

Neuroimaging Researcher

Duke University School of Medicine Department of Psychiatry & Behavioral Sciences

The Department of Psychiatry & Behavioral Sciences in the Duke University School of Medicine is seeking an investigator at the Assistant or Associate Professor level to conduct brain imaging research investigating the neural correlates of psychiatric illness. The successful candidate will have a strong academic background with a history of accomplishment in brain imaging research and mentorship.

The candidate will be expected to maintain their own active program of brain imaging research with extramural support. Duke faculty and staff are part of a premier academic medical center dedicated to excellence in education, research, and patient care. Located in Durham, North Carolina, Duke University offers a rich intellectual and scientific environment facilitated by several institutes designed to promote interdisciplinary research. Duke Health encompasses one of the largest biomedical research enterprises in the country and Duke University, together with Duke University Hospital, is the region's leader in developing the next generation of clinicians and researchers.

Candidates must hold an MD, MD/PhD, or doctoral degree in psychology, neuroscience, or a related field. Candidates who are eligible for licensure as a psychologist or psychiatrist in North Carolina are preferred. Salary, rank and tenure status are contingent upon candidate qualifications. Rank and tenure status are awarded in alignment with the Duke School of Medicine's promotion and tenure policy. Duke offers an excellent benefits package and support for relocation.

Duke is an Affirmative Action/Equal Opportunity Employer committed to providing employment opportunity without regard to an individual's age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, ethnicity, religion, sex, sexual orientation, or veteran status. Duke aspires to create a community built on collaboration, innovation, creativity, and belonging. Our collective success depends on the robust exchange of ideas-an exchange that is best when the rich diversity of our perspectives, backgrounds, and experiences flourishes. To achieve this exchange, it is essential that all members of the community feel secure and welcome, that the contributions of all individuals are respected, and that all voices are heard. All members of our community have a responsibility to uphold these values.

Interested candidates should submit CV and Letter of Interest to Jonathan Posner, MD, at jonathan.posner@duke.edu.
