or, the spouse/partner refuses to allow the subject's participation.

Have you refused to go to any treatment services?

Hase your "parent" refused to allow you to get treatment?

What was the reason?

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the past 3 months when you didn't get help because you or your "parent" refused treatment?

IF SERVICES IN PAST 3 MONTHS, ASK:

Did your "parent's" refusal to go to treatment make a difference in getting help in the last 3 months?

Did your "parent's" refusal make a difference in getting help in the last 3 months?

Definitions and questions

LANGUAGE

Reluctance to use services caused by lack of professionals who speak the native language of this family. Do not include a speech defect in a parent or subject whose native language is English.

What languages are spoken in your home?

Do your parents speak English?

IF ENGLISH IS ONLY LANGUAGE, SKIP TO OTHER BARRIERS.

*Is it hard for you to talk about your problems in English?
Is it hard for your parents?*

IF SYMPTOMS IN LAST 3 MONTHS, ASK:

Were there any times in the last 3 months when you you didn't go see someone about a problem because of having to speak English?

IF SERVICES IN LAST 3 MONTHS, ASK:

Did having to speak English make a difference when you got help in the past 3 months?

What difference did it make?

Coding rules

LANGUAGES SPOKEN IN THE HOME

- 0 = English is first language
